POWER STEERING SERVICE

Our certified technicians use a powerful cleaner to dissolve gum & varnish in your car's power steering unit. Next we will flush old, worn-out, contaminated fluid & install fresh new fluid fortified with special antioxidants and anti-wear ingredients to prevent expensive mechanical failure.

FUEL INDUCTION SERVICE

Our certified technicians use the MOC® Induction Service in a Three-stage cleaning process that uses a complex blend of solvents & advanced detergent blends which help remove deposits & keep the system clean.

Dirty Throttle Body Clean Throttle Body
 * Prices and services may vary slightly depending on your vehicle model and engine. Prices subject to change without notice.

COOLING-SYSTEM FLUID EXCHANGE SERVICE

Using state-of-the-art equipment & a three-part chemical fluid exchange kit, our certified technician will install the flush to help remove the old, contaminated coolant & sludge. Then install new factory coolant along with a coolant conditioner, water pump lubricant, corrosion control & system sealer. This service is designed to help extend the service life of the cooling system.

*Additional Service pricing does not include any applicable shop supplies or taxes.

WE ACCEPT ALL MAJOR CREDIT CARDS

Our maintenance schedule meets or exceeds the manufacturer's recommendations for vehicle maintenance. Some services may not be applicable to all models and the prices for some models may vary. Please consult your service advisor & vehicle owners' manual for specific details & verifications.
