

2009 **\$2000**

Less paper today means more blue skies for tomorrow.

At Honda, we have always considered it our responsibility to do our part to help preserve the global environment, for today and for generations to come. This is an environmental vision we call *Blue Skies for our Children* and with this vision in mind, we felt it was time to make a change for the greater good of the planet.

That's why Honda Automotive has decided to stop printing paper brochures and start encouraging people to visit honda.ca to experience an interactive approach to our cars and company. Yes, it will take some time getting used to, but we think the end result will be worth it for everyone and for the future we all share.

At first sight of the S2000 you feel a connection.

You'll feel the S2000's racing pedigree the moment you slip behind the wheel. The gauges and controls are prominent and logically placed, creating an intuitive driver interface that's intimate yet comfortable. High-bolstered perforated leather seats cradle and brace you for quick manoeuvres, while the audio system with speakers behind the headrest provides the ideal soundtrack for your drive. As the bright digital tach arcs rapidly clockwise, you get an advanced lesson in acceleration. And the harder you push the S2000, with its Drive-by-Wire Throttle System™, the more you realize this car was built to respond.

So go on. Snap through the 6 gears. Make that 237 hp and 162 lb.-ft. of torque sing. Honda engineers used lightweight aluminum-alloy to create the S2000's engine block, cylinder head and oil pan. And super-light forged-alloy pistons work within cylinder liners that are composed of fibre-reinforced metal (FRM), another weight-saving Honda innovation. Plus, with Variable Valve Timing and Lift Electronic Control (VTEC®) technology, no compromises have to be made between low-rpm and high-rpm performance. So whatever the engine speed, power and efficiency are always optimal.

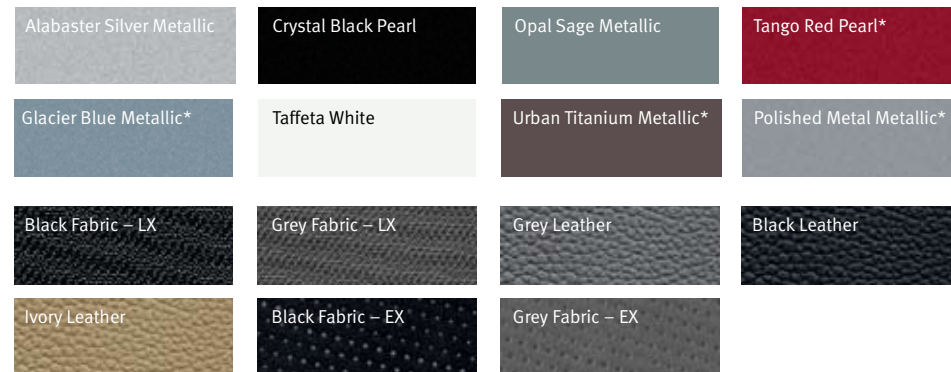

Press start. And let the instant exhilaration of the S2000 connect you with Honda's racing heritage.

S2000

CR-V LX

180-hp, 2.4-litre, 16-valve, DOHC, i-VTEC® 4-cylinder engine • 5-speed automatic transmission with Grade Logic Control and lockup torque converter • 4-wheel Anti-lock Braking System (ABS) with Electronic Brake Distribution (EBD) • 12-volt power outlets (2) • 17" aluminum-alloy wheels • 60/40 split sliding fold & tumble forward rear seats • 160-watt AM/FM/CD audio system with MP3/Windows Media® Audio playback capability and 4 speakers • Advanced Compatibility Engineering™ (ACE™) body structure • Air conditioning with air-filtration system • Available Real Time 4WD® • Drive-by-Wire Throttle System™ • Driver's seat with manual height adjustment • Dual-stage, dual-threshold front airbags (SRS) • Front and rear splash guards • Front side airbags with passenger-side Occupant Position Detection System (OPDS) • Heated power side mirrors • Maintenance Minder system • Power door locks • Power windows with auto-up/down driver's window • Privacy-tinted glass • Remote entry system • Side curtain airbags • Steering wheel-mounted cruise control • Tire Pressure Monitoring System (TPMS) • Under-seat storage bin • Vehicle Stability Assist (VSA®) with Traction Control
