At Honda North, we are very conscious of how we dispose of and recycle the left over waste accrued from the service and repair of your vehicle. We even designed our state of the art "green" facility to participate in the process, however all these important processes have a high cost. Each of your service and repair invoices include a small fee to help in the disposal or recycling of your vehicles waste including: motor oil, transmission fluid, coolant, oil filters, tires, brake linings, rotors, drums, drive belts, etc. We thank you for helping us keep the environment in a pristine condition for generations to come.
