## The road is now an intelligent place.

Think of it this way, an Audi A6 luxury sport sedan is proof you like to take the intelligent approach. In fact, with a suite of available technologies, you can make an intense connection with your A6, and the road. Connect faster with the industry-first handwriting-recognition technology of Audi MMI® touch. Or access the world with Audi Connect, featuring the class-first Google Earth™ navigational assistance, and an embedded Wi-Fi hotspot right in your car.<sup>1</sup> Add in BLUETOOTH® wireless technology, voice recognition, real-time traffic updates, and more, and you have the uncompromised performance of a technologically advanced luxury sport sedan. So advanced, it not only gives you the world, it seems to anticipate the world's response.

### .01 - Full LED Headlight Technology

The Audi A6 offers full LED headlights. With an approximate lifespan of 10,000 hours, these lights are the closest re-creation of daylight yet.<sup>2</sup> Bright and stylish, they offer signature brilliance from Audi.

- fig. 01

<sup>1</sup> Not recommended for use while driving. <sup>2</sup> Based on brightness comparison to the sun and 5,500 K color temperature. Full LED headlights are an optional upgrade.

## Building a more dramatic story, line by line.

Some writers try and conceive one brilliant character and let the plot organically build and flow from there. We took a page from their book, so to speak, when designing the all-new A6. To create and define that brilliant character, we started with one great line. The Tornado line, actually. Bisecting the body profile, it runs strongly through the middle of the vehicle to give it a bold, progressive stance that tells the world that there's pedigree here, but not a predictable one. After that, the narrative becomes yours.

.02 - Design Lines

See how the A6 model's Dynamic line defines the lighting surfaces while also bringing the vehicle closer to the road. Its Roof line creates a sporty coupe-like silhouette, while the Tornado line extends along the entire body to provide its visual muscle.

~ fig. 02

In addition to Wi-Fi connectivity and Google Earth™, assisted navigation, Audi Connect provides weather information, fuel prices, news, and Google Earth™ points of interest, such as landmarks or other attractions.

03 - Audi Connect

## Progress starts with a point of view.

The trick is to be bold while acting cool. That's our approach with the A6. Crafted with precision, appointed luxuriously and built with performance in mind, it is engineered lighter than the previous generation A6 for better efficiency<sup>1</sup> and connected like no car before. We built the A6 not for those concerned with looking up or down, but for those who look out to see all the possibilities.

<sup>1</sup> 25 city/33 highway/28 combined mpg (2012 A6 2.0T); 19 city/28 highway/22 combined mpg (2012 A6 3.0T). EPA estimates. Your mileage will vary.

+++++

## Our interior has no mirror image.

Passion doesn't benefit from balance. Maybe that's why nothing, from the gleaming aluminum-trim surrounds to the burnished decorative wood or brushed aluminum inlays, is symmetrical. We considered every component of the interior and found that the people interacting with it would have different needs. So the dash isn't in balance—it's in a proper perspective for the driver and the passengers, respectively. A uniquely Audi perspective. By incorporating luxury materials and top-flight craftsmanship, we stand apart. By designing with inspired abandon, the A6 interior provides a welcome contrast to the same old symmetry.

### .04 - Inlay Materials

The results of painstaking craftsmanship, the Audi approach to our wood and metal inlays is the same as it is to our engineering. Imperfection is not an option. Nothing is an imitation, so natural wood shines. Nothing is faked, so polished and brushed aluminum glisten. We capture the right accent of your interior choice, and add a singular finish to its fit.

From here, it's all in front of you.

It's time to put yourself in the driver's seat. Feel how the wraparound curve of the A6 instrument panel invites your exploration. See how it integrates intuitively with the overall driver-centric layout. Discover how the design centers around the available Audi MMI® Navigation plus with its 8" display deploying from and retracting into the instrument panel. Adjust the eight-way power-adjustable seats, grab the leather-wrapped, multifunction steering wheel and spark the ignition. It's your time to drive.

# Input as unique as your fingerprint.

What does your handwriting say about you? We aren't really sure. We just know it speaks to us. A revolution in intelligent simplicity, the optional Audi MMI® touch with handwriting-recognition is a class-first technology that gives you the ability to give commands and retrieve media simply by recognizing a few strokes of your finger. Access information such as songs, phone numbers, and destinations through the Audi MMI® touch—or give input to the optional Audi Connect, the world's first media system with Google Earth™-enabled maps. The world isn't simply at your fingertips—your fingertips open up a new way to interact with the world.

.05 - Audi MMI® touch

Developed by the Audi HMI (Human Machine Interface) team, Audi MMI® touch defines why simple can be so complex. Not to use, but to design. The HMI team built a system so advanced, it can read almost anyone's handwriting—even if you choose to write it with your off hand.

- fig. 03

- letter and number entries for destinations and contacts
- radio preset selection
- album-cover scrolling
- map scrolling
- sound distribution adjustment

.06 - Leather

Designed specifically for Audi, leather envelops the vehicle's seating surfaces, to add the right touch to your luxury interior.

## Rewriting the elements of style.

Challenging conventions is easier when you make new ones. With that in mind, our innovative design team changed the way you interact with interior appointments. It's style put to the touch. With luxurious materials, eight-way power front seats and available four-zone automatic climate control in the A6, you literally create a unique cabin environment to fit your own unique style. This is true for the smallest details too, like an optional heated steering wheel, stunning inlays, or available heated and/or ventilated front seats that help keep you comfortable so you can focus on driving.

European model shown with optional equipment.

.07 - Ventilated Seats

Optional front-seat ventilation offers multiple speeds of cooling while available heated rear seats keep everyone warm.

# quattro

## Calm even when the elements aren't.

Despite what others might have you believe, it's not about power *or* control, it's about power *and* control. That's why the A6 3.0T delivers its impressive 310 hp and smooth 325 ft-lb of torque through our legendary Audi quattro® all-wheel drive system that helps grip the road. More than a bad weather security blanket, its dynamic handling and performance shine through in all seasons.

For more than 30 years, we've delivered a more gripping overall driving experience with Audi quattro® all-wheel drive, which instantly optimizes performance and works with torque vectoring to enhance traction and improve handling. We've created a more dynamic all-wheel drive system that will set the new standard for the industry for the next 30 years.

# It's time to throw the road a curve.

Audi quattro® all-wheel drive<sup>1</sup> is more than visionary engineering—it's actually a response to the conditions around our Ingolstadt headquarters. With the weather and the terrain the way they are, all-wheel drive seemed like a smart solution for the problems presented. Since they design mountain roads with hairpin turns, it's only natural that we wanted to turn the tables on the road. Here's how it works:

While the engineering on the A6 helps to elevate the driving profile and performance characteristics, it's not a totally refined sensibility we're after. We are a performance company as much as an engineering or luxury one. The result is intensity that uses technology to its benefit, without taking away from the visceral thrill of driving.

- peaceful
- balanced
- fun
- individualized

**.11 - Audi drive select**

Our drive is responsive, but we also demand that you respond to the drive. With Audi drive select, you choose Comfort, Auto or Dynamic settings that configure the engine, transmission and steering to respond to your mood or the conditions, or just to experiment with drive settings that range from outstandingly comfortable to intensely sporty.

- *comfort mode (peaceful)*  
Perfect for city streets, this setting adds optimized steering to provide a smoother drive.
- *auto mode (balanced)*  
The best of both worlds dialed to the optimal settings for a seamless combination of comfort and responsiveness.
- *dynamic mode (fun)*  
More direct steering and a more sensitive throttle give this setting an aggressive tilt.
- *individual mode (individualized)*  
Take the turn your way—this mode allows you to adjust the steering, throttle and transmission upshifts to your style.

**It might feel like we read your mind.**

European model shown with optional equipment.  
1. Audi quattro® all-wheel drive is standard on 3.0T, not available on 2.0T models.

## With this kind of response, you might not care how efficient you've become.

This is where German engineering finds a new gear. Not content with a heritage of performance, we've developed an even more responsive and efficient way of applying power. Our revolutionary eight-speed Tiptronic® automatic transmission<sup>1</sup> with Dynamic Shift Program (DSP) helps to enhance performance while also allowing you to command upshifts or downshifts through the available steering-wheel-mounted shift paddles.

<sup>1</sup> Eight-speed Tiptronic® automatic transmission is standard on 3.0T, not available on 2.0T models.  
<sup>2</sup> 25 city/33 highway/28 combined mpg (2012 A6 2.0T); 19 city/28 highway/22 combined mpg (2012 A6 3.0T). EPA estimates. Your mileage will vary.

## Realize your kinetic potential faster.

We're not losing weight for looks, but because it makes us stronger and more agile. By lightening our static weight throughout our frame and our engine, we are able to harness more power more quickly—and, not incidentally, more efficiently. That means the A6 3.0T has a supercharged 3.0-liter engine that delivers the potent acceleration of a traditional V8 with the efficiency of a V6. Better mpg<sup>2</sup> and an increased heart rate. Great reasons for slimming down.

# Destined not to become a museum piece.

Yes, we talk about beauty, taste and style, but Audi doesn't build static art—we build automobiles. As much as the A6 is designed to enthrall, it is made to drive, and drive with abandon. So it doesn't make sense to us to put it on a pedestal—we encourage people to get in it and get out there and drive. Let others worry about heritage—we have the road to enjoy.

# No one connects you the way we do.

We set out to change how people interact in and out of their automobiles. A suite of available class-leading technologies has made the A6 a true champion for progress. Audi MMI® touch with handwriting-recognition technology, Audi Connect with Google Earth™, and Wi-Fi connectivity<sup>1</sup> for up to eight devices ensure that no other luxury automotive company offers this level of connectivity in the U.S. And with them, Audi amplifies your interactive life while simultaneously enhancing your driving experience.

+ + 38° 57' 8.1" N  
-77° 23' 41.1" W

+ + 38° 57' 8.1" N  
-77° 23' 41.1" W

## ● Google Earth™ with 3D satellite maps<sup>1</sup>

With industry-first Google Earth™, you'll enjoy 3D topography and the most current maps available on your Audi MMI display.

## ● Sirius Traffic™<sup>1</sup>

Working with your Google Earth™ overlay, you can get traffic conditions and plan alternate routes to get around traffic backups.

## ● Reported local gas prices<sup>1</sup>

Find the lowest reported local price for gas—and the directions to the station—right through your MMI.

## ● Google Earth™ points of interest<sup>1</sup>

A perfect traveling companion, you can access Google® for information on points of interest near where you are—or where you are going.

## ● myAudi features<sup>1</sup>

Plan your destination from your home computer and send your route to your A6, for a preprogrammed trip plan.

## ● Weather information<sup>1</sup>

Current local conditions and forecasts for your destination can help you prepare for your trip.

## ● News feeds<sup>1</sup>

Stay on top of the news by having headlines and stories delivered right to your MMI display.

## ● Mobile Wi-Fi hotspot<sup>1</sup>

Class-first technology that provides high-speed connectivity for up to eight devices through an onboard wireless hub.

<sup>1</sup> Requires a data subscription plan. Distracted driving can cause a loss of vehicle control. The features and technologies discussed above are offered for convenience, and should be used only when it is safe and appropriate. The Wi-Fi hotspot feature is intended for passenger use only. Always pay careful attention to the road, and do not drive while distracted.

## Striking a deep note for a shared passion.

For years, while other sound-system engineers were obsessed with what they thought you should be hearing, Audi sound engineers thought about how we impact what people are feeling when they are enjoying music. We found a partner who shared our passion—Bang & Olufsen®—who has helped us conceive a new way of experiencing sounds in your A6 3.0T. We use speaker positioning and precise sound calibration to work in concert with the ambient noise in your car. The results are crisper, more resonant—you might even say, more emotional. Because, if you are only listening, you're not really feeling it.<sup>1</sup>

( Bang & Olufsen® acoustic lenses )

( 2 of 15 speakers )

5.1 surround sound

.15 – Bang & Olufsen® Advanced Sound System

The passion of Bang & Olufsen® is a perfect match with Audi. By focusing on design and performance, we bring out the best in outstanding acoustics. Bang & Olufsen® engineers help to sculpt perfectly rendered sound through two innovative retractable aluminum acoustic lenses and an impressive 1,300 watts of pure power. Brilliant sound that brings out the passion in the music as much as the passion in the engineers.<sup>1</sup>

1,300 watts

<sup>1</sup> Bang & Olufsen® Advanced Sound System available on A6 3.0T models.

## Focused on the other drivers' distractions.

With something like one in five people on the road checking their e-mail, driving distracted, in cars they don't maintain, Audi engineers had to come up with something that anticipates the arbitrary impulses of this unruly mob. So they developed a suite of available driver-assistance technologies in the A6 that is thoughtfully comprehensive, side to side and back to front. From seemingly sentient Audi adaptive cruise control to Audi pre sense plus active collision warning and preparation, to the literally visionary night vision assistant with pedestrian detection, Audi has incorporated innovative, anticipatory technologies that don't see your future so much as help others avoid changing it.

.17 - Audi side assist<sup>2</sup>

Active at speeds over 19 mph, available Audi side assist monitors blind spots and fast-approaching vehicles at a range of 150 ft from the rear. When a vehicle is present within the monitored area, the system warns you via LED lights in the exterior mirrors.

.18 - Head-up display<sup>1</sup>

Easy-to-view, accurate visual information right at eye level, displaying important driving information and even pedestrian-detection warnings.

.19 - Night vision assistant<sup>1</sup>

With an infrared camera detecting what lies ahead, the A6 uses thermal-imaging technology to help you avoid trouble. Pedestrians can be detected 300 feet in front of the vehicle, while objects can be detected up to 1,000 feet ahead—all shown on the 7" color driver information system.

.20 - Audi adaptive cruise control with Stop and Go<sup>1</sup>

Not only retains a preset distance from vehicles ahead, but resumes acceleration when you're ready. Using long-range radar and a camera, adaptive cruise control helps read the traffic conditions and adjusts, even bringing the vehicle to a full stop before accelerating when traffic flow resumes.

.21 - Audi pre sense plus<sup>1</sup>

Offers comprehensive driving assistance with sensors in the front, side, and rear. After visual, physical and aural collision warnings, there are four distinct phases for automatic preparation for the unavoidable: an upsurge of brake pressure, seatbelt pre-tensioning, partial braking and sunroof and window preparation. In severe cases, Audi pre sense plus will engage full braking and deceleration.

<sup>1</sup> Optional feature.

## Face it—you're surrounded.

The A6 might not be the car for you if you don't want peace of mind. Innovative safety features lead the way in Audi progressive thinking, so you can concentrate on better things, like the great performance of your A6. With up to ten airbags<sup>1</sup> helping to protect nearly every inch of the cabin, an adaptive restraint system protecting its occupants, and aluminum hybrid construction that lightens the static weight of your car to enable enhanced stopping power, Audi thinks of safety in a comprehensive way. Surrounding you with it. So you know you're not alone out there.

.22 - ESC and ABS

Computerized technology that works in perfect sync with the Anti-lock Brake System (ABS), Electronic Stability Control (ESC) helps minimize any loss of stability, applying brake pressure to individual wheels and reducing throttle input to counter oversteer or understeer when the vehicle needs it.

- 01 front-passenger knee airbag
- 02 front-passenger head airbag
- 03 front-passenger seat-mounted thorax side airbag
- 04 driver's head airbag
- 05 passenger-side Sideguard® head curtain airbag for both rows of seats
- 06 driver's knee airbag
- 07 driver-side seat-mounted thorax side airbag
- 08 passenger-side rear seat-mounted thorax side airbag<sup>2</sup>
- 09 driver-side Sideguard® head curtain airbag for both rows of seats
- 10 driver-side rear seat-mounted thorax side airbag<sup>2</sup>

.23 - Ten Airbags

Strategically placed around the occupants, the ten available airbags in the Audi A6 offer passive safety in the event of a collision, helping to protect the driver and passengers on all sides.<sup>1</sup>

.24 - Tailor-made Blanks

Developed to make the best possible use of the body's potential, tailor-made blanks use the special manufacturing process that helps strengthen the upper zone of a B-pillar while the lower zone is designed to mitigate the impact in the event of a side collision.

<sup>1</sup> Airbags are supplemental restraints only and will not deploy under all crash circumstances. Always use safety belts and seat children in the rear, using restraint systems appropriate for their size and age. <sup>2</sup> Optional feature.

## The only time you'd want this to pass you by.

Poets may someday capture the sorrow of watching an A6 pass you by when you aren't sitting in the driver's seat. But, every once in a while, it's good to emphasize the positive—at least you got to enjoy seeing its stunning LED taillights. Known for our stylish, signature headlights, Audi also takes pride in how we say goodbye to others.

.25 - LED Taillight Technology

- fig. 05

Light-emitting diodes (LEDs) are more efficient than halogen lights. Better still, they last much longer. As advanced technology, they react faster than traditional bulbs, going on brighter and quicker—helping give the driver behind you more reaction time.

## Accessories

Imagine a cherry on top of your sundae. Sweet, right? Now imagine a cherry that helps protect your A6 in the garage. Or carries your bikes for a serious weekend on the trails. Or makes heads turn as you drive by. Audi Genuine Accessories are the little extras that make your Audi even sweeter. Designed by the same

visionaries who designed your vehicle, all accessories feature a tailored fit and the expert craftsmanship you'd expect from Audi. They are also backed by the 4-year/50,000-mile Audi New Vehicle limited warranty, or a 12-month/12,000-mile limited warranty, whichever is greater.<sup>1</sup>

### Compact Cargo Carrier

A trim, aerodynamic design that offers a generous 16.95-cu-ft capacity. Size: 81" long, 30" wide, 15" high.

### Storage Cover

A lightweight, easy-to-use Stormshield® cover helps protect your Audi from the elements. Includes a storage bag.

### Textile Floor Mats

These precision-fit mats are made of long-life fabric to help protect the interior of your Audi from the elements. Skid-resistant. Available in Black. Set of four mats.

### 20" Diversas Alloy Wheels

Add to the already striking look of your A6 with the addition of the boldly designed 20" Diversas alloy wheels.

### A6 Base Carrier Bars

Attached to strong side brackets, these are the durable foundation of the Audi roof-rack system. (All roof-rack system attachments require the base carrier bars. All attachments sold separately.)

### Splash Protectors

Help protect your exterior finish with custom-fit front and rear splash protectors. Made of long-life, crack-resistant rubber. Available in sets of two for front or rear (not available on A6 3.0T Prestige models).

Other accessories not shown — — — —

### Various Transport Solutions

The open road is calling—so bring all the right gear to enjoy the ride. The Audi line of storage accessories helps protect your possessions with a variety of intelligent and innovative solutions. Choose from bike racks, ski racks and a variety of cargo carriers.

### Various Comfort and Protection Solutions

Audi Genuine Accessories offer a wealth of practical aids for more space, tidiness and safety on board with functional items to help keep your Audi in pristine condition. Use them all to help reduce wear and tear on your Audi and help keep it looking like new—inside and out.

### Car Care

Use the only car care line specifically designed with your Audi vehicle in mind. Audi Guard car care products provide gentle cleansing formulas and special tools to help give interior and exterior surfaces the finest in cleaning and protection.

### Various Electronic Accessories

The many electronic accessories in your Audi are renowned for design that emphasizes user experience. All products are tested to help ensure compatibility with your vehicle's electrical systems so that you can easily enjoy what Audi technology has to offer.

<sup>1</sup> Tires are supplied and warranted by their manufacturer. High-performance tires are designed for optimum performance and handling in warm climates. They are not suitable for cold, snowy, or icy weather conditions. If you drive under those circumstances, you should equip your vehicle with all-season or winter tires, which offer better traction under those conditions. We suggest you use the recommended winter or all-season tire specified for your car or its equivalent. These high-performance tires also have a lower aspect ratio that aids performance and handling; however, in order to avoid tire, rim or vehicle damage, it is important that the inflation pressure is regularly checked and maintained at optimum levels. Please also remember in making your selection that, while these tires deliver responsive handling, they may ride less comfortably and make more noise than other choices. Finally, these tires may wear more quickly than other choices.
