

ARM LIFT

UP IN THE AIR ABOUT AERIAL LIFTS?

Better check the ARMLIFT down-to-earth advantages! TG Industries, the manufacturer of the Armlift is located in Armstrong, IA and produces a range of aerial devices for the telephone, CATV and other utilities. Their line includes a van-mounted 34 ft. model and the electric/hydraulic insulated or non-

insulated, non-overcenter units with working heights to 41 ft. and side reach of 29 ft., designed for 1-man operation. These units are also very popular with

municipalities, parks & recreation, electrical and building contractors, tree services and industrial plant maintenance.
