

2016 CHRYSLER
TOWN & COUNTRY

Canada's Ultimate Luxury Minivan

YOUR HOME AWAY FROM HOME

Town & Country celebrates the pinnacle of style, luxury and versatility in a minivan with a premium level of comfort and convenience features to match the superior available leather-faced fold-in-floor seating and elegant interior trim. Available features like a power sunroof and High Intensity Discharge (HID) headlamps, along with elegant chrome accents and dazzling 17-inch aluminum wheels, capture its high-end distinction.

ANNIVERSARY EDITION

To celebrate the Chrysler brand's 90th Anniversary of entrepreneurial design and innovation, the Town & Country Touring-L model adds a unique-model package. The special features include a power sunroof, heated steering wheel, hands-free communication with Bluetooth® streaming audio,* and an anniversary-logo radio splash screen and floor mats. This limited edition pays homage to the founder who turned hard work and dreams into reality and enduring success, to deliver safe and stylish vehicles to hardworking families.

Chrysler Town & Country Limited shown in Billet Metallic.

*All disclaimers and disclosures can be found on the inside back cover.

The Comforts of Your Home Away from Home

Town & Country Limited interior shown in Black.

LIMITED AND TOURING-L INTERIOR FEATURES

Sophistication and practicality cohabitate in unity as they endure the demands of your family's busy schedule. Town & Country Limited includes features like Nappa leather-faced seating with Ultrasuede® accents and a wood/leather-wrapped heated steering wheel. Touring-L showcases perforated Torino leather-faced seats for distinctive styling along with power, heated driver and front passenger seats, and second- and third-row window shades.

MULTIPURPOSE ROOM

The enhanced convenience of the class-exclusive² Super Console features a covered storage hub for both front and second-row passengers, power outlets for device charging, and four cup holders — two that can hold up to one-litre bottles. Standard technology and safety features include a premium multimedia centre with 6.5-inch touchscreen and ParkView® Rear Back-Up Camera³ with available extras like Keyless Enter 'n Go™ with proximity entry and Blind-Spot Monitoring with Rear Cross-Path Detection.³

VOICE TEXT REPLY⁴

With your compatible phone paired to the available Uconnect® system's hands-free Bluetooth® technology, the Voice Text Reply⁴ feature will announce incoming text messages and read them to you when you press the phone button and say "listen." It also allows you to reply with any of the 20 preset responses such as "yes" and "I'm on my way." It's the type of technological convenience that makes staying in touch along the way easier and safer than ever.

CLASS-EXCLUSIVE² DUAL INDEPENDENT BLU-RAY®/DVD ENTERTAINMENT SYSTEM

Keep passengers occupied and entertained with two independent high-resolution nine-inch screens, Blu-ray/DVD compatibility and game console inputs. The video system can be operated through the rear-seat entertainment unit, including High-Definition Multimedia Interface (HDMI) connectivity and two USB ports for charging. The overhead rail system includes storage for items like the wireless headphones and remote control, and is surrounded by elegant ambient lighting.

TOUCHSCREEN MEDIA

The standard Radio 430 multimedia centre comes equipped with a 6.5-inch touchscreen and SiriusXM satellite radio with one-year subscription.⁵ It is an intuitive hub for all your media needs, allowing you to stay connected, entertained and focused on driving with available hands-free communication,¹ Bluetooth streaming audio, voice command technology and integrated Garmin® navigation.⁶

INDUSTRY-EXCLUSIVE²
STOW 'N GO[®]

81 Innovative Seating Configurations

With the industry's most innovative passenger and cargo vehicle, including 81 possible configurations, the possibilities are virtually endless. The Stow 'n Go[®] seating and storage system folds and stows the second- and third-row seats into in-floor storage bins, allowing you to go from seven-passenger seating to two-passenger seating, or any combination in between.

With all seats stowed, the interior yields a flat cargo floor and 4,072 litres of space for easy loading without ever having to remove a seat. When the seats are in their upright position, in-floor bins can store a multitude of items, from laptops, purses and toys to backpacks and sporting equipment.

The class-exclusive² Stow 'n Place[®] Roof Rack System offers additional storage for excess baggage, with the convenience of crossbars that stow into the side rails when not in use for improved aerodynamics and reduced wind noise.

Properly secure all cargo.

BINS THAT DOUBLE AS TOY CHESTS

When the seats are in their upright position, 180 litres of in-floor storage bin space afford you the room for a multitude of items. Each compartment is constructed of quiet steel to ensure a peaceful ride. With the most concealed storage in its class,² your bring-it-along options are impressive.

ONE MOTION

The simple second-row Super Stow 'n Go[®] system folds the head restraint down automatically as the seat tumbles into the floor, revealing what makes Town & Country legendary: full access to its cargo space without having to remove a seat.

CLASS-EXCLUSIVE² POWER-FOLDING THIRD ROW

The available class-exclusive² one-touch power-folding third-row 60/40 split-bench seat folds directly into the floor. This feature also includes obstacle detection to automatically pause if something is detected in its path of motion.⁷

CLASS-EXCLUSIVE² TAILGATE SEATING

This ingenious flip option for the third-row seat folds it completely rearward to create the perfect tailgating bench. You'll gain space to stretch for putting on gear, watching the kids' game or simply enjoying the view from your personal shelter while you stay dry and comfortable.

As Efficient As
9.5 L / 100 KM
HIGHWAY*

Award-Winning Engine

3.6L PENTASTAR™ ENGINE

Every Town & Country model is powered by the standard 3.6L Pentastar V6 engine with Variable Valve Timing (VVT). This award-winning engine boasts best-in-class² 283 horsepower and 260 lb-ft of torque, yet provides as efficient as 9.5 L/100 km highway,* combining an exceptional blend of high torque, impressive fuel efficiency and quiet operation. Additionally, a standard fuel-economizer mode alters powertrain characteristics, including transmission shift patterns, to help improve fuel efficiency with the touch of a button on the centre stack.

BECAUSE SOME TOYS ARE A LITTLE BIGGER

With towing capacity of up to 1,588 kg (3,500 lb)³, a Class II hitch receiver and 4-pin wiring harness, as well as load-levelling and height control, the available Trailer Tow Group gives even greater options to the already versatile lifestyle that Town & Country has to offer. Trailer Sway Control, part of the standard Electronic Stability Control (ESC)⁹ System, recognizes sway unique to trailering, and automatically applies the brakes to individual wheels as needed to help eliminate trailer sway. Be assured this system will help keep you and the toys you are towing safely on course and under control.

Town & Country S

ATTITUDE FROM THE INSIDE OUT

The aggressive S model exterior styling features a Black Chrome grille, black-background front and rear Chrysler Wing badges, a black rear fascia step pad, "S" model badging, blacked-out headlamp surrounds and 17-inch Hyper Black aluminum wheels. The performance suspension adds a new level of handling dynamics, yet still provides a comfortable ride that's expected in a luxury vehicle.

THE PERFECT FIT FOR DAY INTO NIGHT

The Town & Country S brings a modern design to top-line equipment tailored for an active, style-minded life. A unique, monotone black interior includes Torino leather-faced seats with silver accent stitching, embroidered "S" logo and cloth inserts. Piano Black accents are found throughout, and the leather-wrapped steering wheel is adorned with a black-background Chrysler Wing design to match the exterior badging. Additional features include amenities like the Super Console, dual independent Blu-ray®/DVD entertainment, remote keyless entry and hands-free communication¹, as well as available heated steering wheel, and heated front and second-row seats.

Town & Country S shown in Black with Silver accent stitching.

*See page 14 for full details.

Town & Country S shown in Brilliant Black Crystal Pearl.

Over 55 Standard and Available Safety & Security Features

PARK-SENSE® REAR PARK ASSIST³

With the vehicle in Reverse, these sensors can detect the presence of objects within 1.9 metres of the vehicle in the back-up pathway and provide an audible and visual warning to notify the driver.

BLIND-SPOT MONITORING (BSM)³

This technology has dual radar sensors that constantly monitor driver blind spots, providing notification of an encroaching vehicle via illuminated icons on the sideview mirrors and by an audible chime if the turn signal is activated.

REAR CROSS-PATH DETECTION³

With the vehicle in Reverse, rear sensors warn the driver with an audible chime if cross-traffic approaches. Included with BSM³

ENHANCED ACCIDENT RESPONSE SYSTEM

This system makes it easier for emergency personnel to see and reach occupants in the event of an accident involving air bag deployment by turning on interior lighting, flashing hazard lamps, unlocking doors and shutting off the flow of fuel to the engine once the vehicle has stopped.

KEYLESS ENTER 'N GO™

With the key fob in a pocket or purse, you can automatically unlock the doors and liftgate with a touch of the door handle. This system allows quick access and includes the added convenience of a push-button-start ignition.

POWER SLIDING DOORS AND LIFTGATE WITH OBSTACLE DETECTION⁷

With the push of a button, in cabin or on the key fob, the dual sliding doors or liftgate open or close. These power doors automatically halt if obstacles are detected.

AIR BAGS¹⁰

Advanced multistage front air bags regulate deployment force based on impact. Supplemental front seat-mounted side air bags, a driver's knee blocker air bag, and supplemental side-curtain air bags for front and rear outboard occupants are all part of the comprehensive full-surround air bag system.

ACTIVE FRONT HEAD RESTRAINTS¹¹

In the event of a rear-end collision, the head restraints automatically move forward and upward to decrease the space between the head restraint and the occupant's head.

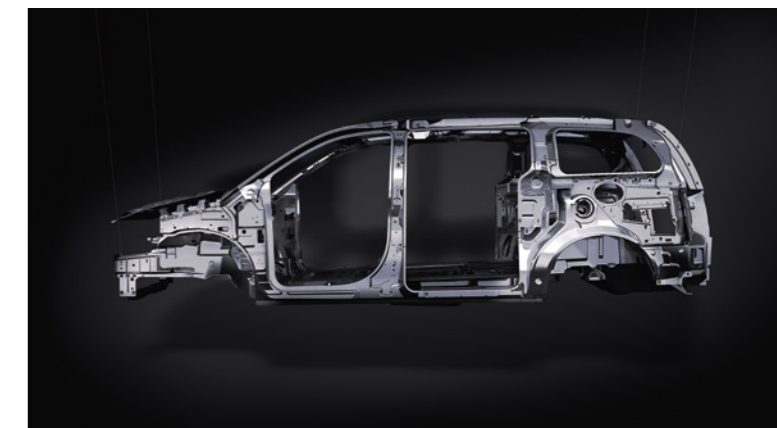

HIGH-STRENGTH STEEL

The Town & Country architecture includes strategically placed dual-phase, high-strength and hot-stamped steel, resulting in a strong safety cage that contributes to overall vehicle-impact performance.

TIRE-PRESSURE MONITORING SYSTEM

Informs driver when tire pressure is too low; pressure-sensor modules within valve stems of all four wheels send continuous radio-frequency signals to a receiver. Available system uses graphic display to indicate tire-specific pressure.

TOURING

CLOTH SEATS – BLACK

POWERTRAIN

- 3.6L Pentastar™ Variable Valve Timing (VVT) V6 with 6-speed automatic

INTERIOR AMENITIES

- 115-volt auxiliary power outlet

DISCLAIMERS: (1) Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. Voice commands of phone require a Bluetooth-compatible phone. (2) Based on the latest available competitive information and *WardsAuto* Small Van Segment (passenger vans only). Excludes other vehicles designed and manufactured by FCA US LLC. (3) This is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of his/her surroundings and be prepared to take corrective action to avoid collisions. (4) Preset voice-to-text messaging and incoming text message reading requires a MAP-enabled phone. (5) Requires SiriusXM radio subscriptions governed by SIRIUS terms and conditions available at siriusxm.ca. (6) Never program while driving. GPS mapping and available 3D navigation may not be detailed or available in all areas or reflect current road regulations. (7) Detects most obstacles. Always use care. (8) When properly equipped. (9) No system can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions. (10) The advanced front air bags in this vehicle are certified to the federal regulations for advanced air bags. Children 12 years old and younger should always ride buckled up in a rear seat. Infants in rear-facing child restraints should never ride in the front seat of a vehicle with a passenger front air bag. All occupants should always wear their lap and shoulder belts properly. (11) Always sit properly with the head restraint properly adjusted. Never place anything in front of the head restraint. (12) Not compatible with all garage door openers.
