A Guide to Getting the Best Service and Price for Your Subaru or Isuzu Vehicle

OUR APPOINTMENT POLICY

We make appointments for service check-in or write-ups. This is designed to reduce the amount of time required to drop off your vehicle. Customers who have made a check-in appointment receive priority scheduling with the goal of completing service the same day.

TO BOOK YOUR APPOINTMENT PLEASE CALL (847) 869-5700

Monday through Friday:
9:00 am to 4:00 pm
Saturday:
10:00 am to 12:00 pm

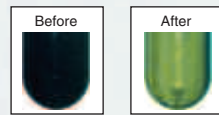

Expires 6/30/2008 • Must present coupon when order is written. Not valid with any other offer or special. Subaru, Isuzu only. Valid only at Evanston Subaru Isuzu.

MOC COOLING SYSTEM FLUSH SERVICE

When left unserviced, chemical deposits can restrict the flow of coolant, plug the radiator and heater core, and eventually lead to overheating. Simply changing the coolant is not enough. The MOC® Cooling System Service is a two-stage power flush designed to safely and effectively clean out any blocked passages and chemically treat the coolant to enhance its cooling properties.

Power Steering Fluid

**NORMALLY \$99.88
NOW ONLY...
\$89.95** plus tax & shop fees with coupon

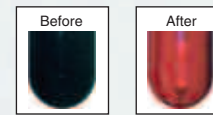

Expires 6/30/2008 • Must present coupon when order is written. Not valid with any other offer or special. Subaru, Isuzu only. Valid only at Evanston Subaru Isuzu.

MOC AUTOMATIC TRANSMISSION SERVICE

The average transmission holds about 12 quarts of fluid, of which only 40% to 50% is changed during a normal transmission service. The remaining old fluid becomes trapped in the torque converter cooler lines and valve body. The MOC® Transmission Service is a three-stage flush. A pre-cleaner removes varnish and sludge from the valve body and pan. A machine then exchanges 99% of the old fluid. Finally, the fluid is treated with a special conditioner that helps keep your transmission clean. Replace transmission filter and oil pan gasket.

Transmission Fluid

**NORMALLY \$149.88
NOW ONLY...
\$135.95** plus tax & shop fees with coupon

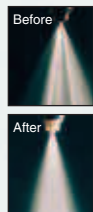

Expires 6/30/2008 • Must present coupon when order is written. Not valid with any other offer or special. Subaru, Isuzu only. Valid only at Evanston Subaru Isuzu.

MOC FUEL SYSTEM SERVICE

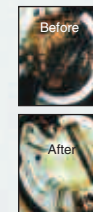

FUEL INJECTION SERVICE

Fuel injectors are designed to deliver an evenly controlled spray to the combustion chamber. However, in as little as 15,000 miles, deposits can form inside the fuel injector and around its tip. These deposits cause an uneven fuel spray that results in stalling, rough idle, poor acceleration and other drivability problems. The MOC® Fuel Injection Service is a cleaning process designed to flush mild solvents through the injectors at high pressure to unclog the injectors to restore their spray patterns to factory specifications.

DE-CARB/THROTTLE BODY SERVICE

Modern engines are finely tuned and extremely sensitive to deposits that accumulate in the throttle body area. Varnish, dirt, and P.C.V. deposits stick to the back of the throttle plate and on the walls of the throttle chamber. In some cases, these deposits can interrupt air flow and disrupt the critical air/fuel mixture, which can cause hesitation, rough idle and increased exhaust emissions. The MOC® DeCarb/Throttle Body service is a three-stage cleaning process that uses a complex blend of solvents and detergent blends which help remove deposits and keep the system clean.

**NORMALLY \$149.88
NOW ONLY...
\$139.95** plus tax & shop fees with coupon

Expires 6/30/2008 • Must present coupon when order is written. Not valid with any other offer or special. Subaru, Isuzu only. Valid only at Evanston Subaru Isuzu.
