POWER STEERING FLUID FLUSH

SERVICE NEED: Power steering fluid is possibly the most neglected oil in an automobile. As power steering fluid ages, it becomes contaminated and loses much of its ability to lubricate. Contaminated fluid also begins to deteriorate and harden seals, which can cause leaks and eventually mechanical failure.

INCLUDES:

- Flush out old fluid
- Replace with special high-performance fluid

NOW ONLY \$69.95
Plus tax with coupon

Expires 11/15/08 • Valid ONLY at Evanston Subaru/Isuzu. Must present coupon when order is written. Not valid with any other offer or special. Subaru/Isuzu only please.

BRAKE FLUID FLUSH

Brake fluid, like the oil in your engine gets contaminated & breaks down, reducing effectiveness. Brake fluid naturally absorbs moisture and collects dirt which promotes abnormal wear on brake components like calipers, wheel cylinders, master cylinder and anti-lock brake system components. Flushing this system will prevent costly repairs to these components.

INCLUDES:

- Flushing out old brake fluid and replacement of new brake fluid
- Inspection of the entire brake system for leaks, corrosion, broken or worn parts

NOW ONLY \$59.95
Plus tax with coupon

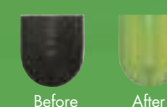

Expires 11/15/08 • Valid ONLY at Evanston Subaru/Isuzu. Must present coupon when order is written. Not valid with any other offer or special. Subaru/Isuzu only please.

COOLANT SYSTEM FLUSH

SERVICE NEED: Chemical deposits can restrict the flow of coolant, plug the radiator and heater core, and eventually lead to overheating. Simply changing the coolant is not enough. The MOC® Cooling System Service is a two-stage power flush designed to safely and effectively clean out any blocked passages and chemically treat the coolant to enhance its cooling properties.

INCLUDES:

- Power flush cooling system
- Remove rust, scale and sludge
- Install new coolant and special conditioners

NOW ONLY \$89.95
Plus tax with coupon

Expires 11/15/08 • Valid ONLY at Evanston Subaru/Isuzu. Must present coupon when order is written. Not valid with any other offer or special. Subaru/Isuzu only please.

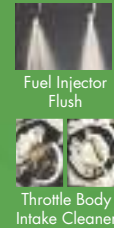

PREMIUM FUEL SYSTEM SERVICE

FUEL INJECTION SERVICE

Deposits can form on the inside of the fuel injector causing uneven fuel spray that result in stalling, rough idle and poor acceleration. We will flush mild solvents through the injectors restoring spray patterns to factory specifications.

DE-CARB/TROTTLER BODY SERVICE

Deposits can stick to the back of the throttle plate and chamber causing an interruption of air flow and disrupt the critical air/fuel mixture. This causes your vehicle to hesitate, idle rough and increases exhaust emissions. Our three stage cleaning process removes deposits with special detergent blends to keep the system clean.

NOW ONLY \$139.95
Plus tax with coupon

Expires 11/15/08 • Valid ONLY at Evanston Subaru/Isuzu. Must present coupon when order is written. Not valid with any other offer or special. Subaru/Isuzu only please.

TRANSMISSION FLUID FLUSH

SERVICE NEED: Only 40% to 50% of transmission fluid is changed during a normal transmission service. The remaining old fluid becomes trapped in the torque converter cooler lines and valve body causing the valves to stick and gears to slip. The MOC® Transmission Flush exchanges 99% of the old fluid before treating the new fluid with a special conditioner that helps keep your transmission clean.

INCLUDES:

- Pressure flush used fluid & contaminants
- Install new fluid and conditioners

NOW ONLY \$135.95
Plus tax with coupon

Expires 11/15/08 • Valid ONLY at Evanston Subaru/Isuzu. Must present coupon when order is written. Not valid with any other offer or special. Subaru/Isuzu only please.

TOTAL FLUID EXCHANGE SPECIAL
