Standard services are designed for Gulf-Region driving conditions. We are factory authorized to perform all warranty repairs on any of your Chevrolet vehicles. Prices are subject to change without notice. Prices vary according to model - See your advisor for your specific model information. All prices plus tax and shop supplies.

ENGINE LUBRICATION & QUICK SERVICES

GM Heavy Duty Diesel Performance Package
Prolongs engine life. Essential for warranty validation.

- replace engine oil and filter with new GM approved parts
- lubricate door hinges and hood latch
- top off fluids as required
- inspect belts and hoses
- check tire pressure and adjust to specs
- perform GM multi-point inspection

DLOF **\$84.99**
*Includes up to 12 quarts of oil. Additional oil available at \$4.78/quart. Premium synthetic oil available at additional cost.

GM Diesel Maintenance 1 Inspection (includes Tire Rotation)
Promotes safety and reliability, while protecting vital engine components.

- replace engine oil and filter with new genuine GM parts for proper fit and performance
- perform tire rotation and brake inspection
- reset oil life system
- inspect fluids for unusual discoloration and deterioration
- top off fluids as required
- perform GM multi-point inspection

GMD1 **\$99.88**
*Includes up to 12 quarts of oil. Additional oil available at \$4.78/quart. Premium synthetic oil available at additional cost.

GM Diesel Maintenance 2 Inspection (includes Tire Rotation)
A comprehensive vehicle service and inspection package, effectively maintaining safety and reliability, while protecting vital engine components.

Includes GM Maintenance 1, plus:

- inspect wiper blades
- inspect safety restraint systems
- inspect throttle system and clean linkage
- perform a comprehensive GM Goodwrench vehicle inspection
- provide written report

GMI2 **\$99.88**
*Includes up to 12 quarts of oil. Additional oil available at \$4.78/quart. Premium synthetic oil available at additional cost.

Replace Wiper Blades
Maintains good visibility when necessary - a key safety factor.

- replace front wiper blades with GM approved blades
- test to ensure proper alignment and cleaning

WBR **\$28.95**

PERFORMANCE & DRIVEABILITY

Diesel Fuel System Service
Maintains fuel efficiency and engine performance.

- optimizes injector spray pattern by maintaining injector cleanliness
- remove condensation from fuel system
- increase cetane rating

DFSS **\$29.95**

Diesel Air Filter Replacement
Prevents dirt and debris from entering inner-engine. Maintains factory fit and performance.

- install genuine GM quality air filter
- clean air box of dirt and debris
- inspect old filter for and signs of blow-by

AFFR **\$88.95**

Diesel Emission Service
Maintains optimum performance, fuel efficiency and cleaner emissions.

- add a cleaner to the crankcase to dissolve contaminants from valve train and internal engine surfaces that accumulates during the normal operation of the vehicle
- administer a fuel conditioner to maintain optimum fuel delivery
- add an oil enhancement treatment to improve oxidation stability and viscosity control

DES **\$119.95**

Diesel Fuel Filter Kit
Maintains fuel quality, protect fuel pump from premature burnout.

- install genuine GM diesel fuel filter for proper fit and performance
- bleed air from system
- check water sensor probes
- inspect old filter for signs of contamination
- inspect fuel lines and connectors

DFFK **\$129.95**

Diesel Fuel System & Injector Flush (incl. fuel filter)
Restores lost power, performance and fuel efficiency.

- replace fuel filter with GM approved parts
- apply agent to remove moisture from fuel system
- perform injector flush to restore combustion chamber cleanliness

DIFSIF **\$189.95**

Flush Diesel Injector System
Restores lost power, performance and increased fuel economy.

- install cleaning product through diesel injectors
- check performance codes

DFIF **\$99.88**

BRAKES, WHEELS & SUSPENSION

Tire Rotation & Balance (includes Brake Inspection)

Prolongs life of tires and ensures safety. Helps prevent unnecessary wear and tear on steering system.

- rotate tires according to manufacturer's specifications
- inspect tire wear
- perform computerized wheel balance

TR **TIRE ROTATION ONLY - \$22.95**
TRB **\$49.95***

*Duallie models are extra.

Four Wheel Alignment Service
Ensures dependable control, safety and extends tire life.

- set vehicle on computerized alignment rack
- inspect steering and suspension components for excessive wear
- adjust toe and camber to manufacturer's specifications
- shims, if required are extra cost

4WA **\$99.95**

*Specialty wheels and duallies requiring extra labor are additional cost.

Brake Fluid Flush
Maintains proper brake fluid quality for best performance under hard braking or adverse conditions. Helps protect ABS components from moisture in old and contaminated fluid.

- inspect brake fluid for sign of moisture or contamination
- flush old out and replace with new quality GM approved fluid
- bleed sysetm of air
- inspect braking service and advise
- inspect brake pedal for proper positioning
- inspect applicable connectors and ABS components

BFF **\$119.95**

CRITICAL SERVICE AREAS

Automatic Transmission Service (includes filter)
Prolongs transmission life: "A critical time interval service."

- remove and clean the transmission pan and inspect for any metal deposits located on the magnetic pickup
- remove and replace the transmission filter and fluid with GM quality parts
- add a seal conditioner for extra protection

ATS **\$189.95**

*External filter extra. Crossmember/skidplate removal extra.

Automatic Transmission Flush
Prolongs transmission life.

- use state-of-the-art equipment to ensure a complete cleaning and fluid exchange
- add an effective cleaner to the system to remove harmful varnish and sludge deposits from components
- replace the transmission fluid
- add a seal conditioner for extra protection

ATF **\$189.95**

*External filter extra. Crossmember/skidplate removal extra.

Transfer Case Service
Maximizes performance and helps prevent wear.

- replace transfer case fluid

TCS **FROM \$75.95**

*External filter extra. Crossmember/skidplate removal extra.

Front & Rear Differential Service
Minimizes wear and ensures performance.

- drain contaminated differential fluid and clean the surface areas
- remove cover when applicable or drain system
- inspect gears for any abnormal wear (when applicable)
- add new GM quality fluid and treatments to ensure superior lubrication and fluid flow at extreme temperatures

DRDS **REAR (SINGLE) - \$145.95**
FRDS **FRONT & REAR (DUAL) - \$269.95**

*External filter extra. Crossmember/skidplate removal extra.

Diesel Cooling System Flush Service
Ensures optimum cooling and heating efficiency.

- perform a complete inspection of the cooling system
- add cleaning agent
- attach the necessary equipment to evacuate the entire cooling system of old coolant and refill with new GM quality coolant
- add a coolant conditioner for additional protection against acid formation

CSFS **\$149.95**

Power Steering Flush
Ensures dependable control and safe driving.

- flush steering system of old fluid and contaminants and install new high-tech fluid

PSF **\$118.46**

Air Conditioning Service
Maintains a proper cabin air temperature.

- check temperature from vent
- inspect connections for signs of leaking
- check freon (extra if required)
- provide report

ACS **\$49.95**

Certified Service

OUR CUSTOMER FIRST PHILOSOPHY

Your Pontiac Buick or GMC has a factory minimum service requirement. These requirements are designed to suit the needs of the general North American market.

Our menu contains recommended services designed to meet the unique conditions of the local Gulf Region, such as high heat and humidity. These service are designed to give maximum protection.

Enjoy these Customer First services at any of our 16 locations across Texas

- Complimentary shuttle service within 25 miles of dealership.
- Fresh coffee available all the time.
- Rental cars available at preferred rates.

NO PART OF THIS MENU MAY BE REPRODUCED, STORED IN A RETRIEVAL SYSTEM OR TRANSMITTED IN ANY FORM BY ANY MEANS WITHOUT PERMISSION.
