GS33K

We are factory authorized to perform all warranty repairs on any of your Subaru vehicles. Prices are subject to change without notice. Prices vary according to model - See your advisor for your specific model information. All prices plus tax and shop supplies.

### ENGINE LUBRICATION & QUICK SERVICES

#### Lube, Oil & Filter Service

*Prolongs engine life. Essential for warranty validation.*

- replace engine oil and filter with new Subaru approved parts
- lubricate door hinges and hood latch
- inspect and top off all fluids
- inspect belts and hoses
- inspect tire pressure and adjust to spec
- includes Customer Care Car Wash Service

LOF **\$29.95**  
\* Includes up to 6 quarts of oil. Synthetic oil available at extra cost.

#### Subaru 49-Point Inspection

*A vehicle safety initiative helps to prevent unnecessary breakdown by alerting you of possible mechanical failures.*

- thorough vehicle inspection includes:
  - all belts and hoses
  - tires (adjust pressures as required)
  - visual inspection of shocks, struts
  - air filter
  - CV boots

• provide comprehensive written report, highlighting any necessary repairs

S49 **\$9.00**

#### Replace Wiper Blade Inserts

*Maintains good visibility when most needed.*

- inspect wiper arm and linkage
- replace both front wiper blade inserts

RWBI **FROM \$19.95\***  
\*Rear wiper blade available at additional charge.

### PERFORMANCE & DRIVEABILITY

#### Fuel System Service

*Maintains fuel efficiency and engine performance.*

- remove moisture from fuel tank to protect in-tank fuel pumps
- control intake valve and piston deposits
- promotes injector cleanliness
- reduces varnish in fuel lines

FSS **\$29.95**

#### Emission System Service

*Maintains engine to manufacturer's specifications. Removes crankcase contaminants, performs minor decarb, removes moisture from fuel system and reduces carbon deposits.*

*PLEASE NOTE: This service must be performed with an Oil Change service as part of its cleaning procedure. This service is best performed with your factory schedule maintenance.*

- remove contaminants from valve train and internal engine surfaces
- clean intake valve deposits from engine
- reduce moisture in fuel tank, protecting fuel pump

ES **\$99.95**

#### Engine Decarbonization Service

*Restores lost power, performance and fuel efficiency.*

- attach deposited control station to perform a complete cleaning of the throttle valve, plate and upper intake manifold
- clean deposits from piston crown
- stabilize compression

EDS **\$149.95**

#### Engine Air Filter Replacement

*An important component to maintain proper airflow and protect engine from harmful dirt and debris.*

- install genuine Subaru air filter for proper fit and performance
- clean air box of dirt and debris

AFR **\$39.95**

#### Drive Belts Replacement

*An important preventative service to maintain dependability.*

- replace the drive belts with Subaru quality replacement parts

DBR **\$89.95**

#### Timing Belt Replacement

*Helps ensure reliability of engine.*

- remove timing belt cover, belt and hardware
- line up timing marks (crank to cam)
- install new Subaru camshaft belt
- verify timing marks line up
- reinstall hardware
- road test

RTB **\$399.00\***  
\*Some models extra. Speak to advisor for details.

#### Spark Plug Replacement

*Ensures correct spark and firing for proper burn and fuel efficiency.*

- remove spark plugs and replace
- inspect ignition system and report

SPRP **COPPER PLUGS - FROM \$109.95**

SPRT **PLATINUM PLUGS - FROM \$209.95**

\*These prices start at the above. Some units require extra time or require platinum plugs. It is important to speak with your service advisor about complete pricing for your model.

### BRAKES, WHEELS & SUSPENSION

#### Tire Rotation (includes Brake Inspection)

*Prolongs life of tires and ensures safety.*

- rotate tires according to manufacturer's specifications
- inspect tire wear patterns
- inspect brakes for wear and advise
- inspect brake fluid for signs of contamination (critical on ABS systems)
- report

TR **\$29.95\***

TRB **TIRE ROTATION AND WHEEL BALANCE \$49.95\***  
\*After market wheels may be higher. Please speak with your service advisor.

#### Brake Fluid Flush

*An important safety and critical time interval service.*

- inspect brake fluid for signs of moisture and contamination
- flush old fluid and replace with new quality Subaru approved fluid
- bleed system of air
- inspect brake pedal for proper positioning
- inspect connectors and ABS components and road test

BFF **\$89.95**

#### Four Wheel Alignment

*Prevents unnecessary wear and tear on steering system & promotes safe vehicle operation.*

- inspect suspension for excessive wear
- retorque as necessary
- set alignment to factory specs
- road test

FWA **\$99.95**

### CRITICAL SERVICE AREAS

#### Transmission Service

*Helps prolong transmission life - a critical time interval service.*

- drain old transmission fluid
- replace fluid with Subaru quality fluid
- add a seal conditioner with anti-oxidant package for added protection

TS **\$89.95**

#### Power Steering Flush

*Promotes long life of steering gear and pump.*

- use a safe cleaner to dissolve and suspend varnish and harmful deposits that form in your vehicle's power steering system
- flush your vehicle's entire steering system of all old fluid and contaminants and install new high-tech fluid to protect against noise, wear and leakage in the system

PSF **\$94.95**

#### Headlight Restore

*Promotes good visibility.*

- restore dull and yellowed headlights

HR **\$99.95**

#### Mist In-Car Air Quality Service

*Reduces micro-organisms such as mold with the vehicle ventilation system improving air quality.*

- fog car ventilation system with patented Mist technology
- inspect air movement through ventilation system

MIST **\$69.95**

#### Differential Service

*Protects gears and bearings from effects of condensation and natural build up of acids.*

- includes front and rear differentials
- drain the contaminated differential fluid
- inspect gears for any abnormal wear
- add new Subaru quality fluid and treatments to ensure superior lubrication and fluid flow at extreme temperatures

DS **\$69.95**

#### Cooling System Service

*Helps to prevent a major cause of mechanical breakdown.*

- perform a complete inspection of the cooling system
- drain the old coolant from the radiator and engine block and replace with new quality coolant
- add a coolant conditioner for extra protection

CSS **\$89.95**  
\*Includes up to 1 gallon of coolant.
