Senses, alerts, and helps **STOP**

Even the best drivers can use a little help. So we created Kia Drive Wise,* our available advanced driver-assistance technologies that are designed to help keep you alert and aware of changes in the flow of traffic ahead of you — and even help you brake in certain situations.

This system is designed to help detect slowing or stopped traffic ahead, and alert you if it detects you getting too close

FORWARD COLLISION-AVOIDANCE ASSIST^{6*} DW

This system is designed to help detect and alert you of a collision risk, and even automatically apply the brakes in some cases

BRAKE ASSIST SYSTEM

If you suddenly slam on your brakes, it's designed to sense the urgency and apply full braking power, which can help shorten your braking distance

ELECTRONIC BRAKE-FORCE DISTRIBUTION

Based on the vehicle's weight distribution, it helps adjust the balance of braking power accordingly
