

## BMW European Delivery Program

Discover the timeless grace.

BMW's European Delivery Program combines the excitement of exploring Europe with the thrill of driving one of the world's premier performance automobiles. Say good-bye to the timetables of trains and tour buses. The distance between destinations that you once endured now becomes an exciting adventure never to be forgotten.

As you browse the pages of this brochure, imagine yourself in the midst of the magnificent beauty of Europe while driving your new BMW. What was once a dream can now become a reality.

We Invite You to Enjoy  
an Incredible Journey.

## Benefits you can't ignore.

### **Savings.**

By taking European Delivery, you can realize substantial savings on the purchase price of your new BMW.

### **Vacation opportunity.**

Many BMW European Delivery customers use the trip to Munich as a starting point for a European driving vacation. And, the lower purchase price might even pay for the entire vacation! With multiple approved drop-off locations throughout Europe, you can enjoy great flexibility.

### **Travel convenience.**

Driving your own BMW means traveling on your own terms. Simply go where you please, when you please, and at your own pace.

### **A memorable BMW driving experience.**

BMW is practically synonymous with the autobahn. You can experience the world's most famous roads in the world's most revered performance luxury automobile.

**"I've been a vendor for the BMW Marketing and Communications Departments for over 10 years and although I always hear about "taking European Delivery", I only recognized what an opportunity it is a year ago when I went to the Welt to drive away in my Crimson X3. It is the best secret that everybody already knows about, but doesn't take the time to do it for themselves. It's a MUST do and then do again!"**

## Logistics.

### **Payment and Leasing**

After your order is received by BMW of North America, confirmation of your delivery date and specifications will be mailed to you and your center. Full payment is required a minimum of 14 days before delivery. Ask your authorized BMW center about lease or finance options which are available through BMW Financial Services. Note: Cars financed or leased through BMW Financial Services are limited to 90 days maximum stay.

### **Eligibility and Documents Required**

To be eligible, you must be a legal resident of the United States, 18 years of age or older, with a valid driver's license. You may stay in Europe for up to five months from the day you pick up your vehicle. Should you extend your stay beyond 14 days, there is an additional charge for insurance coverage (please see [www.bmwusa.com/europeandelivery](http://www.bmwusa.com/europeandelivery) for further details). BMW will handle all the paperwork necessary for the insurance and registration of the car.

### **BMW Welt**

The BMW Welt is open from 9:00 am - 6:00 pm daily. Delivery appointments are available from Monday through Saturday between the hours of 7:30 am and 4:00 pm (last check-in appointment). Your delivery time will be scheduled once your delivery date has been established.

### **Factory Tours**

Upon arrival at the BMW Welt, your specialist will design your day for you, including a factory and museum visit if you choose. It is not necessary to make your tour appointment in advance because tours are scheduled upon arrival at the Welt. Factory tours are available Monday – Friday; however, they are influenced by production schedules. The factory can close for multiple reasons and on those days factory tours may not be offered.

## Insurance

The insurance plan offered by BMW as part of the European Delivery Program is underwritten by one of Germany's largest carriers. The plan provides full coverage in Europe without a deductible except in the case of theft, where a 10% deductible applies. BMW provides 14 days of free coverage, however, should customers require additional coverage, it can be purchased in monthly increments. For example, for 45 days of insurance coverage, you would order two months of coverage, which is the actual coverage provided, not one month plus 14 days. Additional details and information on the insurance costs and coverage can be found on [www.bmwusa.com/europeandelivery](http://www.bmwusa.com/europeandelivery). This coverage must extend to your drop off date and must be confirmed prior to arrival in Germany. It cannot be extended once the vehicle is registered (usually 10 business days prior to delivery). The package also includes Emergency Road Assistance in most European countries at no extra cost.

## Navigation System

If your BMW is equipped with on-board navigation, this will assist you on your European journey. Forget unwieldy maps and stopping to ask directions. BMW's optional on-board navigation system is your personal guide to virtually any metropolitan destination. Simply select "Navigation" from the on-board monitor menu and input an address. When using the navigation system, a map of your area appears on the on-board monitor, showing – and telling – the direction. This invaluable feature also helps locate historic sites, airports, fuel stations and that hidden-away five-star restaurant.

## Shipping Your Vehicle Home

When your European experience comes to an end, it is now time to ship your vehicle to the United States via a designated freight forwarding company. As part of the European Delivery Program, you can choose one of many convenient drop-off locations. You simply deliver your car to the designated shipping agent. The shipping agent will arrange for the car's transportation to Bremerhaven. Please note that some locations now require reservations in advance. Phone numbers and email address are conveniently located on our website, [www.bmwusa.com/europeandelivery](http://www.bmwusa.com/europeandelivery) under each drop-off location.

BMW includes the cost of transportation,\* customs clearance, duty, and marine insurance in the purchase price of all BMWs sold under the European Delivery Program. Allow approximately 6-8 weeks for shipment to the east coast and 8-10 weeks to the west coast from the drop-off date for your vehicle to arrive at your BMW center for final customer re-delivery.

**"The European Delivery experience was such an experience that I can't imagine picking a car up in the traditional manner ever again. My family and I will always use the Welt experience as the measuring stick for future car delivery."**

– David Moulton, Vero Beach, FL

**"What an awesome experience. Absolutely fantastic. Completely worth the time and travel to be treated so wonderfully. Besides, the car is beautiful. What a fun trip. Great way to pick up a car!"**

– Masood A. Haque, Houston, TX

\* Shipping from Italian cities is possible for an additional fee, which is not included in the cost of your European Delivery purchase. Shipment from Italian cities must be arranged with the shipping office in Munich one week before your intended drop off. Cars are driven to Munich for truck transfer to point of loading. Car registration and insurance must be valid to allow for inland transportation.

## BMW's European delivery offer.

BMW now makes delivery in Europe easier than ever. Included in the base price of the model are:

- 14 days of premium road insurance
- Tourist registration
- Factory preparation
- Inland European transportation from your drop-off point to the port of export
- Marine insurance
- Customs duty and clearance
- U.S. port processing and accessory installation
- Wharfage and handling fees
- Return shipment to U.S.

### New Vehicle Limited Warranty

BMW's commitment to building quality automobiles extends to providing quality services throughout the world. Your new BMW U.S. model purchased under the European Delivery Plan receives the same warranty privileges as those purchased and delivered in the U.S. Every U.S. model BMW is backed by a new vehicle limited warranty of 4 years/50,000 miles, whichever comes first from the date of sale. See [www.bmwusa.com](http://www.bmwusa.com) for full warranty details.

While traveling, authorized BMW centers in Europe will honor the U.S. model warranty coverage up to six months without mileage limitations. Should your car require servicing, a BMW trained professional is never far away — another advantage to owning the car that Europeans consider a stalwart friend rather than a luxury. So relax and enjoy the ride.

**“The very first thing we did in Europe was to take delivery of our brand new BMW 328i. What a lifetime experience! Since the moment you walked in the impressive, state-of-the-art modern building, you feel your dreams come true. This is like walking on the red carpet before a gala show. You are a VIP!”**

– Frank Quan, Pleasant Hill, CA
