

**ACCESSORI ORIGINALI
AUTOMOBILI LAMBORGHINI
MULTIMEDIA**

**WE'RE ITALIAN.
OUR PASSION IS BOUNDLESS AND
KNOWS NO COMPROMISE.**

This is true for every Lamborghini, and for each and every detail. If you love your Lamborghini as much as we do, show it. There are lots of ways you can

MULTIMEDIA

INNOVATION IS NEVER A COINCIDENCE, BUT THE PRODUCT OF INTENSE COMMITMENT.

When you compare a current model of Lamborghini with one from 25 years ago, you find that technological progress has clearly improved both comfort and usability. "Over the years we have introduced countless innovations, with the last ten years being the most exciting. We've really put the pedal to the floor in this area with the Murciélago, Gallardo, Aventador and Huracán. The Infotainment system, the crown jewel of our on-board electronics, is equipped with extremely precise technology. It's impossible not to notice it!". The level of comfort can be further enhanced with original accessories such as navigation systems with high-definition color display and top-quality maps, Bluetooth interfaces, and rear-view cameras that have an easy to see broad viewing angle, with very crisp images. Both the standard equipment and the accessories meet Lamborghini's extremely high quality standards. Meeting such stringent criteria requires more than great care and lengthy technical experience. You must have a specific desire to perfect each and every component.

DIGITAL AUDIO BROADCASTING

With this system, you can take advantage of today's new digital radio technology and enjoy extremely high signal quality, without the interference that's typical of analog systems. (Available in Europe, only)

Huracán | Aventador

SATELLITE NAVIGATION SYSTEM AND REAR VIEW CAMERA (RVC)

A navigation system with high-definition color display and top-quality maps, Bluetooth interfaces, and rear-view cameras that have a broad viewing angle and provide very crisp images is combined with a rear-view camera housed in the rear of the car, which switches on automatically when you shift into reverse. The images are displayed on a 7-inch TFT display that even shows the direction in which the steering wheel is turned, to make it easier both to park and to leave parking spaces.

Huracán | Gallardo

SATELLITE NAVIGATION SYSTEM

The cars made in Sant'Agata Bolognese are already some of the fastest in the world. The only way to reach a destination even sooner is to choose the fastest route. Our navigation kit will do it for you in perfect Lamborghini style: at maximum speed. Also available together with the rear-view camera.

Huracán | Gallardo

REAR-VIEW CAMERA (RVC)

This rear-view camera housed in the rear of the car switches on automatically when you shift into reverse. The images are displayed on a 7-inch TFT display that even shows the direction in which the steering wheel is turned, making it much easier to park or to leave parking spaces.

Gallardo | Murciélago
