SPORT

**WE'RE ITALIAN.
OUR PASSION IS BOUNDLESS
AND KNOWS NO COMPROMISE.**

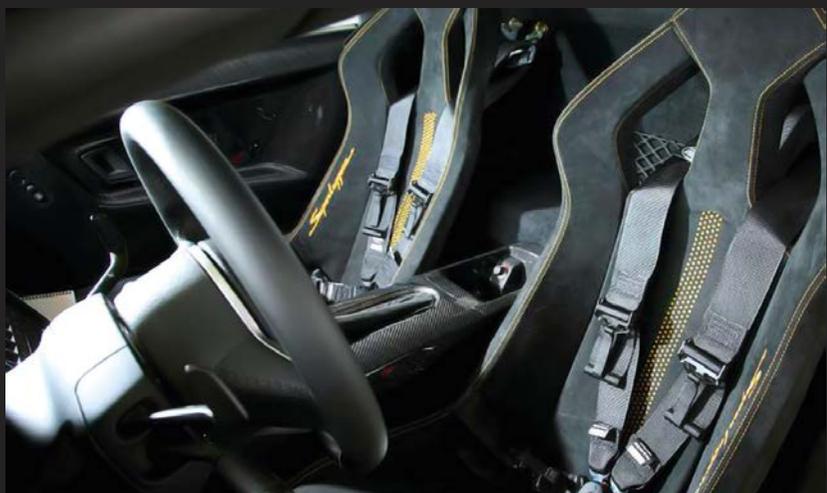

This is true for every Lamborghini, and for each and every detail. If you love your Lamborghini as much as we do, show it.

SPORT

Engine architecture, advanced technology, gasoline running through the veins and great passion in the heart.

Lamborghini Squadra Corse was created by a Research and Development team that specializes in official racing. Squadra Corse has been providing a unique approach to the Lamborghini driving experience since 2013. The Gallardo GT3 2013 was the first race car built entirely by the Automobili Lamborghini Research and Development team, which was made possible by the creation of an internal team devoted entirely to racing. The Lamborghini Accademia provides professional training on the track and on ice to drivers who are approaching the world of racing for the first time. Super Trofeo series are perfect for young drivers and amateurs, while the Lamborghini GT3 class is designed for drivers with greater experience who want to compete on the international level. Thanks to experience gained by Lamborghini technicians and by the Squadra Corse team during the Super Trofeo single-make championship, new accessories with advanced technology have been created, deeply linked to the world of on-the-track racing and intended for customers who demand the highest levels of performance and excitement.

CARBON CERAMIC BRAKE KIT

For a vehicle produced in Sant'Agata Bolognese, every gram of reduced weight is an advantage. That's why we work passionately to trim down the weight of our cars. And that's why we use carbon ceramic brakes, which not only offer a very long service life, but are significantly lighter than traditional brakes.

SPORT TIRES

Extreme handling capability in all situations, with the very highest levels of traction and braking response. Differentiated tread pattern, with longitudinal grooves at the front for maximizing water drainage and asymmetric tread at the rear that provides an optimum area of contact with the road at all times. The structure of the tire and the innovative rubber compound are specifically designed for racing. Also available in a 20" and 21" version for the Aventador.
