

Bluetooth®¹ PAIRING GUIDE

Pairing your phone² is the first step in connecting with your Toyota for hands-free calling and for audio streaming via Bluetooth®.

The pairing process is quick and easy: all iPhone®³ mobile digital devices and Android™⁴ smartphones have Bluetooth® integrated; all you have to do is setup the phone and multimedia system to “talk” to each other and form a connection².

iPhone®³ Pairing

STEP 1 INITIATE BLUETOOTH®¹ ON YOUR PHONE

Let's get started by initiating Bluetooth® on your phone².

iPhone®³ pairing instructions are provided on this page. Please turn this guide over for **Android™⁴** pairing instructions.

Note: This is a general overview; there may be some differences on the pairing process with specific phones.

DISCLOSURES

This brochure is accurate at the time of print; content subject to change based on periodic multimedia software updates.

1. The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc., and any use of such marks by Toyota is under license. Other trademarks and trade names are those of their respective owners. The phones listed claim to support Bluetooth® wireless technology and/or streaming. Toyota does not endorse a particular phone or substantiate the Bluetooth® wireless technology and/or streaming capability of the included phones.

2. Never attempt while driving.

3. iPhone® is a registered trademark of Apple, Inc. All rights reserved. Apple is not a participant in or sponsor of this promotion.

- 5
- 6

From the main screen, select the app drawer icon.

Select **Settings**.

Select **Wireless & networks**.

Select **Bluetooth settings**.

Ensure the box next to **Bluetooth** is checked. If not, touch the box to turn on **Bluetooth**.

Touch **Scan for devices**. The phone will search for your Toyota multimedia system.

STEP 2 INITIATE BLUETOOTH®¹ ON YOUR MULTIMEDIA SYSTEM

Now that you have *Bluetooth*® on your phone ready to pair, you need to initiate *Bluetooth*® on your multimedia system. Please look at the choices below and select the instructions for the multimedia system that most closely resembles the one in your vehicle.

Display Audio

1 Press the **Setup** button on the faceplate, then touch **Bluetooth**.

2 Touch **Add New Device**.

3 Touch **Search for Bluetooth Devices** or **Make This System Discoverable**.

4a If you touched **Search for Bluetooth Devices**, a list of discovered devices will appear. Touch the device to be paired.

4b If you touched **Make This System Discoverable**, select **CAR MULTIMEDIA** on your smartphone.

5 A message will direct you to start the pairing process on your phone. Touch **Pair** on your phone when prompted.

6 Touch **Accept** to pair your smartphone to your vehicle. You also may need to enter the supplied Passkey on your phone.

7 A confirmation will appear that your phone has been paired and connected.

Display Navigation with Entune®

1 Press the **MENU** button on the faceplate, then touch **Setup**.

2 Touch **Bluetooth**.

3 Touch **Connect Phone**.

4 Touch **Add New**.

5 The system will begin searching for your phone. Your phone should have **CAR MULTIMEDIA** listed as a device ready to pair.

6 Touch **CAR MULTIMEDIA** on your phone to initiate pairing.

7 Verify your phone is attempting to pair. You may need to enter a security code on your phone to confirm.

8 A confirmation will appear that your phone has been paired and connected.

Premium HDD Navigation with Entune® and JBL®

1 Press the **Setup** button on the faceplate.
