THE SOUL OF THE MATTER

The lean muscle of its body promises, and its athletic heart delivers. It's an SUV, but with sport-sedan reflexes, stamina and poise. The GLC fuses stylish with secure, refined with rugged, and innovative with inspiring as only a Mercedes-Benz can. The Star you can see is the soul you'll feel.

For many drivers, an SUV has replaced the sedan as the default automobile in their life. It's not hard to figure out why: A commanding view of the road and a flexible cabin are advantages whose appeal might outweigh what a lot of SUVs ask you to give up in handling or efficiency. For Mercedes-Benz, however, sacrifice has never been part of the regimen of developing a vehicle. Which is why, no matter where you plan to travel in your SUV, where it comes from matters just as much as where it can go.

The 2017 GLC is one of five lines of Mercedes-Benz SUVs, and it advances a pioneering spirit few, if any, competitors can match. Its lineage draws directly from the first all-wheel-drive vehicle, introduced by Daimler in 1909—along with the first car and truck some 20 years earlier. Its family tree includes such adventure heroes as the G-Class and Unimog, as well as true action stars like the record-setting Blitzen Benz, Silver Arrow and 300 SLR racecars. Its bio reads like a glossary of driving innovations, with breakthroughs in safety, comfort and convenience that have repeatedly set new standards for the entire industry. The GLC was created to raise that bar anew, by being the Mercedes-Benz of midsize SUVs.

For 2017, the versatile GLC 300 and GLC 300 4MATIC are joined by the AMG GLC 43. Behind its chrome-trimmed grille, it's received a deep infusion of AMG performance.

Between the Star up front and the power liftgate of any GLC, you'll discover more than high tech, high style and high quality. You'll find your design sense piqued, and your sense of enjoyment at a new peak. Its luxury will look after you, while industry-advancing safety systems watch out for you. But what really sets the GLC apart from the crowd is how it marries SUV versatility with sport-sedan vitality—limber when other SUVs lumber, nimble where they go numb. So while any SUV can offer you a commanding view of the road, the GLC is engineered to deliver something more: a rewarding feel of the road—in your hands, in your heart, and from its very soul.
THE **INTELLIGENCE TO BE AT THE HEAD OF THE CLASS, WITH THE INSIGHT TO LEAP AHEAD OF IT**

**KEY FEATURES**

**PERFORMANCE**
- Responsive turbo power with nine sporty speeds.
- Advanced chassis options.
- And five driving modes, from Comfort to Sport+.

**DESIGN**
- Athletic elegance with advanced aerodynamics.
- Stately wheels with a solid stance. Stylish details to suit your own style.

**SAFETY**
- Groundbreaking safety systems that look ahead, and all around. Active and semi-autonomous systems to assist you.

**LUXURY**
- A flowing cabin, finely tailored and richly finished.
- Versatile seating with flexible space. Innovation with an indulgent edge.

**TECHNOLOGY**
- User-friendly innovations to keep you connected, engaged and refreshed.
- Intuitive controls to keep your world within reach.

ATHLETIC SCHOLARSHIP

It takes more than muscle for an athlete to perform. It takes physical agility and mental acuity to maneuver with speed and grace. The GLC has been cross-trained to execute its turbo power with quick-thinking precision—so it inspires your confidence, and ignites your driving passion.

With its iconic central Star, the GLC’s grille bears more than a passing resemblance to the face of a Mercedes-Benz sports car. They’re not merely speaking the same design language. They share a bloodline with a passion for the redline. A racing legacy that goes back to the first checkered flag. And a history of firsts that redefined performance, like the 4-wheel independent suspension, fuel injection, and electronic traction control.

The milestones behind the GLC would mean nothing if they didn’t enhance every mile ahead of you. Which is why Mercedes-Benz engineers have advanced, adapted and accelerated all of those firsts, and countless others, for generations—the latest of which underpin the 2017 GLC. The GLC300’s 2.0L inline-4 turbo engine outputs 241 hp. More importantly, it puts 100% of its torque—an impressive 273 lb-ft— at your command starting at just 1,300 rpm. The compact engine’s big punch comes from state-of-the-art technology like a quick-responding turbo. High-pressure Direct Injection and multipark ignition precisely self-tune not just every few miles, but every few milliseconds—squeezing fuel into a molecular mist, and firing the spark plugs up to four times in a row. That adds up to 0-60 mph in as little as 6.3 seconds— with up to 28 highway mpg.

Converting numbers into emotions, it means quick response when taking off from a stop light, merging into traffic, or climbing a grade. A smooth, quick-shifting 9G-TRONIC 9-speed automatic teams with sporty rear-wheel drive or the year-round confidence of 4MATIC™ all-wheel drive. Agile, efficient and lightweight, 4MATIC distributes the engine’s torque to the wheels that can best turn grip into go—without any sacrifice in highway fuel economy or dry-road fun.

The GLC300’s standard 4-wheel multilink suspension and 18” wheels handle corners with expertise. Selective damping lets the shock absorbers respond to the road, firming up in corners yet keeping the ride refined. With AIR BODY CONTROL®, self-leveling and height-adjusting air spring-struts can adapt to roads and loads, and even lower the rear of the vehicle for easier cargo-loading. A variety of 18”, 19” and 20” wheels are also available.

And since your driving style can vary based on location, conditions or your driving mood, multimode DYNAMIC SELECT lets you dial in the throttle, shifting, chassis and more, from Sport to Sport+, via a console button.
ENHANCED LIGHTING

Whether helping you to see or be seen, the GLC’s exterior lighting does it all with eye-catching style. All models feature light-sensing auto-on/off headlamps and bright white LED Daytime Running Lamps (DRLs). LED headlamps† pierce the night with a color more like natural daylight. Using LEDs for all their functions, their arching DRLs flow into the GLC’s side sculpting. They also include LED taillamps with a “flow through” design. As a further upgrade, active LED headlamps‡ swivel their beams as you steer, to help brighten curves and turns. They also adapt the high beams to traffic ahead, to illuminate as far as possible without creating glare for other drivers.

EXPRESSIVE LINES

With a wind-honed shape and track-toned muscle, the GLC cuts a dashing profile. Two styling packages† let you sharpen its looks—and handling—to an even finer edge. The GLC300 Sport Package bolts a set of 19" AMG® twin 5-spoke wheels over perforated front brakes with painted calipers. Deeper AMG front and rear aprons feature large front air intakes. Topstitched door and dash trim brings the flair inside, too. Most of these items are standard on the AMG GLC 43. To all this, a Night Package for either model cloaks various exterior elements in gloss or matte black—with an option to upgrade the GLC300 to the GLC43’s 20" AMG multispoke wheels.

CREATED TO ADVANCE A STANDARD

EXTENDED SUPPORT

The GLC’s front seats are carefully tailored and contoured for enduring comfort. Both front seats power-adjust at least eight ways, via intuitive seat-shaped controls. The 3-position driver-seat memory also stores the positions of the 4-way power steering column and side mirrors. Power adjustment of the head-restraint height, a 4-way lumbar support, and an extendable cushion for thigh support are also standard for the driver, and optional for the front passenger. For added enjoyment year-round, front-seat options include soothing heat (standard on the GLC43) and cooling ventilation. And a heated steering wheel is available with most upholsteries.

EXPANSIVE SPACE

Wide rear doors welcome passengers into a rear cabin that’s generous with room and thoughtful with details. Standard amenities include adjustable air vents, large door pockets, a folding center armrest with cupholders, and express-up/down power windows with deep-tinted privacy glass. There’s ample room for your head and feet—and not just while you’re seated, but as you enter and exit as well. Just like the front cabin, the hand-finished upholstery and trim reflect the fine tailoring you expect in a Mercedes-Benz. First-rate options that also benefit the second row include a giant, tinted-glass Panorama roof, heated seats, and side-window sunblinds.

CRAFTED TO UPHOLD A LEGACY

EXCLUSIVE ATMOSPHERE

The first thing you notice upon settling into the driver seat of a GLC is how it doesn’t feel at all like you’re settling. Every surface reveals a premium finish and artful design. The wide console cascades between the seats, yet legroom is ample. Satin aluminum rings the air vents, pleasing your eye as much as the “click” of their adjusters satisfies your touch. Switches for the dual-zone climate control and vehicle functions look and feel as precise as the systems they operate. Beneath it all is a core of eco-friendly elements such as steam-expanded foam padding, and products using flax, coconut and olives. The beauty of a Mercedes-Benz runs far below the surface.

ENCHANTING AMBIENCE

A Mercedes-Benz SUV isn’t just engineered to be sensible. It’s also sensual in design, and sensitive to your well-being. Upholstery is crafted with a careful eye, from the leatherlike comfort and easy care of MB-Tex® and suede-like DINAMICA on the GLC 43 to the exquisitely-diamond-stitched designer Nappa leather. Ambient lighting bathes the cabin in a warm amber glow. Optional multicolor ambient lighting lets you select among three hues to suit your mood, and greets you with front door sills whose Mercedes-Benz logos are backlit in soft white. The Air Balance system™ cleanser the cabin air for freshness, then infuses it with one of six subtle fragrances.
WHERE IT’S FROM

Affalterbach, Germany, is an orchard town where trophies are harvested. It’s the home of AMG, where for nearly 50 years, championship race cars have been created by a team of people who are not just racers. They’re dreamers. Visionaries. And perfectionists. They develop technologies that heighten power, like patented NANOSLIDE® cylinder walls that slash friction and wear. They shatter limitations: Rear-biased AMG Performance 4MATIC® clings to pavement yet delivers nimble balance. They break Formula 1® records, and are by far the most winning name in the DTM (German Touring Car Championship). And they turn victory on the track into vehicles that conquer the streets of the world—and the hearts of its most passionate drivers.

IS WHAT IT CAN DO

The Mercedes-AMG GLC 43 is deeply infused with the DNA of racing champions and the hardware to bring it to life: an agile suspension, sizable brakes, aggressive bodywork, 20” AMG® wheels, and exclusive cabin details. Its AMG-enhanced 362-hp V6 biturbo engine and paddle-shifted 9G-TRONIC 9-speed transmission can catapult you to 60 mph in just 4.8 seconds. AMG Performance 4MATIC sends 69% of the engine’s 384 lb-ft of torque to the rear wheels, for sure launches and dexterous handling. AMG DYNAMIC SELEC®’s five drive modes let you fine-tune performance settings—from the shift points to the damping settings of the AMG Sport Suspension based on AIR BODY CONTROL. Silver chrome accents in the AMG front and rear aprons complement the chrome-tipped diamond-block grille and gloss black side mirrors. GLC 43 options include a Head-Up Display® and an array of 20” or 21” AMG wheels.
OPEN TO CHANGE

QUICK ON ITS CUBIC FEET

Mercedes-Benz engineers have gone to great lengths—and widths—to make the GLC cargo area a perfect fit for your spontaneous life. The result is a wide-open space that’s pre-filled with good thinking, from seatbacks that lie down with a touch, to rich finishes that stand the test of time.

Considering how eagerly the GLC lives up to the "sport" part of "SUV," you might be surprised how brilliantly it does utility, too. Its wide power liftgate reveals a richly carpeted cargo area offering generous luggage space—even with three rear passengers comfortably seated. You’ll also find useful touches like a 12-volt power port, grocery bag hooks, and a parcel net on the side. Chrome-plated tie-down hooks help you secure your cargo in place, while a retractable/removable luggage cover helps keep it away from prying eyes. The Premium 2 Package includes a floor cargo net, plus a collapsible crate that stows in the compartment beneath the floor.

The rear seat folds down in a 40/20/40 split to make way for various combinations of people and packages, from long, narrow items like skis to big boxes. Remote controls—located near each rear-side door and in the cargo area—lower the seatbacks with a button’s touch. With all of the rear seats folded down, a GLC can take on 54.5 cu ft of cargo. HANDS-FREE ACCESS lets you open and close the liftgate with a gentle foot motion under the bumper—helpful when your arms are full. And to make loading even easier, AIR BODY CONTROL can lower the GLC by 1.6” via a button in the cargo area.
IT HOLDS CARGO LIKE AN SUV, AND HOLDS THE ROAD LIKE A MERCEDES-BENZ
INTUITIVE INFO

The standard 7" high-resolution color central display stays vivid without a bulky visor. Its slim design lets it be placed higher, nearer to your view of the road. A central controller on the console—where your hand naturally falls—gives you intuitive access to audio and vehicle settings. Its rotary knob controls carousel-style menus that use realistic animations. With COMAND® navigation, the screen is supersized to 8.4" and the controller adds a touchpad. Using smartphone-like gestures, you can pinch to zoom on a map, swipe through menus, and even write an address with your finger. Maps offer detailed 3D views, and lane guidance before a turn.

UNLIMITED PLAY

Whether you’re running around town or on a road trip, the GLC offers you nearly limitless listening options. You can stream from your Bluetooth® device, or via apps like iHeartRadio®. Get more from local programming via HD Radio®. Or opt for nationwide SiriusXM Radio with a 6-month All Access trial.® FrontBass® integrates woofers into the front body structure. And the Burmester® Surround Sound System® is a treat for your senses. Germany’s renowned crafters of high-end home audio have created this 550-watt, 9-channel, 13-speaker system expressly for the GLC. Its intricately crafted metal speaker grilles make it “a feel-good sound” look great, too.

INDULGENT IN MANY DIMENSIONS

MODE FOR ANY ROAD

Roads can be smooth, curvy or rough. Changing seasons can turn yesterday’s scenic route into a challenging test of nerves. And from carrying cargo, to family errands, to going solo, your driving needs—and moods—vary. DYNAMIC SELECT lets you tune the performance character of your GLC to all these factors at the flip of a switch. Five programs—from Comfort to Sport+ to an individual mode you set up à la carte—adapt various parameters to suit the situation. Each profile sets up the throttle mapping, shift points, steering feel, ECO Start/Stop, and AIR BODY CONTROL® suspension to tailor the GLC to the road you’re on, or the mood you’re in.

AIR OF EXCLUSIVITY

No other SUV in the GLC’s class offers the ride and handling benefits of AIR BODY CONTROL®. At each of the four wheels, a multi-chamber air spring-strut continuously adjusts to the road surface, vehicle loading, and DYNAMIC SELECT mode. Comfort and Sport damper profiles favor a smoother ride or flatter cornering, while 4-wheel automatic leveling helps keep the GLC on an even keel as passengers and cargo loads vary. The air suspension can be raised by the driver to help handle deep ruts or steep approaches, while it self-lowers at higher driving speeds to enhance stability and efficiency. The vehicle can even be lowered to facilitate cargo loading.

INSIGHTFUL TO GREATER DEGREES

PROACTIVE PROTECTION

Mercedes-Benz Intelligent Drive is an advanced network of standard and available assistants that uses radar, cameras and other sensors to help make driving safer, less stressful and more enjoyable. COLLISION PREVENTION ASSIST PLUS helps sense if you’re approaching traffic ahead too quickly. It can alert you to brake, or even initiate braking if you don’t.® ATTENTION ASSIST® helps detect if you’re getting drowsy on a longer trip by monitoring up to 70 parameters of driving behavior. Along with a rearview camera or the multi-camera Surround View System,® PARTRONIC with Active Parking Assist® helps make you an expert negotiator of tight spaces.®

ADVANCED ASSISTS

A Head-Up Display® keeps key driving information like your speed and navigation® instructions closer to your line of sight. Its projected color graphics appear to float over the hood.® The Premium 3 Package® adds a suite of driver assistance systems. DISTRONIC PLUS® cruise control employs radar to adapt your speed to the flow of traffic, even stop-and-go,® while Steering Assist helps keep you centered in your lane. Active Blind Spot® and Lane Keeping® Assist help ease your travel on multilane roads. Other groundbreaking systems of Intelligent Drive can alert you to cross-traffic or pedestrians in your path ahead, or help prepare for a collision from behind.®

Mercedes me makes it easy to stay connected to your car, and your life. It can make any trip easier, more enjoyable, or more entertaining. And it’ll bring you a world of rewards for being part of the family.

Changing What’s Remotely Possible

Any time, anywhere
Life is better when you’re connected. You don’t have to leave your world behind when you’re in your Mercedes-Benz. And you can have access to your car even after you park and walk away. It’s all possible with Mercedes me.*

Convenience at your fingertips
The Mercedes me website and smartphone app let you control features of your vehicle, interact with your dealer, and more. Your own homepage and the free app for Android® and iPhone® make it easy to plan ahead or be spontaneous.

Your car in your pocket
With the Mercedes me app, you can remotely start your car, lock or unlock its doors, and keep an eye on it if you valet-park. And you can look up a destination or address and send it to your car’s navigation system, all from your phone.

Inspiring the Journey

Be part of something special
When you drive a Mercedes-Benz, you’re part of the family. Mercedes me lets you follow along on featured road trips, learn about special events, and find out how you can join in on them.

Get the Star treatment
Get exclusive perks at world-class resorts when you stay at a partner hotel of Mercedes me. Visit MBUSA.com/mercedesme to find out more.

Enjoy the personal touch
Beyond its advanced, user-friendly technology, Mercedes me is a team of helpful people who genuinely care. Expert concierges are always on call to help you—from reservations to travel plans to assistance with virtually any request. And you can reach them anytime from wherever you use your smartphone.

Smoothing the Way

Ownership, simplified
From managing your Mercedes-Benz financial services account to reaching out to your dealer, Mercedes me makes it easy. Even if you have more than one Mercedes-Benz, you can access them all from the same app.

Technology, demystified
Get the most from the innovative features in your vehicle with helpful how-to videos and downloadable manuals—from your computer or the mobile app. You can even reach out to your dealer’s expert Product Concierge.

Service, on your side
Is it time for service or maintenance? You can make an appointment right from the Mercedes me app. Flat tire, dead battery, or out of fuel? You can summon Mercedes-Benz Roadside Assistance to your side, 24/7, with a few taps.*

Together Wherever: mbrace

It’s perfectly natural to develop an emotional attachment to your Mercedes-Benz. With mbrace, enjoying a technological connection is just as easy.

Mercedes-Benz mbrace® puts the power of Mercedes me to work for you—from apps to Wi-Fi—when you’re in your car, and remote vehicle features when you’re not.* Four mbrace packages let you tailor its many benefits to fit your life.

5 years of mbrace Connect included
Every new Mercedes-Benz comes with five years of mbrace Connect at no additional charge. It’s the core mbrace package, but it’s far from basic, with remote features and in-car Internet.

mbrace me app includes:

- Remote Start
- Remote Door Lock/Unlock
- Remote Horn & Lights
- Simple Key™
- Vehicle Finder
- Curfew Minder
- and more

mbrace Secure 6-month trial included
Peace of mind comes from automatic SOS calling after an accident, stolen vehicle tracking, and other security benefits.

Features include:

- Automatic Alarm Notification
- Automatic Collision Notification
- Calls for Help
- Stolen Vehicle Location Assistance
- Agent-assisted Remote Door Lock/Unlock
- Safe Drive
- and more

mbrace Concierge 3-month trial included
Live assistance from trained professionals, from tickets to a show to travel planning. An expert can even help you find a point of interest, and then guide you there, turn-by-turn.

Features include:

- Mercedes-Benz Destinations
- Push-to-Turn Route Assistance
- Location-based Traffic and Weather

mbrace Entertain 3-month trial included
Streaming audio and In-car WiFi for you and your passengers.

Features include:

- HD Radio
- TuneIn Radio
- In-vehicle WiFi

mbrace Connected Services 3-month trial included
Remote vehicle features and In-car WiFi. It’s for your peace of mind and entertainment. And it’s effortless.

### END NOTES

- *Offers available at participating dealers. See your dealer for complete details.
- *Engineered and manufactured by Mercedes-Benz.

### Laureus Foundation USA

The personal rewards of striving to be the best are even more remarkable in the development of young people than they are for automobiles. Instilling the values of leadership, goal setting, discipline and teamwork in youth is an investment in everyone’s future. It’s why Mercedes-Benz USA is collaborating with the Laureus Sport for Good Foundation, with an ongoing commitment to train and place hundreds of coaches for after-school and in-school sports programs in communities around the country. Sports offer kids more than the chance to be physically active and have fun. It’s also an opportunity to have a mentor who can guide them, help them learn how to deal with major life issues, and help them grow stronger not just physically but in their character. As a Mercedes-Benz driver, you become a part of this effort to give hundreds of thousands of kids a better life today, and all of us a brighter tomorrow.
