	Models: 6202, 6203				
	Notes: Engineer: Solid steel bar bent to match the natural movement of the xB beam axle. Water and dust resistant OEM style ball links have been added to this sway bar system to allow the beam axle to flex as the factory intended for toe and camber change during heavy cornering. OEM style ball links offer longer life than spherical rod ends or heim joints and have much less compliance than polyurethane or rubber. Durability tested to Toyota specifications. This sway bar limits body roll without adding harshness to the ride.
