AUGUST IS BRAKE SAFETY MONTH!

How do you know your brakes need to be checked or replaced?

- Brakes are not as responsive as they should be.
- Brake pedal is low, spongy or soft, too high or hard, or the pedal pulses or hops.
- Wheels lock during braking.
- Brake pull, meaning that the car that pulls to one side during braking.
- Brakes squeal or make a grinding noise.
- Steering wheel vibrates, shimmies or pulses during braking.
- The most noticeable sign is that the brake warning light is on. Don't ignore this warning sign!

These are warning signs that your brakes need to be checked. If you have experienced any of the above, it is important that you get your brakes checked today!
