# Audi Genuine Accessories. As individual as you are.

Your Audi is not just a means of getting from A to B. You also use your Audi to plan experiences – from A to Z. You only stop briefly at your destination before heading off again. And it is precisely for excursions such as these that we are creating more options. Audi Genuine Accessories: products that make good on our promise of quality each and every day. For you, that means benefitting from made-to-measure solutions that impress on account of their design and functionality. After all, creativity during the development phase and high production standards alongside the high number of testing procedures are all just as important to Audi Genuine Accessories as they are for each and every Audi vehicle. Discover what tailor-made solutions Audi Genuine Accessories have in store for you.

# When it comes to design and quality, we are reinventing the wheel. Time and time again.

Where progressive design meets premium quality, it takes more than a good eye. Above all else, the right touch is required. For the right materials. For the absolute accuracy of fit. And for the value of each individual component. That is why we are constantly improving our production processes, are always on the look-out for the best materials and regularly question our test criteria. Audi Genuine Accessories' wheels are also testament to this ambition. These products undergo extensive testing to ensure a high level of quality. For example, wheels that are pre-damaged through simulated stone chippings are sprayed with a highly corrosive acetic acid and saline solution over the course of several days. The wheels must then meet the stringent requirements of subsequent tests. To ensure this is the case, a complex casting process is used to deliver high component strength. In addition, the sophisticated multi-layer paint offers further protection against wear and ensures a high-gloss finish. A host of good reasons to opt for wheels from Audi Genuine Accessories – and show you have the right touch. Find out more about our current range of wheels from page 8 onwards.

Round off an Audi in true style with cast aluminum wheels that are perfected prior to their production. By designers who give you their best. Designed and developed using high-tech tools, each cast aluminum wheel is a masterpiece.

# Transport

**Wherever the mood takes you – the transport products from Audi Genuine Accessories travel with you.**

Varying weather conditions can have a whole host of effects on a product. To ensure our transport solutions withstand these climatic conditions, the products undergo varied and complex tests. For example, a range of tests can be used to simulate sunlight and rain, and thus test the properties of the product in different climate zones in fast motion. All of these tests share a single goal: to ensure that you can rely on your transport accessories at all times when on your travels.

**01 Ski and snowboard rack**
