An endurance test over thousands of kilometres. Nothing but good vibrations.

Driving along a road in a poor condition in the Audi Q7? No problem. The transport solutions from Audi Genuine Accessories are designed for such situations and are laboratory tested by Audi. The hydro-pulse test simulates a real journey using a special test bench. During this test, both the vehicle and the equipped accessories are subjected to an endurance test over thousands of kilometres of poor road conditions. All transport solutions from Audi Genuine Accessories – such as the carrier unit – have passed these tests, and numerous other tests, with flying colours. This means you can rely on Audi Genuine Accessories – even on difficult terrain.
