THE 2022 SEQUOIA

Rough it comfortably.

Redefining the phrase “up for anything.”

The 2022 Sequoia lets you travel more roads than you ever thought possible with the pure power, strength, and versatility you need to face uncharted roads and unbeaten paths. The V8 engine makes hauling bikes, trailers, and campers a breeze. And its proven off-road capabilities make any challenging terrain look easy. Best of all, you can do it in exceptional comfort. Sequoia’s luxury interior was designed to surround you with soothing materials, quality features, and intuitive tech – because the journey should be just as enjoyable as the destination.

STYLE & DESIGN

Get the most out of every drive.

Enjoy a comfortable and connected experience.

Inside Sequoia, everyone gets to ride first class. The cavernous 7- or 8-seater cabin includes chrome accents, high-contrast stitching, available heated and ventilated first- and second-row seats, and easy access to the reclining third-row seats. Sequoia's tailored environment is also loaded with the latest tech, including: 7-inch Touch Screen Display, 4.2-inch TFT Multi-Information Display, Apple CarPlay™¹ and Android Auto™¹ compatibility, available 9-inch rear seat entertainment system, and JBL® system with 14-speakers.

[Learn More](#)

PERFORMANCE

Powerfully capable.

For those out-of-the-way family outings.

Sequoia offers the toughness of a truck in the body of a versatile and sophisticated SUV, giving you the freedom to experience whatever the next turn has in store. It's forged on a fully boxed frame for strength and durability, and boasts a powerful 381 hp 5.7L i-FORCE V8 engine with up to 3,220 kg (7,100 lb.)² of towing capacity. And with a convenient one-touch 4WD system, 6-Speed Automatic, Super Electronically Controlled Transmission, Sequoia offers smooth shifting, improved driving, and enhanced fuel economy.

[Learn More](#)

PERFORMANCE

The road will change, but the drive never will.

TRAILER-SWAY CONTROL

Trailer-Sway Control is designed to apply brake pressure at individual wheels and manage engine torque to help the driver maintain control of the trailer.

FRONT AND REAR SUSPENSION

Sequoia's independent double-wishbone front and rear suspension gives you the best of both worlds: responsive handling on pavement and a smoother ride off-road. This sophisticated suspension utilizes low-pressure, gas-filled shock absorbers and hollow stabilizer bars.

MULTI-MODE 4WD

This available system can turn mountains into molehills. Just turn the shift dial to engage the 4WD mode and let the Torsen® limited slip centre differential go to work. The differential locks up to help get maximum traction on slippery or uneven surfaces.

SAFETY

Toyota Safety Sense™

No matter what roads you travel, Toyota Safety Sense™³ (TSS-P) is always there to help keep you as safe as possible. It's an advanced suite of innovative safety features that comes standard on the 2022 Sequoia, and it is designed to help protect drivers, passengers, pedestrians, and people in other vehicles from harm.

DYNAMIC RADAR CRUISE CONTROL⁴

Using forward-sensing radar technology, the system can automatically adjust vehicle speed to help maintain a preset following distance between you and the vehicle directly in front of you.

LANE DEPARTURE ALERT WITH STEERING ASSIST⁵

Alerts you if you start to drift out of your lane when visible lane markings are detected. The Steering Assist function may also provide small corrective steering inputs.

PRE-COLLISION SYSTEM WITH PEDESTRIAN DETECTION⁶

Provides collision avoidance or collision mitigation support in speed ranges where frontal collisions are likely to occur. In certain conditions, the Pre-Collision System with Pedestrian Detection may also help to detect pedestrians and help prevent or mitigate a collision.

AUTOMATIC HIGH BEAMS⁷

Designed to detect oncoming and preceding vehicles' lights and depending upon the circumstances, Automatic High Beams can switch between high and low beams for you.

Toyota Financial Services can help you get behind the wheel of a new Toyota faster with quick & easy online pre-approvals.

[Financial Services](#)

(1) Driving while distracted can result in loss of vehicle control. Some features may be locked out while the vehicle is in gear. To reduce risk of accident while driving, exercise care when using the systems (even with the voice commands) and obey all local laws concerning use of the systems while driving (as some laws prohibit the use of electronic devices while operating a vehicle). Once the Connected Services by Toyota trial subscription expires, paid enrollment is required. Apple CarPlay, iPhone and Siri are trademarks of Apple Inc. Android Auto and Google Assistant are trademarks of Google LLC. A compatible customer phone pairing is required and customers are responsible for all data charges. (2) Before towing, confirm your vehicle and trailer are compatible, hooked up and loaded properly and that you have any necessary additional equipment. Do not exceed any Weight Ratings and follow all instructions in your Owner's Manual. The maximum you can tow depends on base curb weight plus the total weight of any cargo, occupants, and added vehicle equipment. "Added vehicle equipment" includes additional standard/optional equipment and accessories added by the manufacturer, dealers, and/or vehicle owners. The only way to be certain of your vehicle's exact curb weight is to weigh your vehicle without passengers or cargo. Installation of a tow hitch receiver or other accessories located near the rear bumper may require disabling or removing the kick sensor, and the sensor operation setting in your vehicle should be turned off. See Owner's Manual for limitations. (3) Drivers should always be responsible for their own safe driving. Please always pay attention to your surroundings and drive safely. Depending on the conditions of roads, vehicles, weather, etc., the TSS systems may not work as intended. (4) Dynamic Radar Cruise Control is designed to assist the driver and is not a collision-avoidance system or a substitute for safe and attentive driving practices. System effectiveness depends on many factors such as weather, traffic and road conditions. (5) Lane Departure Alert with Steering Assist is designed to read lane markers under certain conditions and provide visual and audible alerts and slight steering force when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. (6) The TSS Pre-Collision System is designed to help avoid or reduce the impact speed and damage in certain frontal collisions only. The Pedestrian Detection system is designed to detect a pedestrian ahead of the vehicle, determine if impact is imminent and help reduce impact speed. It is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, size and position of pedestrians, driver input and weather, light and road conditions. (7) Automatic High Beam system operates at speeds above approximately 34 km/h. Factors such as a dirty windshield, variable weather, lighting conditions and hilly terrain will limit effectiveness, requiring the driver to manually turn it off. (8) Not all exterior and interior colour options are available for every model. (9) Fuel efficiency estimates were determined using approved Government of Canada Test Methods. Actual fuel consumption will vary based on driving habits and other factors. (10) Services are dependent upon connection to a compatible 4G wireless network, provided by a third-party wireless service provider. Toyota is not responsible for 4G cellular network discontinuance and will not provide compensation for reduced service availability. Based on current information, 4G network availability may end as early as 2029.

Details on the above features can be found in the Owner's Manual or through your local Toyota Dealer.

Toyota Canada Inc. Every effort has been made to ensure the specifications and equipment shown are accurate based on information available at time of publication. In some cases, certain changes in production capacity, standard equipment, options or product delays may occur which would not be reflected in this brochure. Toyota Canada Inc. reserves the right to make these changes without notice or obligation. The Toyota website toyota.ca – or your Toyota Dealer is your best source for up-to-date information.
