THE 2022 HIGHLANDER

# Driven to do it all.

**Thoughtfully designed so you can get the most out of your every day.**

There's more to you than meets the eye. The same can be said of the 2022 Toyota Highlander and Highlander Hybrid. From its striking, fluid exterior styling, to its comfort and handling, to the host of intuitive tech that you'll find at your fingertips, the Highlander is not your standard SUV. With gas and hybrid options that offer extraordinary fuel efficiency, power, capability, and safety features, the Toyota Highlander and Highlander Hybrid exceed every expectation – allowing you to accomplish more and do it all in incredible style.

[Learn More](#)

## EXTERIOR DESIGN

# Take the lead, in style.

### **A dynamic design that will turn heads.**

From the moment you see it, you'll realize the Highlander is something special. Its sophisticated shape and powerful stance create a striking silhouette. And those modern lines are perfectly complemented with expanded fender flares, available 20" alloy wheels, and a dynamic grille. Available Platinum trim and premium LED headlamps complete the picture. And all of these design features aren't just for show; the Highlander's highly functional design promises improved aerodynamic efficiency, reducing wind noise while enhancing vehicle stability.

[Learn More](#)

## INTERIOR STYLING

# Looks as impressive as the places you'll discover.

### **It's what's inside that counts.**

As stunning as the outside of the Highlander is, it's what's inside that will truly impress you. In fact, it's all about you. You'll feel the premium, refined style that elevates every ride. Highlander offers modern luxury touches such as soft, padded surfaces with impressive stitching, available ambient LED lighting, and inset steering wheel controls. The spacious cabin comfortably seats up to 7 or 8 passengers, with available heated leather captain's seats. And sound-damping and soundproofing materials are optimized throughout the vehicle to minimize noise. Taken together, it adds up to a driving experience that is sure to surprise you.

# Putting you at the centre of everything.

## INTUITIVE TECH

Highlander keeps you connected and empowered throughout your drive with available tech-focused features such as a responsive 8-inch touch-screen display, 11 JBL® speakers with Clari-Fi™ and Apple CarPlay™<sup>1</sup> and Android Auto™<sup>1</sup> compatibility. Premium features include the innovative Panoramic View Monitor and Head-Up display.

## Qi WIRELESS CHARGING<sup>3</sup>

No wires. Total convenience. Simply place your Qi compatible device on the nonslip Qi wireless charger for a quick and easy recharge – without the interference of cords.

## 7-INCH TFT MULTI-INFORMATION DISPLAY

Get all the vital info you need at a glance with the available 7-inch TFT Multi-Information Display. This screen can be customized to show you how much fuel you have left, check your current km, get turn-by-turn directions, and more.

## CONNECTED SERVICES BY TOYOTA<sup>1</sup>

Enhance your driving experience with a suite of available connectivity features including Remote Connect, Safety Connect®<sup>2</sup>, Service Connect,<sup>2</sup> and Destination Assist, all of which are accessible via the touch-screen display or through your smart devices.

[Learn More](#)

PERFORMANCE

# Make a powerful impression.

## **Performance to take you wherever you want to go.**

No matter where you're travelling, nothing will take you there like the Highlander. It offers two powertrain options that deliver horsepower, torque, outstanding fuel efficiency, and exceptional driving responsiveness and handling. And the available Multi-Terrain Select allows you to maximize traction when driving through inclement weather or road conditions. With performance also comes power. Highlander features impressive towing capabilities that can haul 2,268 kg/5,000 lb.<sup>4</sup> (or 1,587 kg/3,500 lb.<sup>4</sup> for Highlander Hybrid), which is enough power to pull a camping trailer with ease. With features like these and many more, the Highlander lets you make the most out of every drive.

[Learn More](#)

## PERFORMANCE

# Strength and power.

### **DYNAMIC TORQUE VECTORING AWD WITH REAR DRIVELINE DISCONNECT**

Enjoy an upgrade in performance that is paired with impressive fuel efficiency. Gas models offer available Dynamic Torque Vectoring All-Wheel Drive that improves handling by sending up to 50% of the power to the rear and then distributes more power to the wheel that needs it. To boost fuel efficiency, Rear Driveline Disconnect will stop sending power to the rear when it isn't necessary.

### **DRIVING MODES**

Highlander Hybrid offers selectable driving modes that let you choose the vehicle's performance personality. SPORT mode unlocks boost from the hybrid system for improved acceleration response. ECO mode gets maximum efficiency from the fuel and battery. NORMAL mode is ideal for everyday driving, while EV mode allows electric-only driving at low speeds for short distances.

### **HYBRID CAPABILITIES**

The Toyota Hybrid System offers increased power and fuel efficiency to get you to any destination with ease. The available AWD employs a separate rear-mounted electric motor to power the rear wheels, distributing more power there when needed. This means enhanced cornering agility by helping to reduce understeer, and increased rear-wheel torque over rough or slippery surfaces.

SAFETY

# Toyota Safety Sense™

Toyota  
Safety  
Sense

No matter what roads you travel, Toyota Safety Sense™<sup>5</sup> (TSS) 2.5+ is always there to help keep you – and those around you – as safe as possible. It's an advanced suite of innovative safety features that comes standard on the 2022 Highlander, and it is designed to help protect drivers, passengers, pedestrians, and people in other vehicles from harm.

[Learn More](#)

## PRE-COLLISION SYSTEM WITH PEDESTRIAN & BICYCLE DETECTION<sup>6</sup>

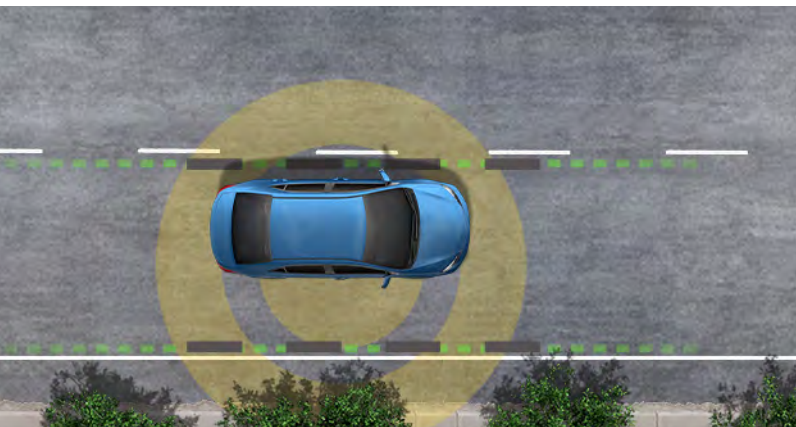

Provides collision avoidance or collision mitigation support in speed ranges where frontal collisions are likely to occur. The latest system introduces Left Turn Intersection Support, which may detect oncoming vehicles when performing a left turn at an intersection and provide automatic braking in certain conditions. The system may also detect oncoming pedestrians when turning left or right and provide automatic braking in certain conditions as well. The PCS system in TSS 2.5+ is also enhanced with the new Emergency Steering Assist feature that is designed to stabilize the driver's emergency steering manoeuvre and correct the vehicle's trajectory when avoiding a pedestrian, bicyclist, or another vehicle.

## AUTOMATIC HIGH BEAMS<sup>7</sup>

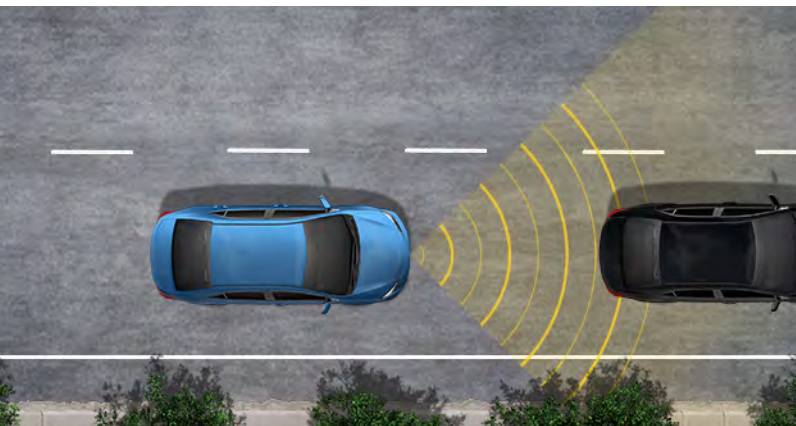

Designed to detect oncoming and preceding vehicles' lights and depending upon the circumstances, Automatic High Beams can switch between high and low beams for you.

[Learn More](#)

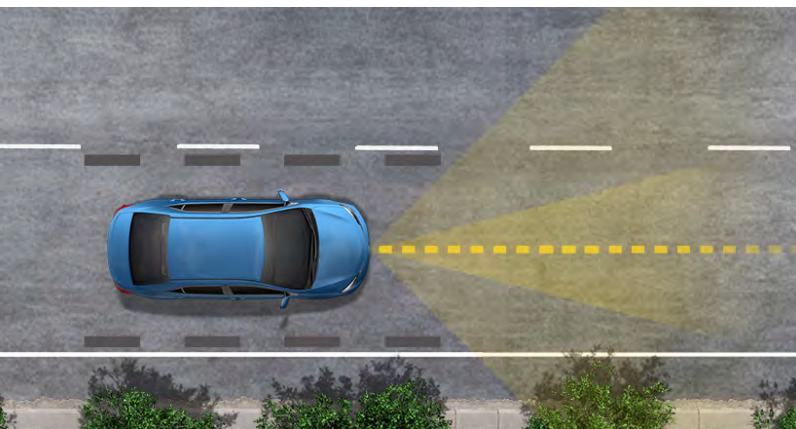

### **LANE DEPARTURE ALERT WITH STEERING ASSIST<sup>8</sup> & ROAD EDGE DETECTION**

Alerts you if you start to drift out of your lane when visible lane markings or the road edge is detected. The Steering Assist function may also provide small corrective steering inputs.

### **FULL-SPEED RANGE DYNAMIC RADAR CRUISE CONTROL<sup>9</sup>**

Dynamic Radar Cruise Control (DRCC) uses vehicle-to-vehicle distance control, which adjusts your speed, to help you maintain a preset distance from vehicles ahead of you that are driving at a slower speed. DRCC uses a front-grille-mounted radar and an in-vehicle camera designed to detect vehicles and their distance. DRCC receives the Curve Speed Management function in TSS 2.5+. This system will automatically decelerate when driving through a curve, if required, and return the vehicle to the preset speed after passing the curve.

### **LANE TRACING ASSIST<sup>10</sup>**

It provides steering support to help the driver keep the vehicle centred in its lane when Dynamic Radar Cruise Control is in operation. Lane Tracing Assist performance has been enhanced in TSS 2.5+.

## EXTERIOR COLOURS<sup>11</sup>

[CLICK VEHICLE FOR COLOUR OPTIONS >](#)

## DRIVETRAIN

- 3.5 Litre, V6 Engine with 295 hp @ 6,600 rpm & 263 lb.ft. of Torque @ 4,700 rpm
- Dynamic Torque Control AWD System with Rear Driveline Disconnect
- Dual Variable Valve Timing with intelligence, Direct-Injection D-4S Fuel Injection System
- Multi-Terrain Select
- Electric Parking Brake
- 8-Speed Direct Shift, Automatic, Transmission Cooler
- Power-Assisted, Ventilated Front & Rear Discs
- Towing Capacity: 2,268 kg (5,000 lb.)<sup>4</sup>
- Combined City & Highway Rating 10.3 L/100 km 27 mpg<sup>12</sup>

## ENTERTAINMENT & CONNECTIVITY

- Audio Plus<sup>1</sup> – includes Safety Connect<sup>®</sup> (1-Year Trial)
- 8" Touch Screen, 6-Speakers
- Apple CarPlay<sup>™1</sup> Compatibility
- Android Auto<sup>™1</sup> Compatibility
- SiriusXM<sup>®</sup> Satellite Radio with 3-Month All-Access Trial
- Siri Eyes-Free
- 4 USB Charging Ports, Auxiliary Input Jack, Bluetooth<sup>®</sup>
- 4.2" TFT Multi-Information Display
- Backup Camera

## INTERIOR

- Available Colour: Black Fabric
- 8-Seat Capacity
- Dual Zone Automatic Climate Control, Cabin Air Filter
- Heated Front Captain's Seats with Power 8-Way Adjustable Driver's Seat, Manual 4-Way Adjustable Front Passenger Seat
- 60/40 Split, Flat Folding 2nd-Row Bench Seat with Slide & Recline
- 3rd-Row Flat Folding 60/40 Split Rear Bench Seat
- Power Door Locks, Power Windows with Auto Up/Down, Rear Privacy Glass
- Keyless Entry with Trunk Release
- Tilt & Telescopic, 3-Spoke Steering Wheel

## EXTERIOR

- Available Colours: Wind Chill Pearl (089), Magnetic Grey Metallic (1G3), Midnight Black Metallic (218)
- Power-Adjustable Colour-Keyed Heated Mirrors with Integrated Signal Lamps
- Rear Bumper Protector, Rear Spoiler
- Black Lower Rocker Panel
- Automatic Headlamp System, LED Headlamps
- 18" Aluminum 5-Spoke Alloy Wheels & P235/65R18 All-Season Tires

## SAFETY

- Toyota Safety Sense<sup>™</sup> 2.5+ – Pre-Collision System with Pedestrian & Bicycle Detection, High-Speed Range Dynamic Radar Cruise Control, Lane Departure Alert with Steering Assist & Road Edge Detection, Automatic High Beams
- Star Safety System<sup>™</sup>
- 8 Airbags
- Smart Key System with Push Button Start
- Blind Spot Monitor with Rear Cross-Traffic Alert<sup>13</sup>

Every Toyota Car, Truck, and SUV is built to exceptional standards. And that's not idle boasting. We back it up with these Limited Warranty Coverages:

[Learn More](#)

### BASIC

36 months/60,000 km, whichever comes first (all components that are defective in material or workmanship excluding normal wear and maintenance items).

**36 MONTHS**

OR

**60,000 km**

### HYBRID-RELATED COMPONENT COVERAGE

Hybrid-related components, including the battery control module, hybrid control module, and inverter with converter, are covered for 96 months/160,000 km.

**96 MONTHS**

OR

**160,000 km**

### HYBRID BATTERY

HV battery is covered for 120 months/240,000 km, whichever comes first. Warranty coverage is subject to terms and conditions.

**120 MONTHS**

OR

**240,000 km**

### POWERTRAIN

60 months/100,000 km, whichever comes first (engine, transmission/transaxle, drive system, seatbelts, and airbags).

**60 MONTHS**

OR

**100,000 km**

### CORROSION PERFORATION

60 months/unlimited km (corrosion perforation of sheet metal).

**60 MONTHS**

OR

**UNLIMITED km**

### EMISSIONS

Coverages vary under federal and provincial regulations.

# Simple, safe, and convenient ways to shop for your new Toyota.

## Visit a dealership

## Find great incentives

Take advantage of Toyota incentives including cash, lease, and financing offers available at dealerships across Canada.

[Offers/Promotions](#)

## Get financing

Toyota Financial Services can help you get behind the wheel of a new Toyota faster with quick & easy online pre-approvals.

[Financial Services](#)

(1) Driving while distracted can result in loss of vehicle control. Some features may be locked out while the vehicle is in gear. To reduce risk of accident while driving, exercise care when using the systems (even with the voice commands) and obey all local laws concerning use of the systems while driving (as some laws prohibit the use of electronic devices while operating a vehicle). Once the Connected Services by Toyota trial subscription expires, paid enrollment is required. Apple CarPlay, iPhone and Siri are trademarks of Apple Inc. Android Auto and Google Assistant are trademarks of Google LLC. A compatible customer phone pairing is required and customers are responsible for all data charges. (2) Services are dependent upon connection to a compatible 4G wireless network, provided by a third-party wireless service provider. Toyota is not responsible for 4G cellular network discontinuance and will not provide compensation for reduced service availability. Based on current information, 4G network availability may end as early as 2029. (3) Qi wireless charging may not be compatible with all mobile phones, MP3/WMA players and like models. When using the wireless charging system avoid placing metal objects between the wireless charger and the mobile device when charging is active. Doing so may cause metal objects to become hot and could cause burns. (4) Before towing, confirm your vehicle and trailer are compatible, hooked up and loaded properly and that you have any necessary additional equipment. Do not exceed any Weight Ratings and follow all instructions in your Owner's Manual. The maximum you can tow depends on base curb weight plus the total weight of any cargo, occupants, and added vehicle equipment. "Added vehicle equipment" includes additional standard/optional equipment and accessories added by the manufacturer, dealers, and/or vehicle owners. The only way to be certain of your vehicle's exact curb weight is to weigh your vehicle without passengers or cargo. Installation of a tow hitch receiver or other accessories located near the rear bumper may require disabling or removing the kick sensor, and the sensor operation setting in your vehicle should be turned off. See Owner's Manual for limitations. (5) Drivers should always be responsible for their own safe driving. Please always pay attention to your surroundings and drive safely. Depending on the conditions of roads, vehicles, weather, etc., the TSS systems may not work as intended. (6) The TSS Pre-Collision System is designed to help avoid or reduce the impact speed and damage in certain frontal collisions only. The Pedestrian and Bicycle Detection system is designed to detect a pedestrian and bicyclist ahead of the vehicle, determine if impact is imminent and help reduce impact speed. It is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, size and position of pedestrians and bicyclists, driver input and weather, light and road conditions. Do not overly rely on the Intuitive Intersection Support system. Always visually confirm that it is safe to proceed. System may not operate depending on the traffic conditions and intersection configuration. Intersection Support will NOT detect pedestrians crossing the road in the same direction as the vehicle. Emergency Steering Assist may not operate if an oncoming vehicle or an obstacle that would prevent a safe evasive manoeuvre are detected. (7) Automatic High Beam system operates at speeds above approximately 34 km/h. Factors such as a dirty windshield, variable weather, lighting conditions and hilly terrain will limit effectiveness, requiring the driver to manually turn it off. (8) Lane Departure Alert with Steering Assist is designed to read lane markers under certain conditions and provide visual and audible alerts and slight steering force when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. (9) Dynamic Radar Cruise Control is designed to assist the driver and is not a collision-avoidance system or a substitute for safe and attentive driving practices. System effectiveness depends on many factors such as weather, traffic and road conditions. (10) Lane Tracing (Trace) Assist (LTA) is designed to read visible lane markers and detect other vehicles under certain conditions. When potential lane departure is detected, LTA provides a visual warning and either an audible alert or vibration in the steering wheel and can apply a slight steering force. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness is dependent on many factors including road, weather and vehicle conditions. (11) Not all exterior and interior colour options are available for every model. (12) Fuel efficiency estimates were determined using approved Government of Canada Test Methods. Actual fuel consumption will vary based on driving habits and other factors. (13) Do not rely exclusively on the Blind Spot Monitor System and Rear Cross-Traffic Alert System. They are not collision-avoidance systems or substitutes for safe and attentive driving.

Details on the above features can be found in the Owner's Manual or through your local Toyota Dealer.

**Toyota Canada Inc.** Every effort has been made to ensure the specifications and equipment shown are accurate based on information available at time of publication. In some cases, certain changes in production capacity, standard equipment, options or product delays may occur which would not be reflected in this brochure.
