

ENDNOTES 1. Based on EPA estimates. Actual mileage will vary with options, driving conditions, driving habits, and your vehicle's condition. 2. Purchase/lease of a new 2019 Kia Optima with UVO eServices (on HEV)/link (on certain gas trims)/eco (on PHEV) includes a complimentary 5-year (eServices)/1-year (link)/3-year (eco) subscription starting from new vehicle retail sale/lease date as recorded by the dealer. After the complimentary 5-year eServices subscription expires, your access to UVO services will immediately terminate. After the complimentary 1-year (link) or 3-year (eco) subscription expires, continued access to UVO link and eco will require a paid subscription at the then-current subscription rate or your use of UVO link or eco will immediately terminate. Use of UVO eServices/link/eco is subject to agreement to the UVO Privacy Policy (available at <https://owners.kia.com/us/en/privacy-policy.html>) and Terms of Service (available at <https://owners.kia.com/us/en/terms-of-service.html>). UVO eServices/link/eco is transferable to subsequent owner(s) during the original UVO eServices/link/eco service term. Only use UVO eServices/link/eco when safe to do so. UVO eServices/link/eco app is available from the App Store® or Google Play™ Store. Kia Motors America, Inc. reserves the right to change or discontinue UVO eServices/link/eco at any time without prior notification or incurring any future obligation. Message and data rates may apply. Cellular and GPS coverage are required to use most features. UVO features may vary by model, model year, and trim level. The optional UVO link system on the LX trim does not support remote climate control. Features and specifications are subject to change. For more on details and limitations, visit owners.kia.com or your authorized Kia dealer. 3. Remote features require a wireless signal with good coverage to function, and normal cellular service rates may apply. Do not use remote climate control or remote start if vehicle is in an enclosed area (e.g., closed garage) or a partially enclosed area without ventilation. Close all doors leading from adjacent living areas to the vehicle area before executing a remote climate control or remote start command. Remote climate control is not supported on the LX trim. 11. 911 Connect must be enabled on head unit, and activates after airbag deployment. Requires cellular coverage. UVO eServices requires a compatible smartphone connected via Bluetooth® wireless technology; cellular service rates apply. 12. 24-hour Roadside Assistance is a service plan provided by Kia Motors America, Inc. Limitations apply. See Kia Warranty and Consumer Information Manual for details. Requires cellular coverage. UVO eServices requires a compatible smartphone connected via Bluetooth® wireless technology; cellular service rates apply. 13. Vehicle Diagnostics are not a substitute for regularly scheduled maintenance. Vehicle Diagnostics checks powertrain, chassis, and airbag systems, and requires initial activation. See the UVO Maintenance section or Owner's Manual for maintenance schedule. 14. My Car Zone requires cellular coverage and cellular service rates apply. For UVO eServices, information must be manually synced in order to receive alerts, and cellular service rates apply. 15. The estimated range is based on a number of factors and assumes optimal driving conditions, efficient driving habits, and a straight road. Actual range will vary with options, driving conditions, driving habits, vehicle maintenance, charging practice, battery age, weather, temperature, and your vehicle's condition. Battery capacity will decrease with time and use. 16. Government 5-Star Safety Ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program (www.safercar.gov). 17. For maximum protection, always wear your seat belt. No system, no matter how advanced, can compensate for all driver errors, driving conditions, and/or injury. Actual mileage may vary with driving conditions, driving habits, and your vehicle's condition. 18. Warranties include 10-year/100,000-mile powertrain and 5-year/60,000-mile basic. All warranties and roadside assistance are limited. See retailer for warranty details.

If you love the feel of a
TURBO,
have a look at these two

The EX and SX trims give you turbo power and even
more premium features and options. Use this chart to
help you decide between them.

Choose your mode of PERFORMANCE

Since different drivers have different styles, pick the gas trim that has the performance you prefer. Three Gasoline Direct Injection (GDI) engines — two of which are turbocharged — give you strong acceleration. No matter which trim you choose, you'll enjoy responsive handling and a smooth, quiet ride.

LET'S TALK EFFICIENCY

HIT THE OPEN ROAD WITH HEV

The Optima HEV is designed to allow both the gasoline engine and electric motor to work together simultaneously for optimum efficiency¹ — an EPA-estimated 39 mpg in the city, 45 mpg on the highway, and 41 mpg combined. So go ahead, take the scenic route.

GO ALL ELECTRIC AT THE PUSH OF A BUTTON WITH PHEV

Efficiency¹ and convenience go hand-in-hand with PHEV. Head out for the day, charge up when you get home, and rest assured that should you exceed your all-electric range, PHEV will kick into hybrid mode automatically. So you won't have to plug in and recharge until it's convenient for you.

TECHNOLOGIES that make it all happen

The Optima HEV and PHEV are powered by Kia's full parallel hybrid system. This advanced design allows both the gas engine and electric motor to simultaneously provide power directly to the wheels for optimum efficiency! PHEV takes this technology a step further, letting you go all electric, on demand.

EFFICIENT ELECTRIC MOTOR

HEV and PHEV use an electric motor called a Transmission Mounted Electrical Device (TMED) to power them in all-electric mode. The motor works in combination with the gasoline engine to provide the ideal amount of power

LITHIUM-ION POLYMER BATTERY

This advanced, potent, lightweight, and compact battery powers the electric motor and is recharged through regenerative braking — the kinetic energy captured when the brakes are applied

DRIVE MORE EFFICIENTLY

The Hybrid Starter-Generator (HSG) shuts the gas engine off when the vehicle comes to a complete stop, then automatically restarts it when you press the accelerator again. HEV and PHEV even feature an available Coasting Guide* to help identify and suggest the most efficient times to coast during your drive

CHARGE-ON-THE-GO, AT HOME, OR ON THE ROAD

PHEV features Charging Mode, which lets you recharge the battery while driving in HEV mode under certain driving conditions. You can also charge to full capacity in under 3 hours with a 240V power outlet, or under 9 hours at home with a standard household electrical outlet

*Optional feature available only on certain trims. See kia.com for details.

When life throws you a **CURVE** here's how to stay on track

At Kia, the priority is always on improving all aspects of safety. Advanced sensor systems, strategically placed airbags, and breakthroughs in materials and design that have led to stronger body construction are just a few of the ways we never stop working to increase your protection.[†]

ELECTRONIC STABILITY CONTROL (ESC)[†]

In difficult driving situations, ESC is designed to help control the engine and brakes for improved directional stability

VEHICLE STABILITY MANAGEMENT (VSM)[†]

VSM can intervene to help enhance stability and steering responses when driving on some slippery roads

TRACTION CONTROL SYSTEM (TCS)[†]

When TCS senses wheelspin during acceleration, it uses a combination of engine power and brake force to help transfer power to the wheel that has more traction

ADVANCED AIRBAG SYSTEM¹⁷

Dual front, front seat-mounted side, and full-length side curtain airbags help protect driver and passengers

ADVANCED AIRBAG & SEAT-BELT SENSORS¹⁷

This advanced system monitors the severity of certain impacts and seat-belt use, and then helps to control airbag inflation accordingly

REINFORCED BODY CAGE

A rigid, reinforced body structure helps absorb impact energy to help protect the structural integrity of the passenger compartment in certain collisions
