

Next to the LS, the ES is one of the longest-running models in the Lexus lineup, having been introduced in 1989. ES is currently in its sixth generation and was all new for 2013. It comes standard with a 3.5-liter V-6 engine, 6-speed automatic transmission and front-wheel drive. There is also a hybrid model available for customers looking for better fuel efficiency.

While the Lexus ES has a loyal following, it can't match the TLX V-6 in terms of sportiness and being fun to drive. ES also falls short when it comes to the many advanced convenience and safety features you'll find on TLX V-6 models.

Acura TLX V-6 advantages over Lexus ES 350

- More horsepower and torque (290 hp/267 lb-ft vs. 268 hp/248 lb-ft)
- The TLX V-6 offers a more sophisticated engine that uses advanced technologies like Variable Cylinder Management™ (VCM®), direct injection and, on SH-AWD models, Idle Stop for improved fuel efficiency.
- Standard 9-speed automatic transmission (vs. 6-speed automatic transmission)
- Larger wheels and tires (18-inch vs. 17-inch)
- • Better EPA highway fuel economy ratings (34 mpg vs. 30 mpg)¹
- The TLX V-6 comes with a host of standard and available features that you won't find on the ES 350:
 - Standard Precision All-Wheel Steer™ (P-AWS®) System on 2WD
 - Available Super Handling All-Wheel Drive™ (SH-AWD®)
 - Standard paddle shifters
 - Standard Agile Handling Assist®²
 - Standard Integrated Dynamics System
 - Standard 60/40 split fold-down rear seatbacks (vs. pass-through only)
 - Available GPS-linked³ climate control when equipped with navigation
 - Standard Active Sound Control
 - Standard capless fuel fill
 - Available Adaptive Cruise Control (ACC) with low-speed follow⁴ (vs. no low-speed follow)
 - Available Lane Keeping Assist System (LKAS)⁵
 - Available Road Departure Mitigation system⁶
 - Available Collision Mitigation Braking System™ (CMBS™)⁷
 - Standard Tire Fill Assist
 - Standard Tire Sealant and Inflator Kit
 - Standard Aha™⁸ compatibility
 - Standard Siri®⁹ Eyes Free
 - Standard On Demand Multi-Use Display™ (ODMD™)
- You'll have to pay extra on the ES 350 to get these standard TLX V-6 features:
 - Heated front seats
 - Multi-view rear camera¹⁰ (vs. single-view)
 - Streaming audio via Bluetooth®¹¹
 - Pandora® compatibility¹²

Lexus ES 350 advantages over Acura TLX V-6

- Available hybrid model
- Smaller turning circle diameter – curb-to-curb (37.4 feet vs. 38.8 feet)
- Available panoramic glass roof
- Standard 10-way power front passenger seat (vs. 8-way power)
- More rear legroom (40.0 inches vs. 34.5 inches)
- More cargo volume (15.2 cu. ft. vs. 13.2 cu. ft.)¹³
- Standard front-passenger knee airbags as well as available rear-passenger side-impact airbags

DISCLAIMERS

- 1 Based on 2017 EPA mileage ratings. Use for comparison purposes only. Your actual mileage will vary depending on how you drive and maintain your vehicle, driving conditions, and other factors.
- 2 The Agile Handling Assist system cannot enhance stability in all driving situations. You still need to drive and corner at speeds appropriate for the conditions and always leave a sufficient margin of safety.
- 3 Acura Navigation System and related features available only in the United States, Puerto Rico and parts of Canada. See your local Acura dealer for information regarding navigation system area coverage
- 4 ACC with low-speed follow cannot detect all objects ahead and may not detect a given object; accuracy will vary based on weather, speed and other factors. ACC should not be used in heavy traffic, poor weather or on winding roads. The driver remains responsible for avoiding a collision.
- 5 LKAS only assists driver in maintaining proper lane position when lane markings are identified without a turn signal in use and can only apply mild steering torque to assist. LKAS may not detect all lane markings; accuracy will vary based on weather, speed and road condition. System operation affected by extreme interior heat. Driver remains responsible for safely operating vehicle and avoiding collisions.
- 6 Road Departure Mitigation may not detect all lane markings or lane departures; accuracy will vary based on weather, speed and road conditions. System operation affected by extreme interior heat. Driver remains responsible for safely operating vehicle and avoiding collisions.
- 7 CMBS cannot detect all objects ahead and may not detect a given object; accuracy will vary based on weather, speed and other factors. System operation affected by extreme interior heat. System designed to mitigate crash forces. Driver remains responsible for safely operating vehicle and avoiding collisions.
- 8 Compatible smartphone required. All Aha platform feeds are audible, not visual in nature. Vehicle does not provide any feeds. Some state laws prohibit the operation of handheld electronic devices while operating a vehicle. Launch smartphone applications only when the vehicle is safely parked. Aha is a trademark of HARMAN International Industries, Inc. Your wireless carrier's rates may apply.
- 9 Always remain attentive when driving. Certain functions are disabled or inoperable while the vehicle is in motion. Only operate the system when conditions permit you to safely do so. Avoid focusing on the device display or manually operating the system controls while driving. State or local laws may prohibit the operation of handheld electronic devices while operating a vehicle. iPhone and Siri are trademarks of Apple Inc.
- 10 Always visually confirm that it is safe to drive before backing up, as the rearview camera and Rear Cross Traffic Monitor (if present) may not provide complete information about conditions at the rear of your vehicle.
- 11 Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc., and any use of such marks is under license.
- 12 Compatible with select smartphones. Your wireless carrier's rate plans apply.
- 13 Based on SAE J1100 cargo volume measurement standard.
