

Although it can be traced back to the 1950s, the E-Class name was introduced in 1993 and is currently in its fourth generation. The E-Class is all new for the 2017 model year.

In addition to the sedan, the E-Class is available as a 2-door Coupe and Cabriolet. Sedans come with a 2.0-liter turbocharged 4-cylinder engine and 9-speed automatic transmission. Buyers have the choice of rear-wheel drive or 4MATIC all-wheel drive.

While the E-Class has become the benchmark for luxury, it doesn't offer many of the advanced features you'll find on the RLX.

### **Acura RLX P-AWS advantages over Mercedes-Benz E300**

- Larger-displacement V-6 engine that doesn't require a turbocharger to make power (vs. turbocharged 4-cylinder)
- More horsepower (310 hp vs. 241 hp)
- Larger standard wheels and tires than the E300 (19-inch vs. 18-inch)
- Standard tri-zone climate controls (vs. dual-zone)
- The RLX P-AWS comes with a host of standard and available features that you won't find on the E300:
  - Standard Variable Cylinder Management™ (VCM®)
  - Standard rear-wheel steering
  - Standard noise-reducing wheels to help reduce interior noise
  - Available heated rear seats
  - Standard GPS-linked<sup>1</sup> climate control when equipped with navigation
  - Standard Active Sound Control to help reduce interior noise
  - Standard Road Departure Mitigation system<sup>2</sup>
  - Standard Tire Sealant and Inflator Kit
  - Standard Song By Voice® and Aha™<sup>3</sup> compatibility
  - Standard On Demand Multi-Use Display™ (ODMD™)
- You'll have to pay extra on the E300 to get these standard RLX P-AWS features:
  - LED headlights
  - Heated front seats
  - Leather-appointed seating
  - Keyless Access System with smart entry and pushbutton ignition
  - Adaptive Cruise Control (ACC) with low-speed follow<sup>4</sup>
  - Multi-view rear camera<sup>5</sup>
  - Blind spot information system<sup>6</sup>
  - Lane Departure Warning (LDW) system<sup>7</sup>
  - Lane Keeping Assist System (LKAS)<sup>8</sup>
  - Pandora® compatibility<sup>9</sup>

### **Mercedes-Benz E300 advantages over Acura RLX P-AWS**

- 9-speed automatic transmission (vs. 6-speed)
- Smaller turning circle diameter – curb-to-curb (38.1 feet vs. 40.5 feet)
- Standard 14-way power driver and front passenger seats (vs. 12-way)
- Driver and front passenger knee airbags (vs. driver side only)

## DISCLAIMERS

- 1 Acura Navigation System and related features available only in the United States, Puerto Rico and parts of Canada. See your local Acura dealer for information regarding navigation system area coverage.
- 2 Road Departure Mitigation may not detect all lane markings or lane departures; accuracy will vary based on weather, speed and road conditions. System operation affected by extreme interior heat. Driver remains responsible for safely operating vehicle and avoiding collisions.
- 3 Compatible smartphone required. All Aha platform feeds are audible, not visual in nature. Vehicle does not provide any feeds. Some state laws prohibit the operation of handheld electronic devices while operating a vehicle. Launch smartphone applications only when the vehicle is safely parked. Aha is a trademark of HARMAN International Industries, Inc. Your wireless carrier's rates may apply.
- 4 Adaptive Cruise Control (ACC) with low-speed follow cannot detect all objects ahead and may not detect a given object; accuracy will vary based on weather, speed and other factors. ACC should not be used in heavy traffic, poor weather or on winding roads. The driver remains responsible for avoiding a collision.
- 5 Always visually confirm that it is safe to drive before backing up, as the rearview camera may not provide complete information about conditions at the rear of your vehicle.
- 6 The system is not a substitute for your own visual assessment before changing lanes; system accuracy will vary based on weather, size of object and speed.
- 7 LDW only alerts drivers when lane drift is detected without a turn signal in use. LDW may not detect all lane markings or lane departures; accuracy will vary based on weather, speed and road condition. System operation affected by extreme interior heat. Driver remains responsible for safely operating vehicle and avoiding collisions.
- 8 LKAS only assists driver in maintaining proper lane position when lane markings are identified without a turn signal in use and can only apply mild steering torque to assist. LKAS may not detect all lane markings; accuracy will vary based on weather, speed and road condition. System operation affected by extreme interior heat. Driver remains responsible for safely operating vehicle and avoiding collisions.
- 9 Pandora, logo and trade dress are owned by Pandora Media, Inc., and used with permission. Compatible with select smartphones. See: [www.pandora.com/everywhere/mobile](http://www.pandora.com/everywhere/mobile). Wireless carrier's rates apply.
