

2019 MAZDA3

Factory-Required Maintenance

YOUR ON-BOARD VEHICLE STATUS MONITOR

Your new 2019 Mazda3 comes with Mazda Connect which includes a state-of-the-art engine oil maintenance monitor. Designed to indicate when an oil change is due, Mazda Connect also has a monitor that notifies you when your Mazda requires servicing.

This is just one of many details we have created to help you feel more confident and in tune with your new Mazda and to help keep it running smoothly.

The wrench indicator light signals the time for vehicle maintenance or for an engine oil change.

FACTORY-REQUIRED
MAINTENANCE
SCHEDULE*

Your all-new Mazda3 is engineered with innovative technology from the chassis to the transmission to the engine and beyond. Every single aspect of this car is designed to be responsive and efficient.

To help you protect that high-level of performance, we have developed this maintenance schedule to keep your Mazda's key components working seamlessly, no matter the conditions.

When you visit your Mazda Clubhouse of Driving Passion, you can have peace of mind knowing that our trained Master technicians have maintained every detail to optimize the fuel efficiency and performance of your Mazda.

*Please consult your dealer or owner's Manual for more details on scheduled maintenance for your vehicle

SERVICE 1

Your Mazda will receive a full inspection every 8,000 KM or 6 months. This inspection is a review of your engine oil maintenance monitor, and a Comprehensive Vehicle Health Check which includes the following:

- Engine coolant level
- Engine oil level/condition
- Windshield washer fluid level
- Brake fluid level/condition

Under-hood inspection of:

- Hoses for heating, AC and coolant
- Engine air filter and Cabin air filter
- Oil and fluid leaks
- Battery condition

Wear-and-tear inspection of:

- Tire pressure and tire wear
- Tire rotation
- Brake wear and condition

Body, suspension and drive component inspection of:

- Shocks/struts and suspension
- Steering and wheel
- Exhaust system
- Wiper blade wear and spray nozzles
- Operational inspection of electrical components (horn, signals, lights)
- Transmission/clutch operation
