

## KEY SELLING POINTS

1. Award-Winning Value
2. Sporty Exterior and Modern Interior Styling
3. Segment-Leading Safety
4. Available Hybrid Version
5. Available Tech

## WHAT'S NEW

### Lineup

- New Special Edition based on the SE 4-cylinder model (2547)

### Exterior

- New exterior content for the Special Edition includes:
  - Unique 18-in. alloy wheels with a machined face and gloss black painted accents
  - Standard power tilt/slide moonroof
  - Smoked taillight treatment
  - Unique exterior badge
  - Two exterior colors: Blizzard Pearl and new Blue Streak Metallic
- 16-in. alloy wheels now available on LE models

## In-Cabin Technology

- 4.2-in. color TFT Multi-Information Display standard on Camry LE and up; includes Hybrid models (available on LE models with Entune™ Audio Plus systems)
- TFT Meter now standard on LE models
- Connected Navigation (Scout® GPS Link)<sup>1</sup> is now standard on XLE and XSE 4-cylinder models and the Special Edition model, and available on LE, SE and Hybrid LE and SE models
- Entune™ Audio Plus screen size enhanced to 7 inches on XLE and XSE models and XLE Hybrid model

2016 CAMRY

COMPETITIVE COMPARISONS

## 2016 FORD FUSION TITANIUM

### KEY ADVANTAGES

#### 2016 Camry SE vs. 2016 Ford Fusion Titanium

- Fuel Economy: Camry SE bests the Fusion Titanium in fuel economy, with an EPA-estimated rating of 25 city/35 hwy/28 combined MPG<sup>33</sup> vs. Fusion's 22/33/26.
- Safety: Camry SE comes with 10 standard airbags<sup>4</sup> vs. the Fusion's 8 airbags. Also Camry comes with Whiplash-Injury-Lessening (WIL)<sup>21</sup> front seats.

### 2016 FORD FUSION TITANIUM CHALLENGES

- More horsepower and torque
- Standard dual-zone automatic temperature control

## 2016 HYUNDAI SONATA HYBRID SE

### KEY ADVANTAGES

#### **2016 Camry Hybrid SE vs. 2016 Hyundai Sonata Hybrid SE**

- Design: Camry Hybrid SE features an aggressive design with a dynamic driving experience
- Power: Camry Hybrid SE features more horsepower and torque than the Hyundai Hybrid SE
- Safety: Camry Hybrid SE comes with 10 standard airbags<sup>4</sup> vs. the Hyundai's 8 airbags

### 2016 HYUNDAI SONATA HYBRID SE CHALLENGES

- Better estimated MPG

## DISCLAIMERS

1. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps and services subject to change. See [toyota.com/entune](http://toyota.com/entune) for details.
2. Manufacturer's Suggested Retail Price, excludes the Delivery, Processing and Handling Fee of \$835 for Cars, \$900 for Small/Light Trucks (Sienna, RAV4, Highlander Gas, Highlander HV, 4Runner, Tacoma and Venza), \$1195 for Large Trucks (Tundra), and \$995 for Large SUVs (Sequoia and Land Cruiser). (Historically, vehicle manufacturers and distributors have charged a separate fee for processing handling and delivering vehicles to dealerships. Toyota's charge for these services is called the "Delivery, Processing and Handling Fee" and is based on the value of the processing, handling and delivery services Toyota provides as well as Toyota's overall pricing structure. Toyota may make a profit on the Delivery, Processing and Handling Fee.) Excludes taxes, license, title and available or regionally required equipment. The Delivery, Processing and Handling Fee in AL, AR, FL, GA, LA, MS, NC, OK, SC and TX will be higher. Actual dealer price will vary.
3. Extra cost for (070)(3T3) painted exterior molding, requires Option (PC).
4. All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. See your Owner's Manual for further information/warnings.
5. The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather will limit effectiveness and view may become cloudy.
6. The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by [Toyota/Lexus] is under license. A compatible Bluetooth enabled phone must first be paired. Phone performance depends on software, coverage & carrier.
7. Concentrating on the road should always be your first priority while driving. Do not use the hands-free phone system if it will distract you.
8. Concentrating on the road should always be your first priority while driving. Do not use the hands-free phone system if it will distract you.
9. The Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. See your Owner's Manual for details.
10. SiriusXM® services require a subscription after a 3 month trial period. Subscriptions governed by SiriusXM® Customer Agreement available at [SiriusXM.com](http://SiriusXM.com). If you decide to continue your SiriusXM® service at the end of your complimentary trial, the plan you choose will automatically renew and bill at then-current rates unless you call 1-866-635-2349 to cancel. Fees and programming subject to change. Available only to those at least 18 years of age in the 48 contiguous United States and D.C..
11. HD Radio™ Technology manufactured under license from iBiquity Digital Corporation U.S. and Foreign Patents. HD Radio™ and the HD, HD Radio, and "Arc" logos are proprietary trademarks of iBiquity Digital Corp.
12. The Smart Key system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system.
13. Qi wireless charging may not be compatible with all mobile phones, MP3/WMA players and like models.
14. Availability & accuracy of the information provided by the navigation system is dependent upon many factors. Use common sense when relying on information provided. Services & programming subject to change. Services not available in every city or roadway. Updates may be available from your dealer at an additional cost. See your navigation system Owner's Manual for details.
15. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps & services subject to change. See [Toyota.com/entune®](http://Toyota.com/entune®) for details.
16. Contact with the response center may not be available in all areas. Service Agreement required. A variety of subscription terms available; charges will vary. See [Toyota.com](http://Toyota.com) for details.
17. Advanced Voice Recognition capabilities vary by head unit.
18. Always drive safely, obey traffic laws & focus on the road while driving. Siri® is available only on iPhone® 4s, or later iPad® w/Retina display, iPad® mini, & iPod® touch (5th gen.) & requires Internet access. Siri® is not available in all

## DISCLAIMERS

- languages or all areas & features vary by area. Some Siri® functionality & commands are not accessible in the vehicle. Data charges may apply. See Apple.com & phone carrier for details. Siri® is a registered trademark of Apple Inc.'s.
19. PANDORA®, the PANDORA® logo, and the Pandora trade dress are trademarks or registered trademarks of Pandora Media, Inc., used with permission.
  20. Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. See your Owner's Manual for details.
  21. Whiplash-Injury-Lessening front seats can help reduce the severity of whiplash injury in certain rear end collisions.
  22. Vehicle Stability Control (VSC) and Vehicle Dynamics Integrated Management (VDIM) are electronic systems designed to help the driver maintain vehicle control under adverse conditions. They are not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC and VDIM will be effective in preventing a loss of control. Please see your Owner's Manual for further details.
  23. Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance, tire and road conditions.
  24. Smart Stop Technology operates only in the event of certain contemporaneous brake and accelerator pedal applications. When engaged, the system will reduce power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions and driver input can all impact stopping distance. Smart Stop Technology is not a substitute for safe and attentive driving and does not guarantee instant stopping. Please see your Owner's Manual for further details.
  25. Automatic high beams system operates at speeds above 25 mph. Situations such as a dirty windshield, variable weather, lighting conditions and hilly terrain will limit effectiveness, requiring the driver to manually turn off. See Owner's Manual for details.
  26. Do not rely exclusively on the blind-spot monitor. Always look over your shoulder and use your turn signal. There are limitations to the function, detection, range and clarity of the monitor. For a complete list of limitations and directions, please see the Owner's Manual.
  27. Do not rely exclusively on the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection, range and clarity of the system. To learn more, see Owner's Manual.
  28. The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road conditions. See your Owner's Manual for further information.
  29. Lane Departure Alert is designed to read lane markers under certain conditions, and provide visual and audible alerts when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness depends on many factors. See Owner's Manual for more information.
  30. The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a Smart Key fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key/fob matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key/fob, it can be costly to replace. If you lose a key or fob, your Toyota dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local Yellow Pages or by contacting [www.aloa.org](http://www.aloa.org).
  31. 2016 EPA-MPG estimates. Actual mileage will vary.
  32. Cargo and load capacity limited by weight and distribution.
  33. 2016 Camry SE EPA 25/city, 35/hwy, 28/comb MPG estimates. Actual mileage will vary.
