Inspiring Performance & Capability

Powering every trim of the 2020 Audi Q3 is a 2.0L 4-cylinder TFSI® engine that offers the perfect balance of power and efficiency. You'll get an impressive 228 horsepower and 258 lb-ft of torque while achieving up to an EPA-estimated 19 city/27 highway/22 combined MPG.¹

Only part of this respectable efficiency comes from the turbocharged tech and Audi valvetrain system of the Q3's engine. Much of the Q3's efficiency comes from the engine's accompanying 8-speed Tiptronic® automatic transmission, which provides smooth shifting from gear to gear.

The Q3 also comes standardly equipped with the quattro® all-wheel drive system. This Audi staple system uses advanced sensors to monitor the road beneath your vehicle. If it senses a loss of traction, it'll respond immediately by readjusting the torque distribution.

To give you even more control of your drive, the Audi Q3 provides you with a standard Audi drive select system with five selectable drive modes. Choose among Auto, Comfort, Dynamic, Offroad, and Individual—each setting offers its own unique steering feel and throttle response.

Spacious & Comfortable Cabin

Every 2020 Audi Q3 is built with five spacious seats with comfortable and stylish leather upholstery. No matter which seat you sit in, you'll have ample space to spread out and get comfortable with these passenger-area dimensions:

	Front Row of Seats	Second Row of Seats
HEADROOM	39.6 inches	37.6 inches
LEGROOM	40 inches	36.1 inches
SHOULDER ROOM	56.7 inches	55.1 inches

In addition to all this space, the front two passengers will also get to enjoy 8-way power adjustability and heating capabilities. Plus, every Q3 comes equipped with a three-zone automatic climate control system to ensure everyone is cozy no matter the season.

The cabin of the Q3 is also ideal for cargo transportation. Without folding any of the seats down, you'll have just under 24 cubic feet of cargo space to work with behind the second row. More than double your cargo capabilities by utilizing the 40/20/40 split-folding rear seats.

With 48 total cubic feet of cargo space to work with inside the cabin, you'll be able to cart full-size suitcases to the airport, boxes and small furniture for your first-born's college move, and all of your supplies for a week of camping.

2020 Audi Q3 Trim Levels

The 2020 Audi Q3 offers three unique trim levels to choose from: the Audi Q3 Premium, the Audi Q3 Premium Plus, and the Audi Q3 Prestige. Each trim offers the same powertrain, dimensions, and standard furnishings. In this section, we'll break down all the extras that these trims bring to the table.

Audi Q3 Premium

First up is the 2020 Audi Q3 Premium, which features numerous exterior design elements that will draw attention anywhere you go. The Q-design Singleframe® grille and the 18-inch wheels give the Q3 an edge while the LED headlights with high-beam assist and LED taillights with dynamic indicators will make your presence known on the road.

Inside the cabin, you'll be greeted by Micrometallic Silver inlays and a panoramic sunroof. Technology-wise, you'll have an MMI® touch response system with an 8.8-inch center display along with an Audi smartphone interface on which you can take advantage of Apple CarPlay® and Google™ Android Auto™.

Stream your favorite music from your phone through these smartphone integration features or wirelessly through Bluetooth® connectivity. You'll also be able to stay in touch through hands-free phone calling via Bluetooth®.

Additionally, the Audi Q3 lays down a substantial foundation in terms of safety with several standard active safety systems, starting with rain and light sensors for automatic windshield wipers and headlights. When these systems detect changes in weather or light, they'll act automatically to provide the best possible visibility.

You'll also get Audi pre sense® basic and Audi pre sense® front. The latter monitors the road around you for potential collisions and provides warnings when a threat is detected, while the former prepares the vehicle to minimize damage and injuries as much as possible.

Audi Q3 Premium Plus

The 2020 Audi Q3 Premium Plus comes next and inherits all of the great features offered by the Premium trim level. Notably, this trim level offers significant upgrades on the active safety front with the addition of Audi side assist and the parking system plus with front and rear acoustic sensors.

For added convenience, this trim also includes the Audi advanced key, which comes with keyless start, stop, and entry with hands-free tailgate release. Packing your cargo has never been easier when all you need to do to access the cargo area is swipe your foot under the rear bumper.

The cabin also features an Audi phone box, which not only charges your smartphone when it's inside the cradle but also boosts the signal. You'll be able to stay in touch while being able to take advantage of your smartphone wirelessly and maintain its battery level for when you arrive at your destination.

Another notable upgrade for this trim is the addition of full LED headlights with unique DRL signature and high-beam assist. These features provide maximized visibility when driving in low-light conditions.

Audi Q3 Prestige

Last but certainly not least is the 2020 Audi Q3 Prestige trim level, which offers the best of the best features. For starters, you'll have an array of technology upgrades to experience, starting with the MMI® touch response system with a 10.1-inch center display and handwriting recognition.

On this system's large, high-definition screen, you'll be able to take advantage of MMI® Navigation plus with voice control system. Use natural voice commands to find your next destination, then follow turn-by-turn directions there. Plus, you'll get real-time traffic and weather updates along the way.

This system also works with Audi connect® PRIME and Audi connect® PLUS online services to keep you connected to the outside world while you're behind the wheel. These features provide an in-vehicle Wi-Fi® hotspot, Yelp® integration to help you find the perfect place to eat, Amazon Music™ integration, and much more.

The Audi Q3 Prestige still doesn't stop there, though. This trim also features an Audi virtual cockpit. This 12.3-inch LCD digital instrument cluster lives behind your steering wheel and acts like a liaison for the infotainment system. On it, you can follow Google Maps™ navigation, view infotainment updates, and much more.

The Audi Q3 Prestige pulls out all the stops when it comes to entertainment with the Bang & Olufsen® 3D Premium Sound System. This system consists of 15 strategically placed speakers, a 16-channel amplifier, and nearly 700 watts of power to deliver a never-before-heard listening experience.

This trim adds on to the already lengthy list of active safety features this model offers. In addition to the features that this trim inherits from the Premium and the Premium Plus, you'll get a top view camera system. With this system, you'll get a 360-degree view of your surroundings.

You'll also get park assist, which can help you get in and out of even the tightest spots, and Audi adaptive cruise control with stop & go. The latter provides the luxury of regular adaptive cruise control with the addition of automatic adjustability.

When you're engaging the automatic cruise control feature, this system is constantly monitoring your surroundings on the road. When these sensors pick up on changes in speed in the vehicles in front of you, it'll automatically slow your speed down to prevent a problem. It can even bring you to a complete stop automatically if the situation calls for it.
