

A4 S4

Audi A4 | A4 Avant Audi S4

This is what we mean when we say luxury has progressed.

It's not enough to simply give luxurious appointments to a cabin. They have to be thought through, designed for a comprehensive luxury experience. Something you see as much as feel. Fortunately, the Audi A4 is filled with such thoughtful appointments that they create the perfect environment for the driver and passengers. Genuine wood and aluminum inlays provide the materials for a precise fit and finish, available keyless start, stop, and entry offers premium convenience, and leather seating surfaces cater to comfort as much as the eyes. Luxury has progressed because we design it for you, not for you to adapt to it.

.04 - Three-zone Automatic Climate Control

Available in the Audi A4, it gives the driver, front passenger and rear passengers the option to set their individual cabin temperature to suit their particular comfort level.

Bridging the cultural divide between form and function.

It's a little-known fact that in Germany and throughout Europe, the A4 Avant is thought of as a slightly more sporty, sexier version of the A4. It's not hard to imagine how Germans see the A4 Avant as a true turn-on. Sophistication blended with just the right amount of functionality. And with a spectacular design, a sleek, sloped roofline, short overhangs at the wheels and an available sculpted power rear tailgate adding a note of intrigue to function, it's easy to see style too. Add to that 50.5 cu ft¹ of cargo capacity and a panoramic sunroof, and you just might see the light as well.

.06 - Cargo Capacity

With 60/40 split folding rear seats and impressive cargo capacities, the A4 Avant is uniquely matched for the driver that needs more space from a sports car.

⊢----- 50.5 cu ft¹ -----

It might feel like we've read your mind.

While the engineering on the A4 and S4 helps to elevate the driving profile and performance characteristics, it's not a totally refined sensibility we're after. We do, however, leave some of it up to you and your mood.

suspension

.08 - Audi Drive Select

—machine —

Our drive is responsive, but we also demand that you respond to the drive. With Audi drive select, you choose Comfort, Auto or Dynamic settings that configure the engine, transmission, available sports differential (S4), suspension and steering to help respond to your mood or the conditions, or just to experiment with drive settings that range from outstandingly comfortable to intensely sporty.

- comfort mode (peaceful)

Perfect for city streets, this setting adds optimized steering and suspension to help provide a smoother drive.

auto mode (balanced)

The best of both worlds dialed to automatically adjust settings for a seamless combination of comfort and responsiveness.

- dynamic mode (fun)

More precise steering and a more sensitive throttle and firmer suspension give this setting an aggressive tilt.

- individual mode (customized)

Take the turn your way—this mode allows you to adjust the steering, throttle and transmission upshifts to your style.

Stay tuned for a dynamic transmission.

Many drivers misplace their acceleration frustration on their engines, when it's actually the transmission that isn't rising to the occasion. The Audi A4 eliminates that concern with revolutionary transmissions, capable of delivering engine power in the most responsive and efficient way possible. This in turn allows you to command upshifts or downshifts on models equipped with ratios automatic transmissions through the available steering-wheel-mounted shift paddles.1 02 .09 - Eight-speed Tiptronic® 05 - 1.285 Replacing our six-speed Tiptronic® transmission from previous generations, 06 - 1.000 this will retain the smooth shifting you've come to expect, while increasing the fuel efficiency¹ and responsiveness of your A4. .10 - Audi Multitronic® Continuously Variable Transmission with FrontTrak® Front-wheel Drive In addition to the dynamics and economy of a traditional manual and the easy shifting of an automatic, the Audi multitronic continuously variable transmission always finds the engine's optimum

rev range for better response.1

The engine that confirms "Truth in Engineering."

Feel the acceleration, and you know the A4 has undeniable power. But where others tack things on to make power, Audi engineers thought up a better way. Using less. By reducing the overall weight of the car, 6.3 seconds including using innovative aluminum parts in the engine itself, they were able to install an engine that sacrifices nothing in the way of performance. Anyone can add, but Audi engineers are consumed with getting something more out of the engines they build. .11 - 2.0-liter Turbocharged Four-cylinder TFSI® direct injection fuses potency with efficiency. By producing 211 hp and 258 lb-ft of torque, you feel the punch of acceleration with the smooth power of a finely tuned turbocharged performance vehicle.1,2

^{1 22} city/30 highway/25 combined mpg (2012 A4 2.0T with Audi multitronic® continuously variable transmission with FrontTrak® front-wheel drive); 21 city/31 highway/25 combined mpg (2012 A4 2.0T with six-speed manual transmission and Audi quattro® all-wheel drive); 21 city/29 highway/24 combined mpg (2012 A4 2.0T with eight-speed Tiptronic® automatic transmission and Audi quattro® all-wheel drive). EPA estimates. Your mileage will varv. 2 0-60-mph varies from model to model. Always obey local speed and traffic laws.

Ready for its performance review.

Featuring a classic sport sedan stance and feel, a lowered suspension and stylish sports wheels, the Audi S4 adds an extra helping of performance to its already energetic character. Leaving nothing to chance, its striking aluminum-optic mirrors, quad exhaust tailpipes and exclusive S4 front and rear bumpers are just a few indicators of the power the S4 exudes. The proof is in the moment you punch the throttle.

Geared for true performance.

You might not care how efficient you've become, but the fact remains that this Audi S4 with its available seven-speed Audi S tronic® dual-clutch transmission shares a commitment to performance and economy.¹ That's because this transmission actually shifts gears nearly instantly, with the next gear engagedfrom a separate clutch, providing quick shifting in low gears, then rpm-sinking long ratios at top gears. Better yet, it was all designed to work in concert with the high-torque output of its 3.0T engine. Using paddle shifters or automatic mode, you are able to engage the road with an innovative, optimized transmission that respects efficiency as much as it delivers impressive power.

Definitive proof that six is greater than eight.

First things first: zero to 60 in 4.9 seconds. But that's not the only number worth mentioning here, as the 3.0T supercharged V6 in the S4 utilizes forced induction to streamline fuel efficiency up to a healthy 28 mpg highway to surpass traditional eight-cylinder capabilities. So you are able to understand the paradox—when it comes to Audi engineering, six cylinders is truly greater than eight.

^{1 18} city/27 highway/21 combined mpg (2012 S4 3.0T with manual transmission); 18 city/28 highway/21 combined mpg (2012 S4 3.0T with Audi S tronic® dual-clutch transmission). EPA estimates. Your mileage will vary. 2 Always obey local speed and traffic laws.

77° 23' 41.1" W

Control that rewards life's arbitrary impulses.

Pick a song. Pick a person to talk to. Pick a destination. It's your whim, as the available intuitive settings and controls on the Audi MMI® give the driver a world of commands within arm's reach. Its available BLUETOOTH® phone capabilities, using voice commands and ability to "read" your phonebook using speechto-text technology, speed the A4 into our new technological age.¹

.16 - Audi MMI Navigation Plus

See your environment, see buildings and anticipate your next turn with the available navigation system that helps put a little more depth in any journey.¹

33° 46' 3.1" N

118° 11' 26.5" W

1 See Infotainment/Technology section of Specifications for important details and safety information regarding the Audi MMI® Navigation plus system.

Finding the right personal note.

Rock or classical, news or jazz, you are more than what you listen to, but what you listen to helps you relax or engage when you are driving. It's something that Audi sound engineers know and feel themselves, so they've crafted a cabin with acoustics in mind to help you find the right note for your drive.

Simple to use, the available Audi music interface allows the driver to enjoy different playlists, when used with a compatible device, while maintaining focus on the road.

.20 - Bang & Olufsen® Sound System

The available sound system is composed of 14 tailor-made speakers, and with a total output of 505 watts delivered through 10 active channels, it blends a unique combination of audiophile sound quality and high-output power that breaks down previous performance barriers in car audio.

.17 - Sirius XM Satellite Radio

Match your driving mood with a variety of stations throughout the SiriusXM lineup, and see what song is playing on different channels without changing the station, to help you find what you are looking for.

.19 - Multi-channel Amplification

It may have taken hundreds of hours of sound tuning, but Bang & Olufsen® developed an available soundstage specific to the A4 that is supported by proprietary True Image™ technology. The multichannel amplification turns two-channel stereo signals into perfect 7.1-channel surround sound, distributing both channels to all loudspeakers in the car—each with its own particular delay and level—to surround you with pure sound.

.21 - The Human Ear

Think of your ear as the sound collector. While the brain processes the auditory data in the way you think of as "hearing," the ear is where the sound waves and pressure enter before being passed on by nerve impulses to the brain. Audi and Bang & Olufsen® design their soundstage with this vital gateway in mind—and work tirelessly to discover the best ways to engage it.

It's time you hear the truth.

Dedicated to the idea of "honest music reproduction," Bang & Olufsen® is a sound engineer's dream. Through an available 505-watt 14-speaker system perfectly integrated within your A4, Bang & Olufsen® is set on music reaching your ears by transcending the limits of audio technology. Audi offers an available system that remaps how you experience sound itself by automatically adjusting volume and timbre balance to changing ambient noise levels. Deep, layered and perfectly tuned by engineers who want you to hear the truth about how good life can sound in your A4.

.22 - Audi Side Assist

Active at speeds over 19 mph, available Audi side assist helps monitor blind spots and fast-approaching vehicles at a range of 150 ft from the rear. When a vehicle is present within the monitored area, the system warns you via LED lights in the exterior mirrors.

Helping to see the unforeseen.

Whether it's diminishing the impact of human error or keeping passengers secure during turbulent situations, the Audi A4 consistently rises to the occasion in inconsistent environments. This is evident through its six standard airbags and the use of high-strength steel that adds a measure of safety while enhancing overall handling performance.¹

----- .24 - Six Standard Airbags

With six standard airbags, including front-impact and thorax side airbags for both driver and front passenger, and available rear passenger thorax side airbags, you'll feel practically surrounded. And that's a good thing.

.26 - Brakes

Whether you're on the open road or off the beaten path, Audi A4 ESC with ABS helps to keep the vehicle traveling in its intended direction by applying the right brakes at the right time to maintain better traction, minimize skids and optimize control.

.25 - Strength and Flexibility

When it comes to safety, it's important to be strong, but it's also important to be flexible. That's why Audi engineers use high-strength steel in the B-pillar and the floorboards while designing crumple zones in the front and back of the vehicle that help dissipate the energy and force from a collision.

This is a dramatization and does not depict what will happen in a collision. All bags will not inflate in real-world collisions, and if multiple bags do deploy they will be in various stages of inflating/deflating and will never all be inflated at the same time. 1 Airbags are supplemental restraints only and will not deploy under all crash circumstances. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age.

Give the stragglers something to think about.

Whether it's the dual exhaust, defined design lines, or available modern LED technology in the taillights, the Audi A4 and S4 strive to impart the same impression they give when you first meet one of them—a split-second of intrigue coupled with a persistent need to drive them.

.27 - LED Taillight Technology

~ fig. 03

Sleek and stylish, these rear light-emitting diodes are brighter and longer-lasting than halogen lights, while also illuminating faster than traditional brake lights, giving the driver behind you more time to respond.

Accessories

Imagine a cherry on top of your sundae. Sweet, right? Now imagine a cherry that helps protect your A4 in the garage. Or carries your bikes for a serious weekend on the trails. Or makes heads swivel as you drive by. Audi Genuine Accessories are the little extras that make your Audi even sweeter. Designed by the same visionaries

who designed your vehicle, all accessories feature a tailored fit and the expert craftsmanship you'd expect from Audi. They are also backed by the 4-year/50,000mile Audi New Vehicle Limited Warranty, or the accessory's 12-month/12,000-mile limited warranty, whichever extends longer from the accessory purchase date.¹

Front Spoiler with Blade Insert

This styling component creates a lowered appearance through its understated front spoiler and blade that's primed for painting. (Not available with S line® exterior appearance or on S4 models.)

19" Cortada Allov Wheels

This 19" Cortada alloy wheel offers a 5-spoke design consisting of machined triangular panels your Audi A4, this impressive drop-center, on each spoke. Its unique Cortada styling benefits from hollow spokes that help keep the A4 light and versatile.

A clean, sleek enhancement for the rear of the Body modifications aren't usually this refined. A4, whose blade can be painted a contrasting color for a striking look on the road. (Not available with S line® exterior appearance or on S4 models.)

18" Candelas White Alloy Wheels Providing an extra element of confidence to deep-dish design makes this 15-spoke wheel stand out in any environment.

A4 Rear Deck Spoiler

The lines of this spoiler integrate perfectly into the stock body panels of the A4 so that this enhancement meets the eye organically. The result is an inherently different look and feel to your Audi A4. (Not available with S line® exterior appearance or on S4 models.)

18" Cascara Alloy Wheels

Add a personal touch to your Audi with this unique wheel/tire set. Designed exclusively for the Audi A4, these Cascara wheels are engineered to meet strict tolerances for performance and durability.

A4 Avant Roof Edge Spoiler

This subtle enhancement fits over the top of the Attached to strong side brackets, these are rear hatch, and merges form, fit and function to the durable foundation of the Audi roof-rack achieve authentic independence on the road.

Small Cargo Carrier

Secure your gear with confidence, as this trim, aerodynamic design offers extra carrying capacity (13 cu ft) in a smart size: 55" long, 35" wide. 14" high.

A4 and S4 Sedan Base Carrier Bars

system. (All roof-rack system attachments require the base carrier bars. All attachments sold separately.)

A4 Avant Base Carrier Bars

Attached to the durable side brackets of the Audi A4 Avant, these bars help provide the stable foundation for the Audi roof-rack system

All-weather Floor Mats

This set of custom-fit floor mats help keep your Audi looking showroom-fresh, no matter what the weather brings. Helping to protect your vehicle's carpet from stains, these mats withstand practically everything from caked mud to toppled coffees and fumbled gazpacho.

SUPERCHARGED

S4 Alu-optic Trim Package Kit

This set of eve-catching badges and stone guards communicate to the world the pride and passion you have for your Audi S4.

Other accessories not shown ----

Various Transport Solutions

The open road is calling—so bring all the right gear to enjoy the ride. The Audi line of storage accessories helps protect your possessions with a variety of intelligent and innovative solutions. Choose from bike racks, ski racks and a variety of cargo carriers.

Comfort and Protection Solutions

Audi Genuine Accessories offer a wealth of practical aids for more space, tidiness and safety on board with functional items to help keep your Audi in pristine condition. Use them all to help reduce wear and tear on your Audi and help keep it looking like new—inside and out.

Car Care

Use the only car care line specifically designed with your Audi vehicle in mind. Audi Guard car care products provide gentle cleansing formulas and special tools to help give interior and exterior surfaces the finest in cleaning and protection.

License Plate Frames

Choose from "Audi Sport" in carbon fiber, black powder-coat, polished and brushed finishes or "Truth in Engineering®" in polished and carbon fiber finishes. (Check local laws and regulations regarding use.)

Electronic Accessories

The many electronic accessories in your Audi are renowned for design that emphasizes user experience. All products are tested to help ensure compatibility with your vehicle's electrical systems so that you can easily enjoy what Audi technology has to offer.

¹ Tires are supplied and warranted by their manufacturer. High-performance tires are designed for optimum performance and handling in warm climates. They are not suitable for cold, snowy, or icy weather conditions. If you drive under those circumstances, you should equip your vehicle with all-season or winter tires, which offer better traction under those conditions. We suggest you use the recommended winter or all-season tire specified for your car or its equivalent. These high-performance tires also have a lower aspect ratio that aids performance and handling; however, in order to avoid tire, rim or vehicle damage, it is important that the inflation pressure is regularly checked and maintained at optimum levels. Please also remember in making your selection that, while these tires deliver responsive handling, they may ride less comfortably and make more noise than other choices. Finally, these tires may wear more quickly than other choices. 2 Always obey local speed and traffic laws.

1 Airbags are supplemental restraints only and will not deploy under all crash circumstances. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age. 2 Audi Navigation plus depends on signals from the worldwide Global Positioning Satellite network. The vehicle's electrical system, and existing wireless and satellite technologies, must be available and operating properly for the system to function. The system is designed to provide you with suggested routes in locating addresses, destinations and other points of interest. Changes in street names, construction zones, traffic flow, points of interest and other road system changes are beyond the control of Audi of America, Inc. Complete detailed mapping of

lanes, roads, streets, toll roads, highways, etc., is not possible, therefore you may encounter discrepancies between the mapping and your actual location. Please rely on your individual judgment in determining whether or not to follow a suggested Audi Navigation plus route. Periodically, the mapping is updated, and a new DVD will be required in order to maintain the latest navigation information available to us. These will be available for purchase from time to time at an additional cost. Consult your dealer or call 1-800-FOR-AUDI for details.

3 See back cover for important information regarding required SiriusXM subscriptions.
