2017 SEDONA

An impressive combination of style, comfort, and versatility

Presenting the 2017 Kia Sedona, designed and engineered to deliver both sophisticated styling and all-around versatility. Its spacious interior allows both driver and passengers to travel in exceptional comfort. A wealth of technologically advanced features,* including available systems like Autonomous Emergency Braking!¹ inspire confidence and enhance everyday convenience. Sedona also includes integrated safety systems that have helped it earn award-winning safety ratings. Like all Kia models, Sedona comes with an industry-leading, 10-year/100,000-mile warranty program² — a reflection of its outstanding quality and reliability.

FOLD-IN-THE-FLOOR 3RD-ROW SEATS⁴

SLIDE-N-STOW[®] SPLIT 2ND-ROW AND SPLIT 3RD-ROW STOWED⁴

SPLIT 3RD-ROW STOWED AND 2ND-ROW CENTER SEATBACK FOLDED⁴

SLIDE-N-STOW[®] 2ND-ROW AND 3RD-ROW STOWED⁴

2ND-ROW SLIDE-N-STOW[®] SEAT DESIGN

Spacious and adaptable

Sedona's interior adapts to your lifestyle, beginning with a choice of available seven- or eight-passenger seating.* Either way, you can configure the second- and third-row seats to carry passengers in comfort or stow extra cargo.⁴ Available features like a 12-way power-adjustable driver's seat* and 8-way power-adjustable front passenger's seat* provide added comfort and convenience.

SPACIOUS EIGHT-PASSENGER SEATING*

With available eight-passenger seating, the second row features a removable center seat. This unique design allows the second row to be configured for more spacious seating and convenient access to the third row, or for an additional passenger.

FOLD-IN-THE-FLOOR THIRD-ROW SEATS

Third-row seats conveniently fold down into the floor, allowing you to quickly create a spacious rear cargo area. They also feature a versatile 60/40 split-fold design, giving the option of carrying a combination of passengers and cargo.⁴

SLIDE-N-STOW[®] SEAT DESIGN

When you need more cargo area, you can take advantage of the second-row seats' Slide-N-Stow[®] design! Instead of removing the seats from the vehicle, simply flip a lever to stand the seats upright and slide forward, where they stay locked in place.

FRONT PASSENGER'S SEAT POWER ADJUSTMENT SWITCH*

An available switch on the inside bolster of the front passenger's seat lets the driver conveniently adjust the seat so rear passengers can get in or out more easily and have more legroom when there's no front-seat passenger.

1. PADDED CENTER CONSOLE

The large center console features a padded flip-up and sliding armrest. Inside, it has a large, removable sliding tray and a storage compartment that is deep enough for a tablet computer. A 12-volt outlet and an available Rapid-Charge USB charging port* help you keep your portable electronic devices fully charged.

2. PORTABLE RECHARGEABLE FLASHLIGHT*

An available rechargeable flashlight in the cargo area has dual functions. Mounted in place, it automatically lights the cargo area when the hatch is opened. It is also easy to detach for use as a portable flashlight.

3. CONVERSATION MIRROR

A specially designed rearview mirror in the upper console allows the driver and front passenger to see rear-seat passengers without having to turn around in their seats.

4. 110-VOLT POWER INVERTER*

With Sedona's handy, available 110-volt power inverter, you can plug electronic devices — from your laptop computer to a portable camcorder — right into an electrical power outlet.

5. DUAL GLOVE BOXES*

An available large cooling glove box lets you keep beverages chilled on long drives, while a second glove box provides additional storage space.

6. SECOND- & THIRD-ROW SUNSHADES*

Rear-seat passengers can enjoy a cool and comfortable drive with available side-window sunshades.

Easy to live with in every way

Sedona is wonderfully versatile, with a spacious cargo area and a number of innovative features designed for everyday convenience. An available Smart-Power Liftgate®* opens automatically if you simply stand next to it for three seconds with the available Smart Key* in your possession, which is especially helpful when you have your hands full. Plus, the liftgate automatically retracts if it meets resistance, and you can set it to open and hold at different heights.

DID YOU KNOW?

Sedona features a uniquely designed full center console between the driver and front passenger, providing intuitive positioning of the shift lever and a distinctly CUV-like feel.

Driver-focused

Sedona's cabin is designed to provide the driver with superb ergonomics. The shift lever is located in the center console to give the driver ready access to the Sportmatic[®] transmission. Everything from the steering-wheel-mounted controls⁵ to the available voice-command navigation system^{5*} is intuitively placed for convenient operation. In addition, an abundance of upscale soft-touch material throughout the interior surrounds you with sophisticated styling.

VOICE-COMMAND NAVIGATION^{5*}

The convenient, available voice-command navigation system features a vivid 8-inch color touch screen and delivers continuously updated highway conditions from SiriusXM Traffic.^{TM6}

STEERING-WHEEL-MOUNTED CONTROLS

You may operate a variety of features with the convenient steering-wheel-mounted controls,⁵ including the audio system's volume and mode selection and all of the cruise control system's functions.

SIRIUSXM[®] SATELLITE RADIO⁶

Enjoy over 150 channels of commercial-free music, plus sports and news in your Sedona during your 3-month SiriusXM All Access trial subscription⁶ which also includes streaming 160-plus channels on your smartphone, tablet, and computer.

STAIN-RESISTANT SEATS

YES Essentials^{®7} cloth seating features repel-and-release technology for stain resistance, so even messy spills clean up easily. Plus, advanced fibers help eliminate lingering smells that moisture can leave behind.

1. INFINITY^{®8} AUDIO SYSTEM*

The available premium Infinity[®] audio system includes eight speakers, an external amplifier, and a subwoofer. It surrounds driver and passengers with crisp, balanced sound for exceptional audio entertainment.

2. HEATED STEERING WHEEL*

Sedona SX and SX Limited include a wide variety of luxurious features designed to provide comfortable driving all year long. The available heated steering wheel is especially nice on cold winter mornings.

3. PUSH-BUTTON START*

For everyday driving convenience, you can start or stop the engine with the push of a button, and open a locked door, with the available Smart Key remote* — even when you have it in your pocket or purse.

4. LCD SUPERVISION METER CLUSTER*

The available Supervision meter cluster's 3.5-inch, high-definition color LCD has sharp, high-contrast graphics and outstanding readability, thanks to its Thin-Film Transistor (TFT) construction.

1. DUAL SUNROOF*

Sedona SX Limited has available front and rear sunroofs that let you enjoy a feeling of spaciousness and fill the cabin with fresh air. They also feature dual sliding sunshades that are easy to open and close.

2. HEATED & VENTILATED SEATS*

Enjoy optimal comfort in warm weather with available ventilated driver's and front-passenger's seats. Available heated front seats with three temperature settings and heated second-row outboard seat cushions help ensure comfortable driving in cold weather.

3. DRIVER'S MEMORY SEAT & MIRROR SYSTEM*

Available memory settings for two drivers are located on the driver's door. They provide the luxury and comfort of personalized ergonomics for the available 12-way power-adjustable driver's seat and outside mirrors.

4. PREMIUM NAPPA LEATHER SEATS*

Sedona SX Limited features available premium full-grain Nappa leather seat trim for first- and second-row seating, providing upscale styling and an elegant feel for traveling in exceptional comfort.

TRI-ZONE AUTOMATIC TEMPERATURE CONTROL*

Available temperature control allows the driver and front passenger to adjust the settings to create individual climate zones. Second- and third-row passengers can also adjust separate ventilation outlets. A cluster ionizer works silently and efficiently to help purify air in the cabin.

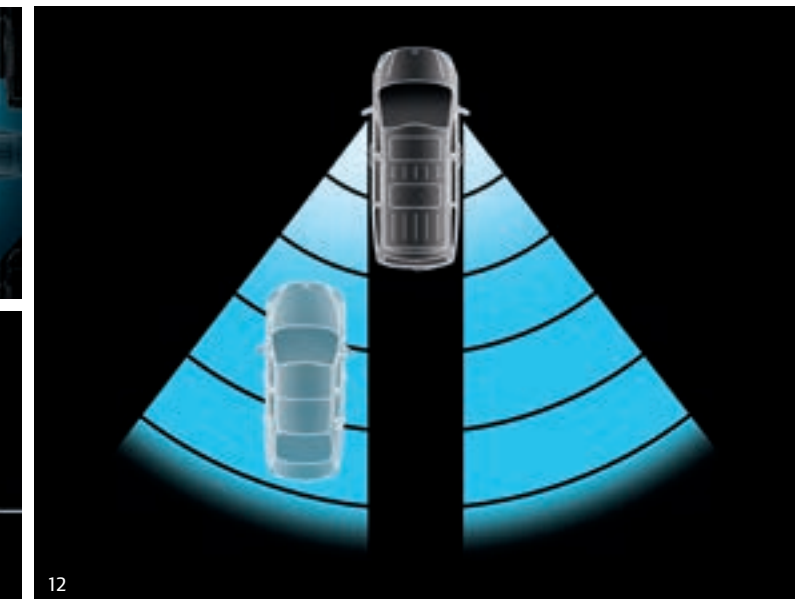

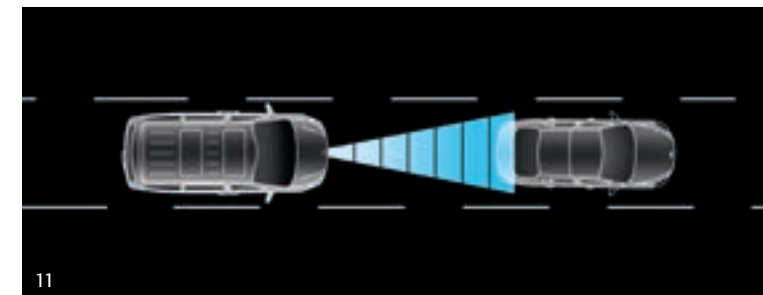

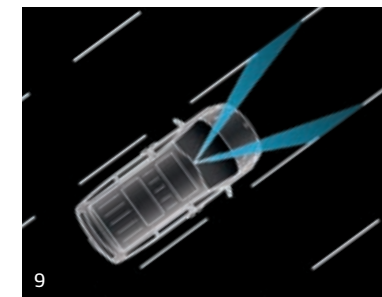

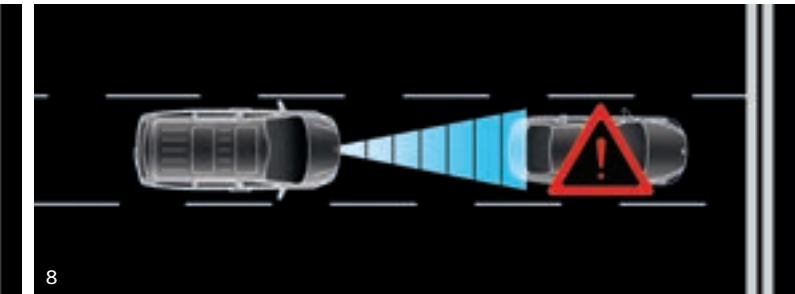

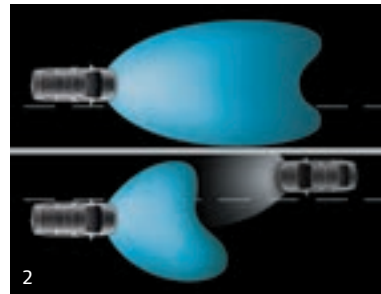

A higher standard of comfort

Sedona has a range of premium features that provide a comfortable, luxurious ride. Sedona SXL features available elegant two-tone, Nappa leather seat trim complemented by reclining second-row, first-class lounge seats.⁹ They slide forward and backward as well as side to side for added adjustability, and include aviation-style, contoured headrests and adjustable armrests and footrests for exceptional comfort.

Advanced technology at your command

Sedona features an impressive array of technologically advanced systems. They are designed to enhance your confidence on the road, increase your entertainment options, and provide a steady stream of information designed to help you make better, more timely driving decisions.

1. SURROUND-VIEW MONITOR^{1*}

Available Surround-View Monitor utilizes four cameras, located at the front, rear, and sides, to provide visibility all around the vehicle. This helps enhance the driver's view when maneuvering into parking spaces.

4. REAR-CAMERA DISPLAY¹

To help you see things behind your vehicle that you might not see by looking over your shoulder, Sedona features a Rear-Camera Display with a large, bright screen.

5. FRONT & REAR PARK ASSIST SYSTEM^{1*}

An available sonar system is concealed in both the front and rear bumpers. When parking, an audible warning is given if the system detects certain objects close to your vehicle.

2. HID HEADLIGHTS WITH AUTO-LEVELING & HIGH-BEAM ASSIST^{1*}

Available High-Intensity Discharge (HID) headlights are Auto-Leveling and provide bright, crisp lighting. High-Beam Assist automatically dims the lights for oncoming traffic or engages the high beams when the road is clear.

6. SMART WELCOME WITH POWER-FOLDING MIRRORS^{1*}

When you approach your Sedona and it detects the presence of the available Smart Key remote,² the available Smart Welcome system unfolds the power-folding mirrors and turns on the interior and door-handle lights.

3. DYNAMIC BENDING LIGHT^{1*}

For optimal visibility while driving at night, Dynamic Bending Light works with the available High-Intensity Discharge (HID) headlights^{1*} to deliver a varying beam pattern and enhanced directional lighting based on vehicle speed and steering angle.

7. AUTONOMOUS EMERGENCY BRAKING^{1*}

This available system is designed to detect and monitor vehicles traveling ahead of you. It then works to automatically apply the brakes if it determines a crash might be imminent, helping to avoid a collision or mitigate the effects if it cannot be avoided.

9. LANE DEPARTURE WARNING SYSTEM^{1*}

This available system is designed to detect the vehicle moving out of its lane without the turn signal being used. When it does, it alerts you with a combination of audible and visual warnings.

11. SMART CRUISE CONTROL^{1*}

Available Smart Cruise Control uses radar to maintain a predetermined distance from the vehicle directly ahead, automatically slowing or accelerating your Sedona when appropriate.

10. REAR CROSS-TRAFFIC ALERT^{1*}

Available Rear Cross-Traffic Alert warns the driver of cross traffic while the vehicle is in reverse by activating audible and visual alerts to help reduce the likelihood of a collision.

8. FORWARD COLLISION WARNING SYSTEM^{1*}

Available Forward Collision Warning System activates and alerts when the vehicle detects objects immediately ahead that may cause a potential impact, encouraging the driver to decelerate.

12. BLIND-SPOT DETECTION WITH LANE-CHANGE ASSIST^{1*}

An available radar system helps detect vehicles in the driver's blind spot and then provides audio and visual alerts. Lane-Change Assist helps detect vehicles in adjacent lanes approaching from behind.

UVO — short for “your voice”^{5*}

Sedona’s available UVO Infotainment System* can be operated with simple voice commands and provides an easy, hands-free way to connect to your vehicle by seamlessly integrating a compatible smartphone.¹⁰ It lets you stream music, monitor your vehicle’s driving habits, and access a variety of available advanced features like Apple CarPlay^{TM11} and Android Auto.^{TM12} Plus, there are no subscription fees⁵ for the first 10 years to enjoy its many benefits.

ADVANCED VOICE RECOGNITION*

UVO’s^{5*} advanced voice-recognition technology lets you conveniently manage your music and enjoy hands-free⁵ use of your phone — with simple, intuitive verbal commands.

MY CAR ZONE*

My Car Zone helps you monitor your vehicle’s usage through Curfew, Speed, and Geo Fence alerts based on your desired presets. You can manage this feature from the UVO link⁵ app or MyUVO.com.

PARKING MINDER^{13*}

Record your vehicle’s location when you park, then use the UVO link app⁵ to help find your car with a compatible smartphone.¹⁰ You can also take pictures of the area for reference, write reminder notes, and more.

MY POINTS OF INTEREST*

You can use the free UVO link app⁵ or MyUVO.com to send Points of Interest to the UVO⁵ touch screen for easy navigating.

1. APPLE CarPlay^{TM11*} 2. ANDROID AUTO^{TM12*}

Apple CarPlay and Android Auto let you take full advantage of the available UVO^{5*} Infotainment System by simply connecting your compatible smartphone¹⁰ with a USB cable. You can then use it to navigate to your destination, make phone calls and retrieve voice mail, receive text messages and respond to them verbally, and more. In addition, compatible apps are displayed on the touch screen.

3. UVO link APP⁵

A free app allows you to integrate a compatible smartphone¹⁰ with your Sedona. This lets you make the most of UVO’s^{*} variety of advanced features. You can also access UVO* through MyUVO.com.

LOCAL SEARCH

POWERED BY GOOGLE^{TM12*}

UVO⁵ allows access to Google Local Search through a Wi-Fi hotspot. Search for destinations by name or address using your voice or text entry.

911 CONNECT^{14*}

When an airbag is deployed, a call is made to 911. The vehicle’s location is then sent to the operator and a voice connection is made with the vehicle’s occupants.

ENHANCED ROADSIDE ASSIST^{15*}

Call roadside assistance directly from the icon on the touch screen or by selecting the number on the UVO link app.⁵ Your vehicle’s location is then sent to the Call Center and a connection is made with an operator.

VEHICLE DIAGNOSTICS^{16*}

Vehicle Diagnostics lets you perform a check at any time. When an issue is detected, you will automatically be prompted to schedule a dealer appointment with your preferred dealer or call roadside assistance.

UVO⁵ GUIDE*

To learn more about UVO’s^{*} features, you may access an automated user manual by using the touch screen in the vehicle.

APPLE^{®11} SIRI[®]-COMPATIBLE*

UVO^{5*} enables you to instantly get information by accessing Siri on your iPhone^{®10} with the vehicle’s steering-wheel-mounted⁵ controls.

The power of exceptional engineering

Sedona delivers a refined driving experience. With its powerful, 276-horsepower Gasoline Direct Injection (GDI) V6 engine and Sportmatic® transmission, you get strong acceleration whenever you need it. Sedona also features a rigid yet lightweight Iso-Structure™ body design complemented by a low center of gravity. Combined with four-wheel independent suspension and outstanding interior insulation, this unique design provides a smooth, quiet ride and responsive handling.

EXCEPTIONAL PERFORMANCE

Sedona features a 3.3-liter Gasoline Direct Injection (GDI) V6 engine that generates 276 horsepower. It's tuned to deliver outstanding midrange torque for impressive acceleration.

SPORTMATIC® TRANSMISSION

The 6-speed automatic transmission helps provide smooth, seamless shifting. Its Sportmatic® function is designed to allow you to choose between automatic mode or, for even sportier driving, clutch-free manual shifting.

DRIVE MODE SELECT SYSTEM*

To suit your style of driving and road conditions, available Drive Mode Selectable electronic steering and powertrain control allows a choice of normal, ECO, or comfort settings.

STRONG TOWING CAPACITY

The 3.3-liter Gasoline Direct Injection (GDI) V6 engine produces 248 lb.-ft. of torque, giving Sedona a towing capacity of 3,500 lb.¹⁷ for capably hauling a wide variety of trailers.

REFINED SUSPENSION

MacPherson-strut-front and multi-link-rear suspension systems help deliver exceptional handling and precise steering. Available high-performance shock absorbers* provide a smooth ride even over most bumpy roads.

ACOUSTIC GLASS*

To help block wind and road noise and provide a quiet ride, the windshield features available specially laminated glass with thin film on each side of the window's insulating center layer.

ISO-STRUCTURE™ CONSTRUCTION

Sedona's body is manufactured with a combination of high-tensile-strength steel alloys. This body structure helps improve driving dynamics for more precise handling and is the foundation for a quieter ride.

Dedicated to making safety a top priority

Sedona's technologically advanced systems are engineered to give you greater confidence on the road and help you maintain control, even in harsh road conditions and some emergency situations.[†] In addition, these systems are designed to function automatically, freeing you to focus on safe driving.

For 2017 Sedona when equipped with available Autonomous Emergency Braking
INSURANCE INSTITUTE FOR HIGHWAY SAFETY

NHTSA Overall 5-Star
Crash Safety Rating³
2017 SEDONA

ELECTRONIC STABILITY CONTROL (ESC)

ESC provides improved directional stability to help maintain better control in difficult driving situations. During emergency maneuvers, it works to control the engine and brakes to help keep your Sedona on course.

TRACTION CONTROL SYSTEM (TCS)

When TCS senses wheelspin during acceleration, it uses a combination of both engine power and brake force to help transfer power to the wheels that have the most traction.

ELECTRONIC BRAKE-FORCE DISTRIBUTION (EBD)

To help maintain more consistent braking as vehicle loads and weight distribution change, the EBD system automatically adjusts the front-to-rear balance of brake pressure.

BRAKE ASSIST SYSTEM (BAS)

If BAS detects emergency braking, based on how quickly you step on the brake pedal, it instantly applies full braking force, which helps shorten your overall stopping distance.

CORNERING BRAKE CONTROL (CBC)

CBC provides side-to-side brake-pressure proportioning using the Electronic Brake-force Distribution system, resulting in optimized vehicle deceleration and stability when braking into a turn.

HILL-START ASSIST CONTROL (HAC)

When starting off on a steep hill, HAC is designed to automatically hold the brake pressure for two seconds after you take your foot off the brake pedal.

Advanced engineering for your protection

At Kia, the process of improving all aspects of safety is relentless. As a result, continuous engineering advances and breakthroughs in material design have led to Sedona's exceptionally strong body construction, strategically placed airbags, and advanced sensors, all of which help to increase your peace of mind.

ADVANCED AIRBAG SYSTEM

An advanced airbag system helps protect driver and passengers with dual front, front seat-mounted side, and full-length side curtain airbags.¹⁸

FRONT & REAR CRUMPLE ZONES

Both front and rear crumple zones are engineered to help absorb and dissipate impact energy, helping to preserve the basic structural integrity of the passenger compartment in certain collisions.

FRONT SEAT-BELT PRETENSIONERS

Pretensioners have been designed to tighten the front seat belts in the event of certain collisions. This can help to reduce the likelihood of injuries.

REAR CHILD-SAFETY DOOR LOCKS

Rear child-safety door locks help prevent the doors from being opened accidentally, which is important when small children are passengers. With the doors in the locked position, they can only be opened from the outside.

AIRBAG & SEAT-BELT SENSORS

This advanced system monitors the severity of certain impacts, the presence of a front passenger and seat-belt use, and then controls airbag inflation accordingly.¹⁸

SIDE-IMPACT DOOR BEAMS

All doors are reinforced with steel beams to help absorb impact energy and deflect side-impact force. In addition, the body's support pillars are reinforced to help strengthen the body of the vehicle.

FRONT & REAR 3-POINT SEAT BELTS

Three-point seat belts are standard for all seating positions, so that each person is protected with both an over-the-lap and shoulder seat belt.

LATCH SYSTEM

Sedona features the easy-to-use Lower Anchors and Tethers for Children (LATCH) system. It is engineered to let you securely install a compatible child seat in the second row and passenger-side third row.

DID YOU KNOW?

Fifty-five percent of Sedona's body is constructed with Advanced High-Strength Steel and Press-Hardened Steel. Additionally, over 800 large-diameter spot welds along with more than a football field in length of aerospace-based, specially engineered adhesives are used for added strength.

Discover world-class quality

Kia is committed to producing exceptional vehicles with superb quality and reliability to suit most every driving need. From compact to crossover, Kia delivers an extraordinary combination of precision engineering, outstanding performance, innovative features, and advanced safety systems.

COMMITMENT TO AMERICA

Kia Motors has invested over \$1.1 billion in its manufacturing plant in West Point, Georgia. Utilizing the latest manufacturing processes and state-of-the-art robotics, the plant has produced over 2 million vehicles since 2009. The Sorento crossover and certain Optima midsize sedans are currently being assembled at this plant.¹ Together with on-site and local suppliers, the Georgia facility is responsible for the creation of more than 15,000 jobs in West Point and the surrounding areas. It's all part of Kia Motors' commitment to America — a commitment that is sure to grow and strengthen in the years ahead.

TAKING ON THE COMPETITION

The Kia Racing team has gone head-to-head with world-class rivals — and won. Motorsport is a proven test bed for reliability, durability, and performance, and the knowledge gained on the racetrack has helped Kia manufacture award-winning vehicles that perform beyond your expectations. In six years of racing, Kia won a total of seven championships with three models — Rio 5-Door, Forte Koup, and Optima.

INDUSTRY-LEADING WARRANTY PROGRAM²

Kia engineers are passionate about producing vehicles that are exceptionally well designed and reliable. Their dedication to quality and attention to detail give Kia the confidence to back every model with an industry-leading warranty program.

- 10-year/100,000-mile limited powertrain warranty
- 5-year/60,000-mile limited basic warranty
- 5-year/100,000-mile limited anti-perforation warranty
- 5-year/60,000-mile 24-hour roadside assistance

KIA NOVO CONCEPT VEHICLE SHOWN (not available for sale).

COMPELLING DESIGN

Under the direction of President and Chief Design Officer Peter Schreyer, Kia vehicles have captured worldwide attention for their interior and exterior styling. The passionate collaboration of Kia's designers has created a look that makes every model as bold as it is distinctive.
