Precision engineered from high-grade titanium alloy and designed to significantly reduce weight, the Racing Exhaust System amplifies the unique growl of the engine and improves overall performance. Perfectly finished with four titanium tailpipes, ensuring that it looks as good as it performs, this system is homologated for road use and is the only available exhaust to maintain warranty.

TIRES

In addition to standard tires and sport tires, Pirelli has drawn from a century of experience to provide you with the perfect winter tires for your Lamborghini. Even in cold weather and on wet roads, these special tires will ensure that you get the most out of your car's performance without forgoing safety.

THE IMPORTANCE OF "L" MARKED TIRES.

Pirelli OE tires are the only tires approved and homologated by Lamborghini.

They can be easily recognised by the unique "L" marking on the sidewall.

"L" marked tires are the result of more than 18 months of close technological collaboration and testing between Lamborghini and Pirelli.

Pirelli "L" marked tires, with a Lamborghini dedicated profile and tread design, provide:

- the correct dimensional tolerance between front and rear tires and therefore the proper functioning of the Lamborghini 4-wheel drive transmission (front and rear differentials);
- the car's best performance, excellent drivability and maximum safety both on road and track through the development of the Lamborghini active vehicle dynamics systems on Pirelli tires.

The "L" marked Pirelli tires are the only tires designed with the purpose of enhancing your car's performance while assuring a unique driving experience, both on road and track.
