The Commercial Tire division has been busy over the past year. Our outside sales force has added six sales representatives. We are now able to reach customers who were not aware of the extensive product lines offered by Bergey's.

Our retread plant has expanded their capabilities and product offerings. We have the distinction of being one of the flagship dealers for Continental's new retread line, and a state-of-the-art automated aluminum polishing machine has been installed.

Our division image has been updated with a new logo, website and uniforms for our outside sales force. We aren't done yet – many more good things are heading our way during the coming year!

## PARTS CONFERENCE

Pat Anderson from Bergey's Trenton Truck Center, our Parts Skills Jeopardy Winner

## THE 2013 PARTS CONFERENCE - ACHIEVED NEW HEIGHTS

The Hino Parts Team recently hosted the third Hino Parts Conference at the Monte Carlo Resort in Las Vegas. This year's conference proved to be the biggest and best yet, with over 130 dealer personnel and nearly 50 vendor representatives in attendance!

The event kicked off with a fun-filled welcome reception supported by our vendors who spent the evening engaged in collaborative conversations – from knives to oil seals there was not a topic missed. The highlight of the evening was the Parts Skills Jeopardy event which was fought hard by all 6 contestants but skillfully won by Pat Anderson from Bergey's Truck Center who also became our 2013 Skills Contest Champion! Congratulations Pat!

The Hino parts team was proud to have had several key industry and nationally recognized experts on hand to

help us better understand the economy, our industry, and proven techniques to satisfy our customers. Mark Linton from MacKay & Company provided aftermarket parts sales forecast as well as a 30 year perspective of how the business has grown. Paul Gurizzian from Carlisle & Company identified the key areas of focus critical to satisfying fleet customers and Dave Rothfeld from Creative Sales Management instructed us how to use kaizen methods to identify, captivate and sell parts to new customers.

The Conference was filled with opportunities to learn about the new COE 195h Hybrid truck platform, become savvy on the PDC's most commonly asked questions, and engage with some of the key Hino All-Makes suppliers on successfully using their programs at our dealerships. These training sessions stimulated questions, provided answers, and will ultimately make Hino, our dealerships and you more successful in 2013.

This parts conference far exceeded our past events and for that, we would like to thank you for your participation and support. In addition, the next time you are selling a Meritor brake shoe or a Donaldson filter, remember that your efforts to support these Hino programs is what will define our future parts conferences. We regularly thank our vendors for their contribution, but your purchases and sales efforts will help to define the future success of the Hino Parts Team. We look forward to helping each of you Achieve New Heights in 2013 and Thank You for a great 2012!

# Bergey's is Rooftop Sponsor for Habitat Build in Sellersville

Five volunteers from Bergey's Auto Group were at the Sellersville construction site hanging sheet rock and installing blue board as work continues on the Habitat Bucks' Penn Villa townhomes project. In addition to providing volunteers on the build site, Bergey's Auto Group donated \$10,000 as a Rooftop Sponsor for this project. These townhomes are the first cluster of a 10 home development Habitat Bucks is building. Families for these homes have been selected and are working alongside sponsors and volunteers as they fulfill their 'sweat equity' hours. Dedication of the first cluster of five homes will take place in October, 2013.

"Bergey's is a great friend of Habitat Bucks, and we are grateful for their steadfast and generous support of our work and mission," said Florence Kawoczka, Executive Director. "They are a shining example of partnership, helping us to bring affordable homes to the region." Glenn Bergey, volunteering on the site commented "It's great to be able to help; this gift is from all of us at Bergey's. We are thankful for the work that Habitat Bucks does, and are happy to be a part of it."

Providing lunch on the site that day were members of the Bucks County 4-H Beef Club. Their delicious sloppy joes, salads and yummy brownies were a treat for all the volunteers. Youth under the age of 16 are not allowed to build on the construction site, but they can provide lunch and hold fund-raising events to support the work. This group of 4-H members learned about the Habitat Bucks mission and was given a tour of the build site during the lunch break.

Bergey's partnership with Nationwide is demonstrated through superior workmanship, customer service, and the highest degree of professionalism.
