Go Further

Irresistible. For so many reasons.

Ford Fiesta draws you in and never lets go. With bright hues like Lime Squeeze and Yellow Blaze, it's beyond colorful. Switch songs by voice alone.¹ Make calls without touching your phone!¹ Incredibly helpful. Achieve up to 40 mpg hwy.² So economical. Receive turn-by-turn driving instructions¹ through your speakers. Highly capable. It's such a joy to drive and spend time with that many owners actually "name" their Fiesta. That even makes it relational. Start yours today and go further in a 2013 Fiesta.

Titanium Hatchback. Race Red. Available equipment.

¹Available feature. ²EPA-estimated 29 city/40 hwy/33 combined mpg, Fiesta SE automatic with SFE Package.

Easy.

Approach Fiesta with your Intelligent Access¹ key tucked away in a pocket or purse, and sensors unlock your door. Just touch the handle and you're in (without having to search for any key). Then, press the brake pedal and push the start button. It's on. And you're off. It's that easy in Fiesta.

¹Available feature.

Spirited.

Fiesta delivers 120 horsepower of flat-out fun, plus highway fuel efficiency of up to 40 mpg.¹ Its 1.6L Ti-VCT I-4 engine deserves much of the credit. Twin independent variable camshaft timing (Ti-VCT) adds an extra measure of precision, contributing to fuel efficiency or power output as your input demands. For that extra-connected feel, the PowerShift 6-speed automatic transmission² can provide torque to the wheels 100% of the time during shifts. Because its electric motor operates only when steering assistance is required, electric power-assisted steering contributes to efficiency as well.

Nimble.

To help Fiesta stay sure-footed and firmly planted in the corners, a MacPherson-strut front suspension features specially tuned dampers, spring rates and bushings – along with a 22-mm stabilizer bar. “Turn-in is sharp,” says *Motor Trend*, “and the car is incredibly easy to place precisely where you want it.” Advanced electric power-assisted steering improves steering feel at low speeds and provides precise assist on the highway. In the rear, a twist-beam suspension with specially tuned shocks and spring rates deftly balances responsive handling with the need for a smooth ride. Choose from 15" or 16" wheels! Then go.

Connected.

Contacts.

Through voice-activated Ford SYNC^{®1,2} Fiesta easily connects to your phone. Once paired, the system recognizes your phone and downloads your contacts to support voice calling. Simply touch a button on the leather-wrapped steering wheel¹ and say things like "Call: home" or "Call: Caleb." SYNC also offers 911 Assist[®], and with a SYNC Services account you get business searches, turn-by-turn driving directions, local movie times and more. Activate and personalize yours at ford.com/sync. SYNC. Say the word.

Favorites.

SYNC also allows voice-activated control of your tunes via phone, MP3, USB or iPod[®]. Ask for your favorite artist or playlist and SYNC responds. SYNC AppLink^{™3} lets smartphone users control Pandora[®], iHeartRadio[®], Stitcher Smart Radio[™], Orangatame OpenBeak and other apps by voice too. All this, in addition to a 6-month trial subscription to over 130 channels of unique content from SiriusXM Satellite Radio¹

SYNC can display incoming text messages or read them out loud⁴

Your information is always displayed in an easy-to-read format.

¹Available feature. ²Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. Not all features are compatible with all phones. SYNC Services varies by trim level and model year and may require a subscription. Traffic alerts and turn-by-turn directions available in select markets. Message and data rates may apply. ³SYNC AppLink is available on select models and compatible with select smartphone platforms. Commands may vary by phone and AppLink software. ⁴Not applicable to all phones.

Impressive.

With choices you won't find anywhere else in its class,¹ style abounds inside Fiesta. Leather-trimmed seats² in your choice of Charcoal Black with Cashmere-colored piping, or Plum Red or Cashmere-colored with Charcoal Black piping. If that's not enough, the Race Red or Arctic White Interior Style Packages² carry their color schemes to the instrument panel and door-trim inserts. There's also heated front seats.² And ambient lighting that lets you choose from 7 hues.² All ready to impress. And since style doesn't have to take a back seat to space, Fiesta's 60/40 split rear seat folds down, opening up additional room for your gear. Pass-through access from the trunk increases that usable space even more in the sedan.

Protective.

It's no wonder the 2012 Fiesta earned a "Top Safety Pick" – the highest possible rating from the Insurance Institute for Highway Safety (IIHS) – 2 years in a row (2011–2012).² Underneath its aerodynamic shape, high-strength and ultra-high-strength boron steel form a rigid safety cage. In slippery conditions, AdvanceTrac[®] electronic stability control helps you keep all 4 wheels firmly planted.³ Our Personal Safety System,[™] front-seat side airbags and side-curtain airbags are all standard. Ford SYNC^{®1} with 911 Assist[®] uses your phone to call 911, and can even give the operator an urgent message, in the event of airbag deployment or fuel pump shutoff.⁴

The 7th airbag. A first-in-class⁵ driver's knee airbag, which inflates between the knees and the instrument panel in a crash, gives Fiesta 7 airbags.

Titanium Hatchback. Lime Squeeze Metallic. Black Sport Appearance Package. Available equipment.

¹Available feature. ²2013 model year not yet tested. ³Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions. ⁴The vehicle's electrical system (including the battery), the wireless service provider's signal and a connected mobile phone must all be available and operating for 911 Assist to function properly. These systems may become damaged in a crash. The paired mobile phone must be connected to SYNC, and the 911 Assist feature enabled, in order for 911 to be dialed. ⁵Class is Subcompact Cars vs. 2012 competitors.
