- Paint matches for all OEM wheels
- Simulated lathe lines for machined wheels
- See plan agreement for full details
- **No Deductible**

Consumer Reports magazine identifies road hazards as the number one cause of flat tires and rim/wheel damage in the U.S. In the last three years, American consumers have spent hundreds of millions of dollars out of their own pockets to pay for repairs caused by hazards they encounter every day on the roads and highways of America.

Doesn't it make sense to have a protection plan against the high costs of an expensive and inconvenient wheel, rim or tire repair?
