

Why Do You Need a Vehicle Service Contract When Your Factory Warranty Expires?

Much like health insurance for ourselves, your car needs health insurance to protect against the unexpected. Can you imagine not having health insurance personally? Neither can your Ultimate Driving Machine....

We have several providers here and can customize coverage, term, mileage to fit your needs.

Enrollment in a Vehicle Service Contract allows you to control your cash flow. You get to determine when you will spend money for repairs to your vehicle rather than being unpleasantly surprised.

Any/all policies provide for genuine BMW parts and factory-trained technicians to repair your vehicle to the highest standards.

No Financial Risk.... How?

With a Vehicle Service Contract, your covered repair needs are met in full, subject to the deductible you choose. Even if you never use it, you have had peace of mind in knowing that if something did happen, you are covered. Also, as you can see below, if you sell or trade in your Ultimate Driving Machine, your investment is not wasted.

Benefits of a Vehicle Service Contract:

- 🚗 **Cancellable** – You can cancel coverage at any time and you may be eligible for a pro-rated refund for unused time/miles.
- 🚗 **Transferrable** – You can transfer coverage to a new owner upon a private-party sale within the first 30 days after the sale.
- 🚗 **Financeable** – 12 month payment plan at 0% interest to you, no applications, no credit checks. We simply take 10% down payment at time of enrollment and term out the remaining balance for 12 months and set up an automatic payment from your preferred credit card or from your bank account.
- 🚗 **CASH DISCOUNT** – We discount policy price for payment in full at time of enrollment.
