**3M - Scotchgard Vehicle Protection Package** - Scotchgard is a chemical application that creates a protective layer that helps repel common substances that can stain or blemish vehicles. On the inside, spills and debris from coffee, soft drinks, mud and slush easily wipe off seats and carpets. Scotchgard also reduces exposure to the sun's UV rays, which can cause vinyl dashboard cracks and upholstery discoloration. On the outside, Scotchgard protects against blemishes from rock chips, tree sap, bird droppings and acid rain. Coverage is available with a limited guarantee up to 5 years.

### **Scotchgard™ Paint Protector**

Safeguards your car's exterior finish. No need to wax your car again! Creates a chemical bond that helps protect paint surfaces from bugs, tree sap, bird droppings, etc. Helps protect the paint's finish from premature fading, swirl marks, weathering and can help you get top dollar for your trade-in.

### **Scotchgard™ Fabric Protector**

Helps stop spills from staining your seats. When applied to your fabric seats and trim, spills settle on top of the surface instead of being immediately absorbed. Coffee, catsup and child sip-cup content spills wipe off easily.

### **Scotchgard™ Leather and Vinyl Protector**

Helps protect interior surfaces, dash, trim from the effects of spills and creates an invisible barrier against the damaging effects of ultraviolet light.

### **Scotchgard™ Carpet Protector**

Helps to resist carpet stains from most water and oil based staining agents. Helps prevent mud, dirt, slush and grease from being immediately absorbed into carpet fibers. Makes messes easier to clean.
