

FLEET SERVICE SOLUTIONS

In this fast paced world we live in, isn't it comforting to know that someone you do business with is taking excellent care of your leasing clients?

BMW Toronto's fleet program offers all the value of fleet pricing, coupled with our unmatched level of executive service.

Your leasing client will take delivery of their new BMW in our ultra modern delivery salon (located on the 5th floor). The delivery experience is extraordinary, overlooking the beautiful city skyline and then getting the keys to one of the finest cars in the world. The carefully prepared and hand waxed vehicle will be fueled, licensed and ready to be enjoyed. We have specially trained BMW delivery experts that go over every feature and setting of the vehicle. This delivery process is tailored to the car and to your client so that they become fully familiar with the vehicle before they depart.

Embodying exceptional refinement and quality, a BMW is now more affordable than ever. Included with every new BMW is no charge scheduled maintenance for 4 years or 80,000 km's. BMW Toronto also provides your client a BMW vehicle when they come in for service at no additional charge.

BMW Toronto benefits:

- Largest inventory in Canada
- BMW no charge service loaners
