RE: April Is Distracted Driving Awareness Month

Once again, 2016 data estimates that 40,000 people died in motor vehicle crashes and approximately ten percent of those are due to distracted drivers. It marks a 6% increase over 2015 and a 14% increase over 2014.

Did you know more than 39 states have banned texting while driving? In 2009, Missouri banned drivers 21 years old or younger from texting while driving. Chesterfield, MO recently joined other St. Louis communities like Florissant, Kirkwood and St. Charles in prohibiting drivers of all ages from texting.

Since 2014, drivers on the Illinois side are prohibited from talking on the cell phone unless it's hands free.

As a past, two-time victim of cell phone distracted drivers, I have once again advised all members of the Bommarito Automotive Group to never text while driving and to use their cell phones only in an emergency while driving.

The Bommarito Automotive Group is on record, for some time, campaigning against the use of cell phones and text messaging and have alerted our community through news print and tv commercials, hoping that it will save even one life.

What's more precious than a life? Think about this, the life you save could be yours. Don't forget to be a good passenger and help minimize distraction for drivers. If you are experiencing something unsafe, immediately speak up and offer assistance.

Now is the time to change that horrible, growing statistic of car accidents and fatalities. It's a fact that our manufacturers are now building the safest cars in automotive history, and right now I am making them affordable. You will now find some 2017s with up to 27% off MSRP at some Bommarito locations. Go to bommarito.com for more info.

We're in your neighborhood.

Where price sells cars.

Bommarito for all your Sales-Service-Parts and Collision Repair

Sincerely,

Frank J. Bommarito
