With Sentra®, you get excellent fuel economy in a roomy, comfortable car that's lots of fun to drive. We got there by developing everything from exterior aerodynamics that whisper through the wind to a powerful, 1.8-litre engine teamed with a virtually gearless CVT transmission that helps maximize efficiency and performance. NISSAN SAFETY SHIELD® PHILOSOPHY

INNOVATION THAT LOOKS OUT FOR YOU.

What if you had the confidence you needed for every part of your drive? The Nissan Safety Shield® is a comprehensive approach to safety that guides the engineering and development of every vehicle we make.

MONITOR

Smart technologies help monitor your vehicle's systems and surroundings. Like a rearview camera that helps you see something behind you, or a system® that helps ensure you're travelling on properly inflated tires.

Tire Pressure Monitoring System with Available Easy-Fill Tire Alert^{1,2}

Lets you know when a tire is low. And Easy-Fill Tire Alert takes the guesswork out of filling your tires, with a beep of the horn when you've reached the correct pressure.

Available RearView Monitor³ Helps you see what's directly behind you when you engage Reverse.

RESPOND

When you need to hit the brakes hard or suddenly manoeuvre around an obstacle, these standard technologies help you respond to a potentially harmful situation.

Vehicle Dynamic Control helps you maintain your steered path.⁴

Traction Control System helps reduce wheelspin in low-traction situations.

Anti-lock Braking System helps you maintain steering control around obstacles while braking heavily.

Electronic Brake force Distribution sends extra force to the rear brakes when you have additional weight of passengers or cargo in the back.

Brake Assist helps apply maximum braking force if it detects hard braking and senses you are in an emergency situation.

PROTECT

When a collision is unavoidable, Nissan's Zone Body construction helps absorb the impact while the advanced seat belt and airbag systems help protect passengers.
