

The 2014 Sienna, the new style of versatility.

Sienna is the perfect coming together of form and function. A sleek and stylish exterior that's sure to turn heads is the perfect cover for an elegant interior that seats up to 8 passengers in total refined comfort.

From the trip around the corner to the trip around the country, Sienna makes every ride an enjoyable one. With loads of standard features to keep you and the kids entertained, you'll find yourself wishing even the shortest trips were a bit longer. And since Sienna is the only minivan in Canada that comes with available AWD, you'll have peace of mind knowing that you can focus on the journey and not the road conditions.

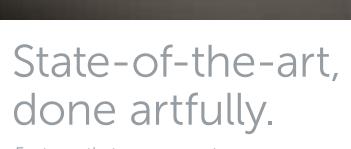

When it comes to dependability, Sienna doesn't fall short. It not only comes standard with Toyota's Star Safety SystemTM, it's also backed by the fact that 80% of Toyotas sold in Canada in the last 20 years are still on the road today.*

Those are just a few reasons why you'll feel more confident than ever driving the 2014 Sienna.

Features that are as easy to use as they are to look at.

The 2014 Sienna is packed with features that will make your drive more enjoyable, no matter how far you're planning on going. It's not only stylish, but offers a luxurious ride

and comfortable seating for all passengers.

And with the latest technology within everyone's reach, you'll never have to worry about keeping anyone occupied.

DUAL-VIEW ENTERTAINMENT SYSTEM⁵ The available Dual-View Entertainment

System⁵ can be used as a single or split-screen and includes headphone jacks for added peace and quiet.

PANORAMA REAR VIEW CAMERA

System.4

COMPLETE COMFORT
The interior wood accents of the Sienna XLE with Limited
Package signal you're in the lap of luxury. The 60/60 overlapping design of the dash reinforces that feeling, allowing for easy access to the centre console's switches

and controls, as well as the

available DVD Based Navigation

A 180-degree wide angle or regular view of the area behind your vehicle can be displayed on the available Navigation System⁴ screen with the Panorama Rear View Camera.

Space and versatility come standard and so does never before seen comfort and design. With available woodgrain-style accents or sport instrumentation and carbon fibre-style trim, you'll impress anyone who's along for the ride. Second row seating features dual armrests that adjust, map lamps that swivel and climate controls right at your fingertips. And with a 585 mm (23-inch) sliding range for Sienna's second-row seats, passengers will be able to easily enter and exit the vehicle through its dual sliding side doors.

STYLISH INTERIOR

The sporty SE features exclusive seat upholstery, chrome accents and a piano-black finish.

POWER REAR DOOR

When your hands are full, the available power rear door opens and closes via the remote keyless entry or available Smart Key fob. It even features a one second jam protection delay between the door reaching the bottom position and fully closing.

SLIDING SECOND CONSOLE

To sync up with the long sliding range of the second-row seats, Sienna XLE features a centre console that expands and slides rearward.

STOWABLE CENTRE PASSENGER SEAT

On 8-passenger models, the versatile centre seat in the second-row folds upright to form a comfortable seat. Or it can be removed and stored in its storage compartment, leaving captain's chairs and two additional cupholders.

It moves with you.

It's as versatile as you are.

Every day brings something new. That's why you need a vehicle specifically designed to handle your daily needs. Available in 7 or 8-seat passenger models, the seats can be easily configured in a number of ways to suit cargo

of any size and shape. And with an incredibly spacious interior, every passenger will feel like their seat is the best in the house. Whether it's work or play, Sienna is ready to take it on.

SECOND-ROW TIP-UP LONG SLIDE

The second-row seat cushions tip-up, allowing the entire row to slide further forward to provide extra cargo space and easy rear-passenger entry.

(Not available with lounge seating)

CARGO SPACE

Depending on your seat configuration, the cargo volume can be adjusted from 1110 litres (39 cu.ft.) all the way up to 4250 litres (150 cu.ft.). The second-row middle seat can also be folded up and stored in the cargo area.

DUAL POWER SLIDING SIDE DOORS

The available dual power sliding side doors open wider, so it's easier to step in and out – or load and unload cargo.

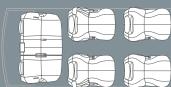

SEAT CONFIGURATION

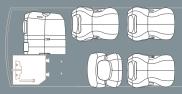

Sienna's seating can be arranged for maximum occupancy, either 8 passengers or 7 passengers, depending on the model – and for maximum cargo, or variations of the two.

8-Passenger Seati

7-Passenger Seati

7-Passenger Seating with Tipand Long-Slide Second Row

Peace of mind.

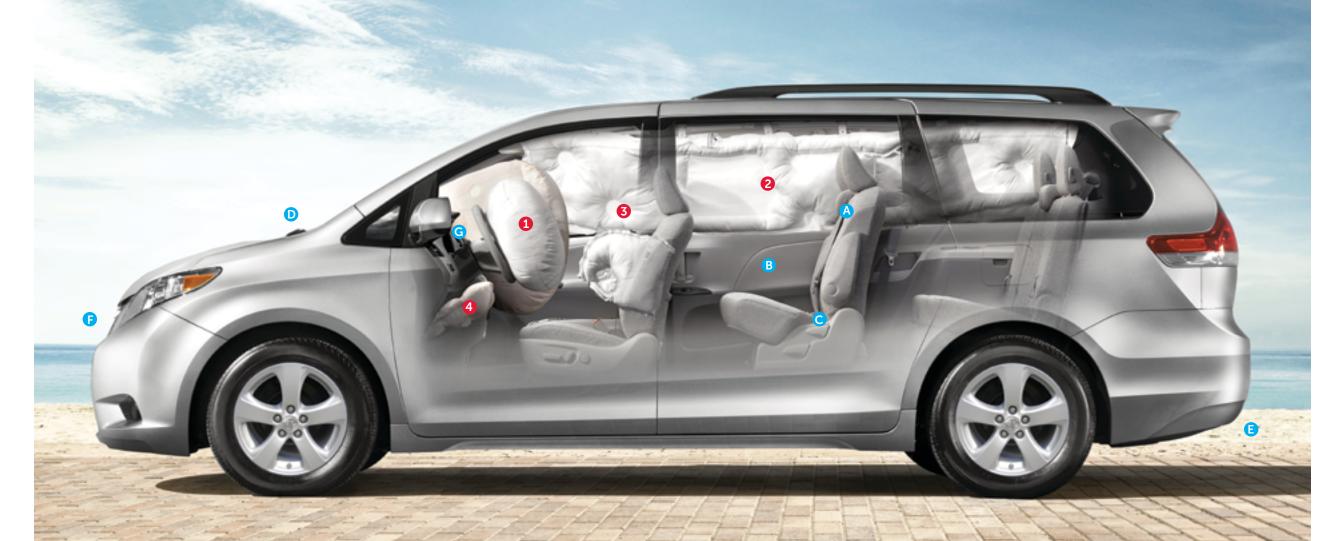

Safety features like no other.

With a wider body stance to give you even greater confidence and control in corners, the Sienna performs on any road. And with seven advanced airbags, electric power steering and a list of standard safety features, you and your passengers will always feel secure.

SUPPLEMENTAL RESTRAINT SYSTEM (SRS)¹ Sienna comes standard with a comprehensive airbag system that includes:

- (1) Dual-stage driver and front passenger airbags.1
- (2) Front and rear head/side curtain airbags.¹
- (3) Front seat-mounted side airbags.¹
- (4) Driver's knee airbag.1

A. SEATBELTS

Sienna features a 3-point Emergency Locking Retractor seatbelt for the driver's seat and Automatic/Emergency Locking Retractors for all passenger belts.

B. SIDE-IMPACT DOOR BEAMS

Within each of Sienna's four doors are steel beams designed to help protect the occupants in the event of a side-impact collision.

C. LATCH

Short for Lower Anchors and Tethers for Children, LATCH includes lower anchors on outboard second-row seats and the middle seat in the third row.

D. RAIN-SENSING WIPERS

The available rain-sensing wipers use sensors to detect when it's raining and the amount of rainfall, then adjusts the wiper interval and speed automatically so that you can concentrate on the road, not the windshield.

E. REAR CLEARANCE AND BACKUP SONAR To assist during parking manoeuvres, the available rear clearance sonar helps you

an additional front sonar.

The available HID headlamps use less

considerably more illumination than

power, last significantly longer and provide

HEADLAMPS

halogen lights.

The available Blind Spot Monitor (BSM)9 gauge the area in a parking space. For added convenience, the Limited Package offers radar technology to help you identify F. HIGH-INTENSITY DISCHARGE (HID)

G. AVAILABLE BLIND SPOT MONITOR9 WITH REAR CROSS-TRAFFIC ALERT¹⁰

with Rear Cross-Traffic Alert (RCTA)¹⁰ uses vehicles that may not be visible when changing lanes or backing out of a parking space. When a vehicle is detected, a warning indicator illuminates on the appropriate side-view mirror.

STAR SAFETY SYSTEM™

2014 Sienna comes standard with the Star Safety System™. This integration of active safety features is designed to protect occupants by helping drivers avoid accidents in the first place.

VSC VEHICLE STABILITY CONTROL

Helps prevent slips and loss of traction by reducing engine power and applying the brake force to the wheels that need it.6

TRAC TRACTION CONTROL

Helps maintain traction on wet, icy, loose or uneven surfaces by applying brake force to the spinning wheel(s).

ABS ANTI-LOCK BRAKE SYSTEM

Prevents brakes from locking up by "pulsing" brake pressure to each wheel to help you stay in control in emergency braking situations.

ELECTRONIC BRAKE-FORCE DISTRIBUTION

Redistributes brake force to help keep the rear wheels from locking up during sudden braking situations.

BA BRAKE ASSIST

Detects sudden or "panic" braking and adds the full pressure needed to help prevent a collision.7

SST SMART STOP TECHNOLOGY

Smart Stop Technology is designed to reduce engine power when the brake is firmly applied helping to bring the vehicle to a stop, even if the accelerator pedal is fully depressed.8

Toyota was the first full-line manufacturer to make all of the elements of the Star Safety System™ standard on every new vehicle. Visit toyota.ca for more details.

Own the road, in any weather.

All-Wheel Drive makes every drive easy.

coupling positioned at the front of the rear amount of torque to the front and rear

MUDDY SURFACE

If the driver applies excessive pressure to the accelerator, Traction Control helps prevent wheel slippage on all kinds of surfaces.

GRAVEL SURFACE

No matter the surface of the road. standard Electronic Brake-Force Distribution optimizes the amount of brake force sent to each wheel. Sensors read the vehicle load in Sienna and send the appropriate brake force to each wheel.

WET SURFACE The computer-controlled Anti-Lock

Brake System modulates the brake pressure when braking hard or when braking on a slippery surface, helping to avoid wheel lockup and maintain steering control.

SLUSHY SURFACE

Control⁶ helps prevent the vehicle from slipping sideways as a result of losing traction while driving, cornering or stopping.

Sienna XLE with available accessory roof 10 rack cross bars shown in Salsa Red Pearl.

Supplemental Restraint System in a particular vehicle, please see the Owner's Manual or contact your local Toyota Dealer. (2) Fuel efficiency estimates were determined using approved Government of Canada Test Methods. Actual fuel consumption will vary based on driving habits and other factors. (3) Toyota tests certain Bluetooth® capable phones for compatibility with Toyota vehicles. Note that the recommendation of Toyota is not a warranty of the performance for any phone and that some problems may occur with any type of handset based on the phone software version or the service coverage available in your area. Some vehicles equipped with Bluetooth® technology are available with bilingual compatibility. Please see your Toyota Dealer for details. (4) The Toyota Navigation System is designed to assist in locating an address or point of interest. Discrepancies may be encountered between the system and your actual location. Rely on your common sense to decide whether or not to follow a specified route. Detailed coverage is not available for every city or roadway. Optional periodic geographic updates are available at an additional cost. The Navigational systems in some vehicles are available with bilingual capability. Please see your Navigation System Owner's Manual and your Toyota Dealer for further details. (5) A single disc DVD player is standard on vehicles equipped with the Dual-View Entertainment System. A separate DVD player or game system utilizing the centre console's video/audio inputs is required in order to use the split-screen function. (6) Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. Please see your Owner's Manual for further details. (7) Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. (8) Smart Stop Technology operates only in the event of certain simultaneous brake and gas pedal applications. When engaged, the system will reduce engine power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions, driver input can all impact stopping distance. Smart Stop Technology is not a substitute for safe and attentive driving and does not guarantee instant stopping. Please see your Owner's Manual for further details. (9) Do not rely exclusively on the Blind Spot Monitor System to determine if a lane change is safe. Always look over your shoulder and use your turn signal before changing lanes. There are several limitations to the function, detection, range and clarity of the monitor. For a complete list of limitations and directions regarding use of the monitor system, please see your Owner's Manual. (10) Do not rely exclusively on the Rear Cross-Traffic Alert System. There are limitations to the function, detection and range of the system. You should also look around outside your vehicle, over your shoulder and use your mirrors to confirm rearward clearance. For a complete list of limitations and directions, please see your Owner's Manual.

Committed to Canadians, today and tomorrow.

Being a leader in the automotive industry does not simply start and finish with making great vehicles. It also means being a leader in the community. Toyota Canada and its dealerships across the country fund non-profit programs that work to make a difference for Canadians through direct community involvement.

As part of our ongoing commitment to the environment and education, we established the Toyota Evergreen Learning Grounds program. This program is designed to transform Canadian school grounds into natural learning environments so that students can have a healthy place to play, learn and develop a genuine respect for nature. We also support Special Olympics Canada, which helps athletes reach their full potential through participation in events from a local to a national level.

Visit us at **toyota.ca** to learn more about our programs and commitment to build a better tomorrow for Canadian communities – today.
