

Quality, Flexibility & Reliability

THE FORD TRANSIT.

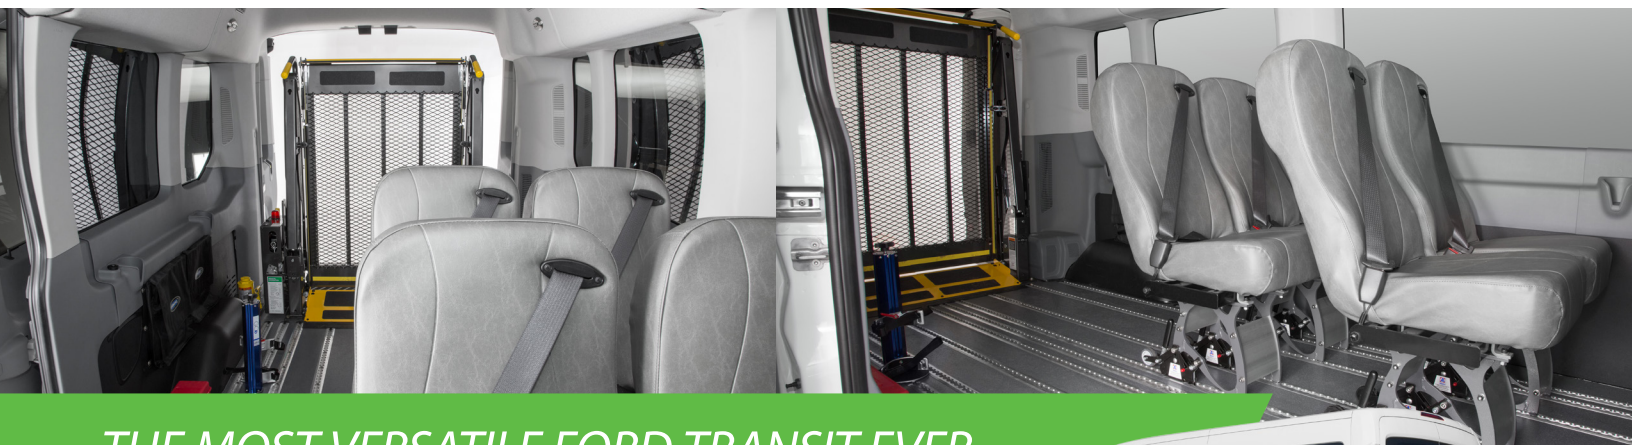

Available in three lengths and two roof heights, it comes with the SmartFloor™ seating system, which gives you over 1,000 seating configurations. It means you can do more with your vehicle – from having a wheelchair transport in the morning to a transportation shuttle in the afternoon, and anything in between.

It's what you'd expect from MobilityWorks® Commercial, the leading provider of ambulettes, wheelchair accessible vans, minivans and shuttles in America. You'll have peace of mind knowing you have the best and safest vehicles possible to transport your passengers.

350: HD Transporter 15 Passenger

SMARTFLOOR™ Easy • Quick • Safe Flexible

The exclusive SmartFloor system allows for quick and easy movement of seats and wheelchair positions anywhere in the van for maximum flexibility. The patented wheeled seat bases let you move seats in a matter of seconds without lifting. Just move to another spot to make room for wheelchairs, or roll the seats to the lift for removal.

- Floor plan can be changed as you need it, from driver and 14 seats to driver and 4 passengers plus 4 wheelchairs
- Over 1,000 seating configurations
- Seats are comfortable and supportive
- ADA and FMVSS compliant
