About
PERIODIC MAINTENANCE

Chrysler's longstanding reputation of reliability and trouble free operation is a result of Chrysler owner's and our service department's commitment to preventative maintenance. Like all vehicles, a variety of your Chrysler's components must be regularly monitored and serviced. These simple and inexpensive procedures will ensure years of trouble-free driving.

Components such as filters, plugs, belts, brakes, and hoses are all subject to wear. Regular inspection and replacement, as necessary, will help safeguard your Chrysler against costly damage to major mechanical systems such as your engine and transmission. Similarly, simple adjustments like a front-end alignment can save you hundreds of dollars in needless tire wear.

Neglecting your vehicle's special service requirements is a very risky gamble. So, please, use this Maintenance Guide to plan the future of your vehicle's needs.

Sincerely,
The Entire Service And Parts Team
At Buchanan autopark Chrysler, Dodge, Jeep

MULTI-POINT INSPECTION

Factory

- Ball joints and dust covers
- Brake lines and hoses
- Brake linings/drums and brake pads/disc
- Differential oil
- Drive belts (non ribbed)
- Fuel lines and connectors, fuel tank band and fuel tank vapor vent system hoses
- Drive shaft boots
- Air filter
- Exhaust pipes and mountings
- Fuel tank cap gasket
- Steering gear box
- Steering linkage
- Transmission fluid or oil

Additional items for special operating conditions:

- Inspect nuts and bolts on body and chassis

Dealer

- Air filter
- Coolant system & hoses
- Shock absorbers & suspension
- PCV if applicable
- Muffler
- Brake master cylinder
- Clutch master cylinder
- Power steering
- Transfer case (4 wheel only)
- Operation of all lights

Changing the oil and filter is the most important service your Chrysler needs. The factory recommends changing your oil every 3,000 miles or at least 7,500 miles depending on your circumstances. Refer to your owner's manual for more details.

- Perform Multi-Point Inspection (Recommended)
- Reset Service Reminder Light (If Applicable)
- Install Service Reminder Sticker

3,000 MILES SERVICE / 3 MONTHS

9,000/21,000/27,000/33,000/39,000/51,000
57,000/63,000/69,000

- Replace Engine Oil And Filter
- Check and Top Off All Under Hood Fluid Levels
- Check For Outstanding Factory Recalls
- Reset maintenance reminder

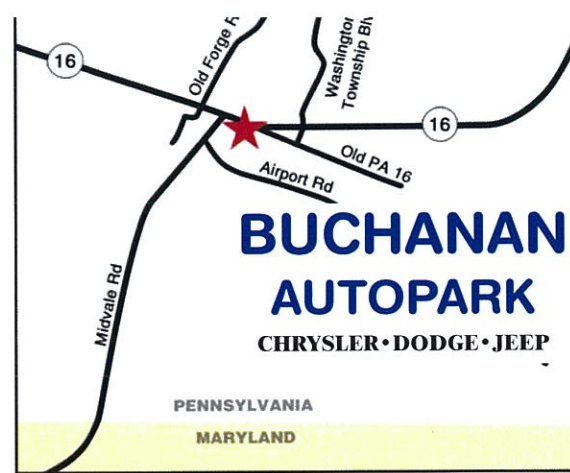

Everyday Low Price \$34.95 up to 5 quarts

IMPORTANT NOTE FROM THE FACTORY ENGINEERS

Thank you for buying a Chrysler Corporation Vehicle. We want your ownership of this vehicle to be a trouble free and pleasurable experience. To help you to have the best driving experience possible, we identified the specific Vehicle Maintenance Services that are required to keep your vehicle operating properly and safely. For the ultimate in vehicle service, we suggest that these maintenance items be performed at your selling Chrysler Dealership. The technicians at your dealership know your vehicle best, and have access to factory training and information, and specially designed electronic and mechanical tools that can help prevent future costly repairs.

IMPORTANT NOTE REGARDING YOUR MAINTENANCE AND WARRANTY COVERAGE

If you do not meet the minimum maintenance requirements for your vehicle, your vehicle could need costly and inconvenient repairs. Your New Vehicle Limited Warranty requires that you perform the scheduled maintenance at the times or mileage's shown in your Owner's Manual. If you do not do so, and your vehicle fails as a result of your failure to maintain your vehicle properly, repairs of the failure may not be covered under your warranty. Chrysler Corporation recommends that you use this logbook to keep a written record of maintenance performed on your vehicle for up to 100,000 miles, either by routinely having your dealership or other qualified technician record the service performed in your Maintenance Logbook, or by keeping receipts or other documentation of work you've had done on your vehicle in your Maintenance Logbook. Should you sell your vehicle, this book can be used to show that regular and proper maintenance was performed on your vehicle. This may make your vehicle more appealing and valuable at resale time.
