## RENTAL CARS

Rental cars are available through local vendors.

## EARLY BIRD/AFTER HOURS DROP OFF

As a courtesy to our customers, an early bird/after hours drop off is located next to the Service door.

## ABOUT THIS GUIDE

This Maintenance Guide was specifically prepared to assist you with the recommended servicing of your new automobile. You should note that this maintenance schedule is more detailed and calls for more frequent servicing than your warranty & maintenance booklet specifies. We have found this schedule to be more suitable for the wide range of climatic and driving conditions that our customers encounter in the New England area.

Please present this booklet whenever you bring your vehicle in for regular maintenance or for repairs. Your maintenance schedule will help us to expedite the processing of your repair order and will allow us to validate the book with our dealer stamp as servicing is done. Accurate record keeping and regular maintenance will help to increase the future trade value of your vehicle and insure you many miles of trouble-free driving.

## Dear Valued Customer,

Welcome to Burlington Hyundai Service and Parts Department.

This guide is intended to provide you with a clear, concise schedule for maintaining your Hyundai vehicle. Following these recommendations will ensure that your vehicle stays in optimum condition and that your ownership experience is a pleasurable one.

It is our goal to deliver quality care at its very best. We install only Genuine Hyundai Parts using state-of-the-art equipment. We promise accurate diagnosis and repair. Our dedicated, highly-skilled Advisors and Technicians are committed to providing informed, accurate answers to your questions.

We want to achieve your complete satisfaction by providing the most convenient, efficient and pleasurable service you have ever experienced. It is our mission to make you a customer for life.

Thank you again for choosing Burlington Hyundai. We look forward to meeting all of your Hyundai ownership needs.

Respectfully,

**William S. Hunter**  
Service Director

**Eric Sansone**  
Service Manager

**Ed Kilbride**  
Parts Manager

## ADDITIONAL RECOMMENDED SERVICES

### BATTERY SERVICE

As a battery heats and cools it discharges gases that cause corrosion on the connections and can cause the battery to not charge completely. This can lead to a no-start because of the corrosion build up and poor electrical connection.

**The Service:** Battery terminals should be cleaned and checked every 2 years. The Battery Service cleans the connections and anti-corrosion pads are installed on the terminals to prevent future corrosion. Battery protectant is applied to the terminals to help resist corrosion.

### COOLING SYSTEM SERVICE

The cooling system is one of the most important systems in today's hi-tech engines. Scale and sludge reduce heat transfer from the radiator causing the engine to run hotter which can lead to premature break down of the engine oil as well as the many other fluids that are cooled. If it is not operating properly, fluid can break down from heat and cause damage. Recently a manufacturer of cooling system components found after inspection of over 10,000 new water pumps returned under warranty for failure, 98% failed because the cooling system was not flushed of contaminants and abrasives when the new pump was installed. This can also be caused by the addition of incorrect fluids, and high pH levels, causing pump vane erosion resulting in failure.

**The Service:** A cleaner is added to the system to dissolve sludge and scale so it can be removed before fresh fluid is added. Then an additive is blended with the new coolant to extend coolant life and protect the entire cooling system.

### TRANSMISSION SERVICE

Other than the engine, the transmission is the most expensive component in a drive train. Although many transmission fluids are rated for up to 100k miles, inspection of the fluid is needed. Fluid that looks contaminated or smells burnt should be changed. Vehicle towing or carrying heavy loads requires more frequent service to prevent trouble. Many transmissions used in heavy duty applications such as the GM 2500 HD suggests the first fluid change at 22,500 miles. Review your brand's requirements and recommendations.

**The Service:** Cleaner is added to the transmission to remove varnish and oxidation from internal components. Then the contaminated fluid is removed and a fresh fluid is added to protect the transmission and extend component life. An additional additive supplement is added to reduce friction and wear.

- 4-Wheel Alignment
- 4-Wheel Balance
- Power Steering Service
- Brake System Flush
- Brake Service
- Engine Oil Flush Service
- Air Conditioning Service
- Cabin Air Filter Service
- Headlight Restoration

# HYUNDAI PARTS AND ACCESSORIES

So far, your Hyundai has been perfect. Why stop now?

**Hyundai Parts and Accessories** deliver the fit, reliability and performance you want. They also are covered by your factory warranty, giving you peace of mind to go along with great looks.

Does your Hyundai vehicle deserve anything less?

**Hyundai Parts and Accessories** will enhance the experience of owning your Hyundai. A visit to the **Parts and Accessories Department** is well worth it.

Perhaps there is a particular accessory that will make your Hyundai vehicle more personalized. Or, you can purchase an office item that will serve as a reminder of the satisfaction and enjoyment that driving your Hyundai brings.

How about a gift for that special Hyundai owner in your life?

All of the products in our **Parts and Accessories Department** are of the finest quality, just as Hyundai owners have come to expect.

So, why not stop by today?

 **HYUNDAI**  
Assurance  
CAR CARE

# HYUNDAI SERVICE LOANER CARS

We offer loaner or rental vehicles to our service customers.

Extended test drives available!

Ask service advisor for details.

## NOTICE: THE RECOMMENDATIONS IN THIS MAINTENANCE GUIDE EXCEED THE MANUFACTURER'S REQUIREMENTS.

We make these suggestions because of the general driving conditions that exist in the New England area and in the belief that your Hyundai and you will benefit from taking extra steps in maintenance. However, should you desire to only meet the basic manufacturer's maintenance requirements as set forth in the MANUFACTURER'S WARRANTY & MAINTENANCE BOOKLET, be assured your wishes will be adhered to and your warranties will remain valid. If you have any questions concerning the suggested service program related to your Hyundai, please do not hesitate to contact us. Burlington Hyundai reserves the right to change or discontinue, at anytime, parts and/or services contained in this Maintenance Guide without notice.

**Examples of severe driving conditions:** Repeated short distance driving; Driving on rough and/or muddy roads; Driving in dusty conditions; Driving in extremely cold weather; Driving in areas where road salts and other corrosive materials are used; Living in coastal areas; Repeated trailer towing.
