

### IMPORTANT EV-RELATED WEBSITES

To make your research into the EV world a little easier, we have created a short list of important websites, many of which also have mobile apps. Please use the QR code and save to your mobile device's home screen for quick reference.

**California Clean Fuel Reward:** Check program requirements, eligible vehicles, incentive amounts, participating electric utilities, and much more.

**Eligible Vehicles:** Battery Electric (BEV) and Plug-in Hybrid (PHEV) light-duty vehicles with a battery capacity of 5 kWh or greater are eligible for the California Clean Fuel Reward. Vehicles must be purchased from a participating California Clean Fuel Reward retailer and registered in the State of California. Check here for eligible vehicles and reward amounts.

**Participating Electric Utilities:** Electric utilities can be a great resource after the purchase of an EV. Help customers save money through special EV rebates, charger equipment discounts, and time-of-day rates for EV charging.

**Chargeway:** Chargeway makes electric "fuel" easy to enjoy, using colors and numbers so every driver can more easily find their plug type and desired power levels.

**ChargePoint:** The ChargePoint network is open to all plug-in electric vehicle drivers and provides authentication, management, and real-time control for the networked electric vehicle charging stations.

**DriveClean.ca.gov:** Find reliable resources from reputable organizations to learn about available incentives, clean vehicles, charging options, and other information to help you drive clean.

**PlugStar:** Everything you need to know to drive electric. Links to available incentives, EV dealers, shopping tools, and charging information.

**PlugShare:** Find EV charging stations with PlugShare's map of over 440,000 electric vehicle charging stations. Charging tips, reviews, and photos from the EV community.

**Electrify America:** The leader in electric vehicle charging, Electrify America offers the most public fast charging stations in the U.S., plus home and commercial options.

**EVgo:** Charge in minutes, not hours with EVgo, the nation's largest public fast charging network.
