

AUTO CRANE

In 1958, Auto Crane put a small crane in a car trunk, headed out to the oilfields of Oklahoma, and a new industry was born! Today, almost 50 years later, Auto Crane equipment remains universally recognized for its high standard of innovation, quality, safety and reliability. They have maintained their

leadership role by focusing on what they do best: designing and manufacturing the industry's finest vehicle mounted cranes, crane bodies and accessories, all of which is backed by the industry's original 2-year warranty. Their extensive line of electric and hydraulic telescoping cranes offers

lifting capacities from 2,000 lbs. to 14,000 lbs. So take a good look at the cranes that started it all! Then call us and let us integrate the ideal crane-and-body package for you! Innovation, engineering excellence and dedicated customer support – Auto Crane has it all!
