

†About Mopar

First coined in the 1920s to describe the parts and services arm of Chrysler Corporation, Mopar (short for motor parts) soon became synonymous with automotive performance and racing prowess. Mopar automotive parts are sought after by car enthusiasts around the globe and are used exclusively for all Chrysler vehicle repairs.

Quality you can afford

This brochure is for your general information. Complete details are provided in the Terms and Conditions of the plans. Chrysler Canada Inc. reserves the right to change or discontinue plans or to change pricing without notice and without incurring obligation.

© Mopar is a registered trademark of Chrysler Group LLC, used under license.

Your new, pre-owned vehicle didn't just leave the factory floor, but there's no reason it can't look, feel and drive that way. After all, it is your new car. It deserves to get the most coverage it can, so you can drive it safely and comfortably for the duration of your ownership period.

An extended warranty can help you maintain your new ride's longevity and protect you from the sudden cost of repairs.

Chrysler Service Contracts keep us connected to you, our loyal customer, as we strive to build your next vehicle even better.

Quality Pre-Owned Coverage for Chrysler and Non-Chrysler Vehicles

Your pre-owned vehicle has passed a mechanical inspection and is eligible for Quality Pre-Owned Vehicle extended warranties available with a Chrysler Service Contract. The cost of a service contract can be added to your regular car payments and any covered maintenance and repair work features genuine Mopar[®] parts. Plus, your warranty is fully transferable should you ever sell your vehicle.

Today's vehicles have more technology than ever. Who better to service your vehicle than an authorized retailer of the company that built it.

Repair Cost Comparison

Historically, our automotive repair costs have increased each year. This chart projects what repairs might cost without a Chrysler Service Contract.

COMPONENT	2014	2017	2020
Engine Overhaul or Replacement	\$7,650	\$8,359	\$9,134
Transmission Overhaul or Replacement	\$8,127	\$8,881	\$9,705
Air Conditioner (Compressor)	\$907	\$991	\$1,083
Body Control Module	\$608	\$664	\$726
Power Window Motor	\$262	\$286	\$313

Prices may vary. The cost of a single repair could be more than the price of your Chrysler Certified Pre-Owned Service Contract. The cost for 2017 and 2020 was derived by adding a CPI increase of 3% to each year.

Non-Powertrain and Powertrain Component Coverage

Chrysler Quality Pre-Owned Service Contracts feature the following Non-Powertrain and Powertrain component coverage:

- Engine
- Transmission
- Front-wheel drive
- Rear-wheel drive
- Four-wheel drive (4x4)
- All-wheel drive (AWD)
- Electrical
- Anti-lock brakes (ABS)
- Steering
- Engine cooling and fuel
- Air conditioning and heating
- Front and rear suspension

Contract Coverage Plans

Term/km	10,000	20,000	40,000	60,000	80,000	100,000

					Q85	
5 years						Q60
						Q90

Pricing is dependent on length of coverage and number of kilometres on the vehicle. Speak with your Chrysler Business Manager for details regarding plan pricing. Some exclusions may apply – see Terms and Conditions.

Eligible Vehicles

Quality Pre-Owned vehicles must meet the following criteria:

- Have no more than 200,000 kilometres and be less than 8 years of age measured from the original in-service date
- Used for personal transportation
- Inspected and found to be mechanically fit and roadworthy by the selling Chrysler retailer
- Have not been declared a total loss by an insurance company
- Have not been modified from Chrysler or original manufacturer's specifications
