

# Lube, Oil & Filter Change w/Multi-Point Inspection

Every 7,000 kms

If your vehicle is equipped with an automatic oil change indicator system, it may illuminate as early as 5,600 kms. Severe-Duty conditions such as hot or cold ambient temperatures, towing or dusty conditions may require Lube, Oil & Filter changes every 6,500 kms.

**For most vehicles, we recommend a Lube, Oil & Filter Change every 7,000 kms.**

Speak with your Service Advisor to determine which interval works best for you.
