Tequipment 911

Accessories for the 911 models

Tequipment

Ultimately, it's all about one part.

A part of your dreams.

The 911 is an icon. A genuine sports car. Since the very beginning, the 911 has been synonymous with design, driving pleasure and sportiness. With precision and timelessness. It embodies agility and dynamics like no other. It is a Porsche, after all. There simply is no substitute.

Just like the Porsche Tequipment range of accessories. Refined to the very last detail. On the surface they may appear to be just individual accessories, but they are in fact part of a grander harmonious concept. They give the 911 an even sportier touch, even more character. In short, they make the difference. The difference between any 911 and your 911.

Each component not only has to be visually appealing—it also has to be technically compatible.

This is why all the model-specific products in the Tequipment range have been developed, tested and formulated with the complete vehicle in mind, and by the same Porsche engineers and designers who made your car.

All this takes place primarily at the Porsche Development Center in Weissach, Germany—from design through to launch. Every product undergoes exhaustive testing throughout its development to ensure optimal performance and durability. Also to make sure it meets stringent Porsche quality guidelines and standards.

Among the highlights of the Tequipment range is the Michelin® Pilot® Sport Cup tire, available in conjunction with selected wheels. Developed in collaboration with Porsche engineers, it has been comprehensively tested on the

911 models. Special features include a multi-component tread, offering outstanding performance under varying loads. The unique outer shoulder pattern enables higher cornering speeds compared with conventional road-approved tires. As with all performance tires, the low profile may be more susceptible to hydroplaning.

As we've already said, there is no substitute for Porsche Tequipment. Just like a 911—personalized the way you want it.

Whichever Tequipment products you choose, one thing remains unchanged: your original Porsche vehicle warranty.

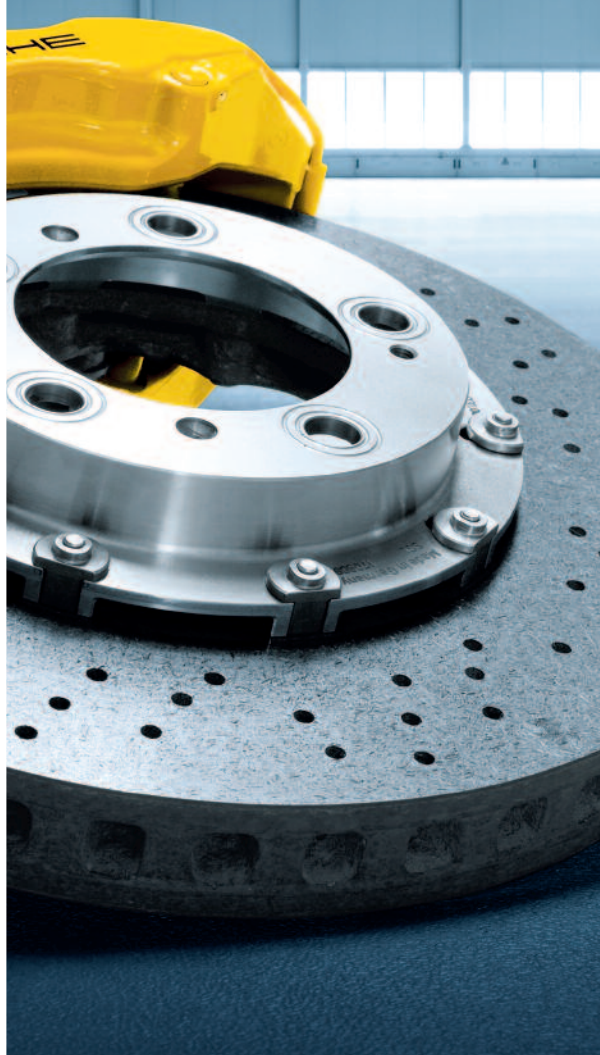

You can find out more about Porsche Tequipment at **[porscheusa.com](https://www.porscheusa.com)**.

Vehicle testing at the Porsche proving ground in Weissach

Exterior

Individuality and style.

Follow the ideal line. On the racetrack, on the road, or in design. This has been the Porsche philosophy ever since the company was founded, and it is best exemplified by the 911 with its unique styling and silhouette. Create a 911 with your

individual style, with options we have created. For example, the air-intake grilles in Aluminum-Look from Porsche Tequipment. Styled with passion and precision—just like your 911.

Side strips with model designation

Side strips with model designation

The first Porsche 911 Carrera to bear decorative side lettering was the legendary 911 Carrera RS 2.7 in 1972. This original lettering now adorns the flanks of the 911 GT3 RS models. Why not be part of the legend?

Wheels

Performance and power with control

Design. Precision. Performance. Safety. These are all attributes of the 911, and the wheel and tire options from Porsche Tequipment are no exception. They add to the car's appeal in terms of looks, dynamics and safety.

19-inch Carrera Sport wheels with summer performance or Sport tires

This race-inspired 10-spoke alloy wheel has a lightweight design for laser-true tracking on straightaways, and nimble cornering. The open-spoke design enables exceptional brake cooling, while its wide dimensions at both front and rear (8.5 and

11.5 inches, respectively) offer a generous contact patch for sure-footed traction. The spokes feature a GT Silver Metallic finish with high-gloss polished outer rims.

19-inch Turbo wheels with summer performance, Sport or winter tires

A forged aluminum-alloy design optimizes this lightweight 5-spoke

19-inch Carrera Sport wheels with summer performance or sport tires

wheel's strength and weight. The distinctive two-tone paint finish further accentuates this modern, performance-oriented styling.

19-inch Turbo wheels with summer tires

19-inch SportDesign wheels with summer tires

**19-inch SportDesign wheels
with summer performance tires**

Sporting a multispoke design that recalls the lattice-effect wheels of our 956 Le Mans prototypes, this 19-inch wheel celebrates the beauty of wire wheels used in the golden age of sports-car racing. Like every SportDesign wheel, it's rendered in modern materials and sizes.

**19-inch SportDesign wheels
in black high-gloss finish
with summer tires**

An eye-catching black high-gloss finish lends this classic racing design a dynamic flare. The black wheel centers call attention to the colored Porsche Crest adorning each 19-inch wheel.

**19-inch Carrera Classic
wheels with summer
performance tires**

A modern interpretation of the classic Porsche 5-spoke motif, this wheel echoes themes drawn from our Carrera GT supercar, with an open design that reveals (and cools) the powerful brakes of the 911.

**19-inch Carrera S II wheels
with summer performance
or winter tires**

True rolling technology, the 5-spoke, 19-inch Carrera S II wheel evokes the purposeful shapes of pure racing wheels. Five intricate, aerodynamic spokes project an authentic sense of functionality.

**18-inch Carrera IV wheels
with winter tires**

The 5-spoke, 18-inch Carrera IV wheel is standard equipment on the 911 Carrera. When fitted with winter tires, it also provides an ideal wheel set for dedicated cold-weather use.

19-inch SportDesign wheels in a black high-gloss finish with summer tires

19-inch Carrera Classic wheels with summer tires

18-inch Carrera IV wheels with winter tires

Sport tires

The Michelin® Pilot® Sport Cup tire was specially developed and comprehensively tested for the 911 model range (Type 997). Originally designed for competition use, it offers extremely high levels of dry-weather grip and a high-precision steering response. The results: stable handling and faster lap times. This capability has been augmented with excellent control in damp conditions. However, as with all high-performance tires, the low-profile shape can be a bit more susceptible to hydroplaning.

The Michelin® Pilot® Sport Cup tire is available in conjunction with the 19-inch Carrera Sport and the 19-inch Turbo wheel.

■ Compatible with vehicle.

– Not compatible with vehicle.

¹ Compatible with optional 5-mm spacers on front and rear axles.

² Only in conjunction with 17-mm spacers on rear axle.

³ Compatible with snow chains if spacers not fitted.

⁴ Not compatible with snow chains.

⁵ Winter tires up to max. 149 mph.

If you are unable to identify the correct wheel and tire specifications for your Porsche, please consult your Porsche dealer.

Note: The wheel hub covers shown are not supplied. All tires fitted are designed exclusively for Porsche, as indicated by the special Porsche designation (N0, N1, etc.) on the sidewall. Tires that do not carry this designation are not recommended for use on your Porsche.

Sport

Less is more?

Weight: yes.

Power: no.

Porsche's involvement in motorsports also pays dividends on the road. This is because we incorporate our developments on the racetrack into our production cars. But even a 911 can be perfected and personalized that little bit more with Porsche

Tequipment. How about a Short Shifter, a sport exhaust system or the Porsche Ceramic Composite Brake (PCCB)? For increased performance and even more driving pleasure.

Porsche Ceramic Composite Brake (PCCB)

Porsche Ceramic Composite Brake (PCCB)

Porsche Ceramic Composite Brake (PCCB) combines a carbon fiber-reinforced ceramic disc with high-performance composite pads and an internal system of intricate cooling channels to deliver unmatched thermal stability.

With six-piston monobloc aluminum calipers in front and four-piston units at the rear, PCCB delivers extremely high and consistent

levels of friction under braking for the ultimate in fade-free stopping power. Cross-drilled discs and water-resistant brake linings ensure equally superior performance in wet weather.

The decisive advantage of PCCB is a significant weight savings over comparable standard brake discs of approximately 50 percent. As well as enhancing performance and fuel economy, this huge reduction in both unsprung and rotational mass

offers major benefits in terms of comfort and roadholding.

See your local Porsche dealer for fitment options

Part no. 997 044 600 63

Sport exhaust system

The standard Porsche flat-six engine has a powerful acoustic presence. Better still, it can be enhanced with our dual-mode sport exhaust system. The sound depends on your style of driving, ranging from standard output during normal road driving to

a more aggressive tone during high-performance use. Modes are selected using a button on the center console. On vehicles with the optional Sport Chrono Package Plus, the fuller sport exhaust note is enabled when “Sport” mode is selected. The package also includes stainless-steel tailpipes with a hard chrome-plated finish.

Part no. 997 044 200 06

Shift throw with Short shifter

Short shifter

This short-throw mechanism provides quicker, sportier gearshift action and a more dynamic sports-car experience. This shifter reduces gear travel by approximately 20 percent and is compatible with all gear-lever options from Porsche Equipment interior packages.

Note: Gearshift action may be slightly restricted when vehicle is started from cold.

Part no. 997 424 983 00.

Sports bucket seat

For those who exploit the upper limits of the 911’s performance, Equipment offers sports bucket seats that hold you comfortably and securely in place under high cornering forces. A folding backrest enables easy access

to the rear luggage area. The backrest shell is a plastic reinforced with glass fiber and carbon fiber. Available in black leather with embossed Porsche Crest on the headrest, or in black flame-resistant material. Integrated thorax airbag and manual fore/aft adjustment.

Child restraint systems may not be used with sports bucket seats.

Seats with fabric cover.

Interior

Driving a Porsche means freedom.

Freedom to be creative, too.

Why should personalizing your 911 be confined to the exterior? After all, the color and design of the passenger compartment are also an expression of individuality. Give the interior your own personal touch. We have a range of elegant, high-quality materials to help you,

including Makassar, Carbon Fiber, Aluminum, Aluminum-Look or Alcantara.®

Each is available in a choice of Tequipment interior packages, all of which can be combined to give your 911 its own unique

character. The following pages will give you all the inspiration you need.

Carbon interior

Makassar

Makassar ebony is dark and distinctive with a modern, elegant look. The deep black heartwood has irregular reddish-brown streaks and a dramatic, marble-like texture.

Carbon Fiber

Carbon Fiber is a light but highly durable material which has motorsports origins. Its high-tech look gives a sporty feel to the interior.

Aluminum

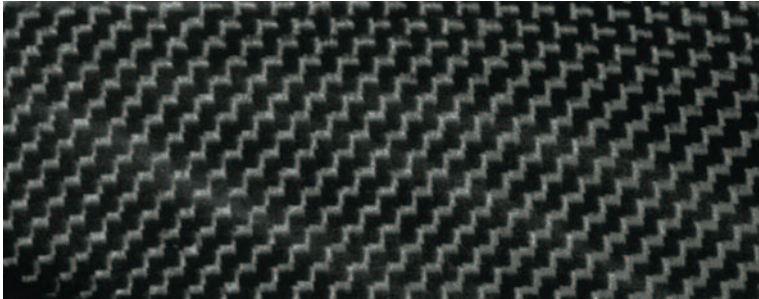

Aluminum or Aluminum-Look is a cool, elegant material that also reflects a classic motorsports heritage.

Alcantara®

This high-quality material is easy-care, washable and has a pleasant feel.

Audio and communication

Harmony, looks and performance go hand in hand

911 stands for exceptional performance, precision and progressive technology, right through to its audio and communication packages. Everything is perfectly in tune. For us, conceptual harmony has to be reflected in every detail.

The new redesigned PCM system is now even more powerful and multifunctional, yet it's easier to operate. You can choose to operate the PCM using the button controls or the 6.5-inch touchscreen. With a maximum of five list items per page, the screen displays information very clearly, and a help function is displayed at the foot of the

screen. The integrated single CD/DVD drive is—in combination with the optional Bose® Surround Sound system—now able to play back music from audio and video DVDs in the 5.1 digital format.

Electronic logbook for PCM

Electronic logbook for PCM

The electronic logbook enables automatic recording of mileage, route distance, time and date, starting point and destination as part of every journey. Once you have downloaded the logbooks from the PCM via Bluetooth® or the optional USB interface, you

can evaluate the data on your PC using the software supplied.

Part no. 955 044 900 29

Universal audio interface

Universal audio interface

This is integrated into the storage compartment in the center console and provides three connections: one for an iPod,[®] one for a USB stick, and one as an AUX interface for connecting any compatible audio source of your choice. The iPod[®] or USB stick can be controlled conveniently using the PCM and the multifunction steering wheel.

Part no. 997 044 902 34

Voice-control system for PCM

Almost all of the functions of PCM can be controlled using the latest optional voice-control system. Each menu item is read aloud exactly as it is displayed on the screen and the voice-control system recognizes the commands or number sequences, irrespective of the speaker. It gives audible feedback and guides you through the functions. There is no need to

“train” the system. Phone book entries can be retrieved, a radio station selected or the navigation destination entered directly by speaking whole words, rather than dictating one letter at a time.

Part no. 997 044 902 36

Bluetooth® hands-free phone interface

Bluetooth® hands-free phone interface

To enable Bluetooth® connection for those mobile phones that support the Hands-Free Profile (HFP), an optional hands-free phone interface is available. With HFP, the PCM acts as a hands-free system. The mobile phone can remain tucked away. The PCM can be used to control functions of the phone.

Part no. 997 044 902 33

Transport and car care

Put the sport into transport.

A Porsche delivers more than just track performance. Thanks to Porsche Tequipment child seats, it can also carry passengers below the age of 12.

And luggage? A superbly engineered and highly versatile Roof Transport

System is Porsche's answer to the age-old question, "What will we do when we get there?" Easy to install and remove, it accommodates everything from bikes to surfboards and skis, using the appropriate carrier. A wide range of load-

carrying accessories allows you to drive your 911 without compromising luggage capacity.

Child seats

Even children dream of traveling in a 911

Traveling in a Porsche is not just for grown-ups. With Porsche Tequipment child seats, it's for the little ones, too. Now passengers below the age of 12 need never miss out.

Child seats are undoubtedly

the most important automotive accessory a parent will ever purchase. Porsche Tequipment offers a full range of comfortable child seats with optimal freedom of movement. Tailored specifically to the 911's interior, Porsche child seats cover a range of young passengers from newborn to 12 years of age. In the front, child

seats are fitted using a special Porsche Child Seat Fastener System. Telescopic bars lock into place between the backrest and the child seat, holding it firmly in place on the passenger side. At the rear, standard three-point seat belts keep the Porsche child seats secure.

Child Seat Fastener System

The Child Seat Fastener System for the passenger seat includes fastening loops and lower anchorage points for mounting between the seat surface and backrest, as well as a key switch for deactivation of the passenger airbag. The passenger airbag must be deactivated when carrying children weighing less than 59 pounds (for U.S. and Canada).

Part no. 997 044 800 13

Note: To avoid risk of injury from a deploying airbag, never place a child age 12 or under in a front seating position without a dealer-installed airbag deactivation device.

Deactivating the passenger airbag

Child-seat preparation for front passenger seat

Child seats	Model	Group	Weight	Age	911 front	911 rear
	Porsche Baby	0+	0–29 lbs. (0–13 kg)	0–18 months	Yes	No
	Porsche Junior	1	20–40 lbs. (9–18 kg)	9 months–7 years	Yes	Yes
	Porsche Junior Plus Seat	2+3	33–80 lbs. (15–36 kg)	3½–12 years	Yes	Yes

Note: Child seats shown expected to be available Summer 2009. Prior to that time, current-generation child seats are available. Consult your local Porsche dealer for details.

Transport

Enjoy your favorite sport and your 911.

Luggage compartment liner

The high-density black polymer luggage compartment liner is tough, waterproof and washable—perfect for protecting the front luggage compartment against dirt and debris. Cleverly integrated handles make it easy to transport cargo to and from your 911.

Part no. 997 044 000 04

For 911 Carrera and Carrera S Coupe/Cabriolet only.

Roof Transport System

This flexible design carries a payload of up to 165 pounds and can be combined with a wide range of attachments. Rugged security caps and locks on all carriers provide optimal anti-theft protection.

Part no. 996 801 105 00
Coupe only.

Bike carrier

Lockable carrier for standard adult bikes up to a maximum

frame-tube diameter of 3 3/8 inches. Up to three bike carriers can be mounted on a single Roof Transport System.

Part no. 955 044 000 66

Roof box

A lockable plastic enclosure with an integrated ski-holder system provides an additional 10.9 cubic feet of storage capacity. Can be opened from either side of the vehicle. Dimensions: L 89" x W 22" x H 15"

Part no. 955 044 000 47

Ski/snowboard carrier

Two versions are available: one for up to four pairs of skis and up to two snowboards, and one for up to six pairs of skis or up to four snowboards.

Up to four pairs of skis or two snowboards.

Tool kit

Ordering Information

Order Toll-Free **1-800-PORSCHE**

8 a.m.–midnight ET, Monday–Saturday

Internet: If you live in the United States, order from our Web site at www.porsche.com/shop.

Phone: Call 1-800-PORSCHE (1-800-767-7243) 8 a.m.–midnight ET, Monday–Saturday. We accept Visa, Mastercard and American Express.

Shipping: Orders for in-stock merchandise will be shipped within two business days of receipt of your order. Not all in-stock items will necessarily ship together. If we are out of stock when your order is received, you will be notified of our expected ship date. Your credit card will not be charged until your item is shipped.

Delivery: A shipping and handling fee will be charged per delivery address for all orders shipped within the continental USA. Our standard shipping is UPS Ground. Bulky or heavy items may require additional charges. For quotes on expedited shipping and deliveries to Alaska, Hawaii and Puerto Rico, please call Customer Service at 1-800-PORSCHE.

Sales tax: We are requested by law to collect sales tax for all purchases shipped to addresses in most states. Refer to the packaging list enclosed with your order for the actual amount. If you have any questions, please call a Customer Service Representative at 1-800-PORSCHE.

Gift box: We will place items in a Porsche Design gift box for an additional \$5 per two items. Some items may be too large for gift packaging, but we can include a gift message with any order.

Can I return an item I ordered? Yes.

We guarantee your satisfaction with all merchandise purchased at Porsche Design Driver's Selection Online Shop. Items may be returned for a refund of the purchase price, less shipping and handling fees, to our PCNA Selection Return Processing Center. Porsche Equipment items purchased from any other retailer must be returned to that retailer. Please contact 1-800-PORSCHE for directions when returning merchandise purchased from the Porsche Design Driver's Selection Online Shop.

Returns/exchanges: Simply return your item to us within 90 days of purchase, with the reason for the exchange/return noted on the back of your packing slip. Ship via insured carrier to us at the address on your packing slip. We will exchange your order or credit the value of the merchandise and any taxes you were charged. For further information, contact us at 1-800-PORSCHE.

*Ordering from the Porsche Design Driver's Selection Online Shop is not available in Canada.

Porsche Financial Services

Competitive, convenient and carefully crafted financing options can be customized to meet your needs. Ask your certified Porsche Sales Consultant for details.

Porsche Approved Pre-Owned

Only the best Porsche cars earn the right to be called "Certified." A meticulous 111-point inspection, a 2-year or 50,000-mile Limited Warranty, and 24-hour Roadside Assistance make this program one of a kind. Contact your Porsche dealer for details.

Porsche Exclusive

Realize your vision of the perfect Porsche with our factory customization program. From styling enhancements to performance upgrades, all modifications are uniquely handcrafted for your Porsche.
