

EXTERIOR Protection

Environmental and man-made hazards are a constant threat to your new vehicle's exterior. Oxidation from sun damage, bird droppings, water spotting, insects and tree sap are a few of the adverse effects that can damage your exterior finish. To better protect your new investment, we offer and highly recommend the DuPont™ Automotive Protection Package.

The DuPont™ Exterior Protection helps to maintain the beautiful high gloss finish of your vehicles exterior. The application of this product will allow you to easily remove insects or debris that land on your vehicle and safeguard your finish from water spotting and harmful UVA/UVB rays. Additionally, your new wheels will be protected from brake dust penetration and your headlights from yellowing and clouding.

INTERIOR Protection

The DuPont™ Interior Protection is the best line of defense against what man and nature have to throw at your new vehicle's interior.

Fabric and Carpet Protection

Once applied, DuPont™ Interior Protection provides a barrier on your carpet and fabric making clean up a breeze at the time of occurrence. Spills and splatters from drinks or food are easily removed allowing you to extend the life of your brand new interior. And there's no need to reapply!

Leather and Vinyl Protection

Though tough and durable in their own right, leather and vinyl surfaces are still vulnerable to soiling and staining. DuPont™ Interior Protection helps to prevent fading, discoloration and cracking of the interior finish by acting as a barrier keeping the environment and man-made mishaps from penetrating the surface.

Enjoy the value of your new vehicle longer by protecting it with the DuPont™ Automotive Protection Package.

INTERIOR Protection

The second line of defense against what man and nature have to throw at your new interior lies in the Interior Protection Solution and application.

Fabric and Carpet Protection

Once applied, this versatile solution bonds to and seals the carpet and/or fabric fibers making clean ups a breeze when properly addressed. Spills from liquids and drinks are easily managed allowing you to extend the life of your brand new interior. And there's no need to reapply!

Leather and Vinyl Protection

Though tough and durable in their own right, leather and vinyl surfaces are still vulnerable to wear and tear due to normal usage and exposure. Fading, cracking and premature aging are prevented by the application of the Interior Protection Solution. The solution also acts as a barrier and keeps spills from penetrating the surface.

Enjoy the value of your new vehicle longer by protecting it with DuPont™ Automotive Protection Package.

- Repels spills and stains from:
