Powertrain Coverage	7 years*/100,000 mi.†
New Vehicle Limited Warranty	6 years/70,000 mi. 

The Acura Certified Pre-Owned Vehicle Limited Warranty extends the powertrain coverage to 7 years*/100,000 miles.†

Non-Powertrain Coverage—Within New Vehicle Warranty	5 years*/62,000 mi.†
New Vehicle Limited Warranty	4 years/50,000 mi. 

The Acura Certified Pre-Owned Vehicle Limited Warranty extends the non-powertrain coverage by 1 year/12,000 miles to 5 years*/62,000 miles.†

Non-Powertrain Coverage—For Vehicle Purchased After New Vehicle Warranty Has Expired	1 year/12,000 mi.
	Date of Pre-Owned Vehicle Purchase
New Vehicle Limited Warranty	4 years/50,000 mi. 

The Acura Certified Pre-Owned Vehicle Limited Warranty provides non-powertrain coverage for 1 year/12,000 miles from the date of certified vehicle purchase.

Covered vehicles must be purchased from a participating Acura dealer only and reported as a Certified Vehicle by that dealer to AHM. Vehicles must be distributed by AHM through the Acura Division and be registered in the United States.

* From original in-service date.
† Based on odometer miles.

COVERAGE Acura will repair or replace any part covered by this warranty that is defective in material(s) or workmanship under normal use (see Proper Operation) for 12 months or 12,000 miles, (whichever occurs first), after the new car warranty expires, and 7 years or 100,000 miles (whichever occurs first) on the powertrain. (See 'What Is Covered' on page 8.) The 7-year/100,000-mile powertrain coverage begins on the original new car registration date.

This limited warranty starts with the expiration of the Acura New Vehicle Limited Warranty, or from the date of sale of the Acura Certified Vehicle if the factory warranty has already expired.

All repairs or replacements made under this warranty are free of charge.

Upon the sale of the vehicle, private party to private party, this warranty is transferable. The new owner shall be afforded the balance of the 12-month/12,000-mile coverage plus the remaining portion of the 7-year/100,000-mile powertrain warranty.

(PARTS COVERAGE - Refer to page 11 for parts coverage.)

EXISTING WARRANTIES The coverage is offered in addition to and separate from all other Acura limited warranties and commences only when the existing new vehicle limited warranties have expired (except the Rust Perforation Limited Warranty and Seat Belt Limited Warranty, which may continue concurrently with Acura Certified Vehicle coverage).

Please refer to the New Vehicle Limited Warranty Manual (in effect at the time the vehicle was delivered to the original retail purchaser) for other warranties that may apply. This limited warranty does not extend the length of any existing warranties or provide any additional rights to the consumer under federal, state or local regulations.

How to Get Warranty Service

For warranty service, take your vehicle to an authorized Acura dealer during normal business hours. A warranty identification card will be issued by Acura and sent to you two to four weeks after delivery of the vehicle. If this card has not arrived, or if it is lost and the dealer is not familiar with your vehicle, you will need the proof of purchase date (such as a properly completed inside front cover page of this booklet). Your Acura dealer may request your automobile VIN to confirm that your vehicle is an Acura Certified Vehicle.

IF YOUR VEHICLE CANNOT BE DRIVEN, CONTACT EMERGENCY ROADSIDE ASSISTANCE.

If your warranty claim is for a replacement part or an accessory that was originally installed by an authorized Acura dealer, you will need to show proof of vehicle mileage at the time of installation.

Emergency Repairs

Acura recognizes that your vehicle could develop a serious problem and require immediate repair at a facility other than an authorized Acura dealer. Acura will reimburse you for that repair if all of the following conditions are met:

- The repair would normally be covered by this warranty
- There were no authorized Acura dealers within 50 miles of the breakdown, or if local dealerships were closed at the time*
- The vehicle was immobile, or if attempting to drive would cause further damage or be unsafe
- Must receive prior approval from Acura Care. Please call 1-888-68-ACURA (22872)

For reimbursement, go to any authorized Acura dealer. You must show a copy of the paid receipt and the replacement part(s). The dealer will reimburse you for the parts at the current manufacturer's suggested retail price. You will be reimbursed for the labor at a geographically appropriate labor rate for Acura's recommended time allowance.

* Concierge Service, at 1-800-594-8500, can provide you with the location of the nearest Acura dealer anywhere in the United States or Canada (see Additional Benefits).

ADDITIONAL LIMITATIONS

This limited warranty does not cover repairs needed on vehicles equipped with parts other than approved Genuine Acura parts or accessories if the non-genuine part or accessory caused or contributed to the mechanical breakdown.

Repairs needed as a result in whole or in part because of:

- Failure to perform maintenance or customary lubrication services, or the use of fuels, oils and/or lubricants other than those required by the Acura Owner's Manual or as otherwise specified by American Honda
- Failure to stop driving and/or protect your vehicle from further damage after a mechanical breakdown occurs
- Failure to maintain proper fluid levels that result in a run low or lack of lube failures
- Misuse or abuse (e.g., overloading, racing, or other types of competitive driving activities, or moving snow), or negligence, modification, alteration, tampering, disconnection, improper towing, or any improper adjustments, servicing or installation of parts (e.g., spark plugs or timing belt) that result in engine or vehicle damage, or using the vehicle in a manner not recommended by American Honda
- Vibration, deterioration, discoloration, distortion, deformation and/or fading

What IS NOT Covered (cont.)

ADDITIONAL LIMITATIONS (cont.)

- Environmental causes, such as rust/corrosion, water leaks, acid rain, fall-out (e.g., chemicals, tree sap, etc.), salt, hail, flood, lightning, cyclone, fire, windstorm, earthquake or other acts of God
- Accidental loss, or external causes such as contaminated fuel, revolution, war, riot, vandalism, or any other event or cause beyond the reasonable control of the parties
- Any condition that existed prior to sale
- Any work performed for the purpose of improving compression or reducing oil or fuel consumption, or any other work performed when a mechanical breakdown has not occurred
- Repairs performed outside the United States or Canada
- Repairs for mechanical breakdowns covered under Acura's New Vehicle emissions system limited warranty, Seat Belt or Corrosion Warranties, any Acura dealer's or other service establishment's guarantee, or any other form of warranty or insurance coverage
- Repairs prohibited by statute, governmental regulation, or any other law
- Service needed to diagnose your complaint, if no mechanical breakdown is found to have occurred

Any consequential or incidental damages incurred or suffered, directly or indirectly, including, but not limited to, mechanical breakdown or failure of a covered part damaged by a non-covered part, loss of use of the vehicle, loss of time, inconvenience, lost profits, lost business revenue, failure to realize expected savings, or any other economic loss of any kind whatsoever, even if American Honda has been advised of the possibility thereof.

Recharge of air-conditioning system; repair, modification, alteration or conversion of air-conditioning system necessitated or caused by the unavailability of R12 refrigerant.

This limited warranty does not cover repair costs:

- Once the aggregate of paid repair costs exceeds the price you paid for the vehicle or for a specific claim that is greater than the applicable replacement cost of the vehicle as determined by American Honda
- If you fail to produce all maintenance records pertaining to covered parts that require routine maintenance and sustain a mechanical breakdown
- If the odometer of the vehicle is altered, disconnected or otherwise inoperable so that actual distance traveled cannot be accurately determined
- If at any time Acura determines that the vehicle is being used for commercial purposes, including but not limited to: deliveries, service calls, hauling, plowing, rental, carrying passengers for hire, law enforcement, fire, ambulance or emergency services, whether or not the vehicle is licensed for commercial purposes or registered to a corporation.
- If for any reason the vehicle's factory warranty has been voided by American Honda

What IS NOT Covered (cont.)

ADDITIONAL LIMITATIONS (cont.)

Acura disclaims any responsibility for loss of time or use of the parts, or the vehicle in which the parts are installed, transportation or any other incidental or consequential damage. Any implied warranties, including the implied warranty of merchantability and fitness for a particular purpose, are limited to the duration of this written limited warranty. These limitations may not apply to your vehicle because some states do not allow limitations on how long an implied warranty lasts, or they may not allow exclusions or limitations of incidental or consequential damages.

Proper Operation and Maintenance

With proper use and regular maintenance, your Acura Certified Pre-Owned Vehicle can reward you with years of reliable service and low operating costs.

PROPER OPERATION This means using the vehicle as it was intended. Acura passenger vehicles are designed to transport people and luggage on reasonable roads within the legal speed limit. Four-wheel-drive vehicles may be used off-road, but the driver must always use good judgment when determining appropriate speeds for the terrain and conditions.

Your Acura requires unleaded gasoline of the proper octane number (Anti-Knock Index). Exceeding the vehicle's load limit (too much weight either carried or towed) puts excess strain on the engine, brakes and other components and should be avoided. See your Owner's Manual for gasoline recommendations and where to find the load-limit label on your vehicle.

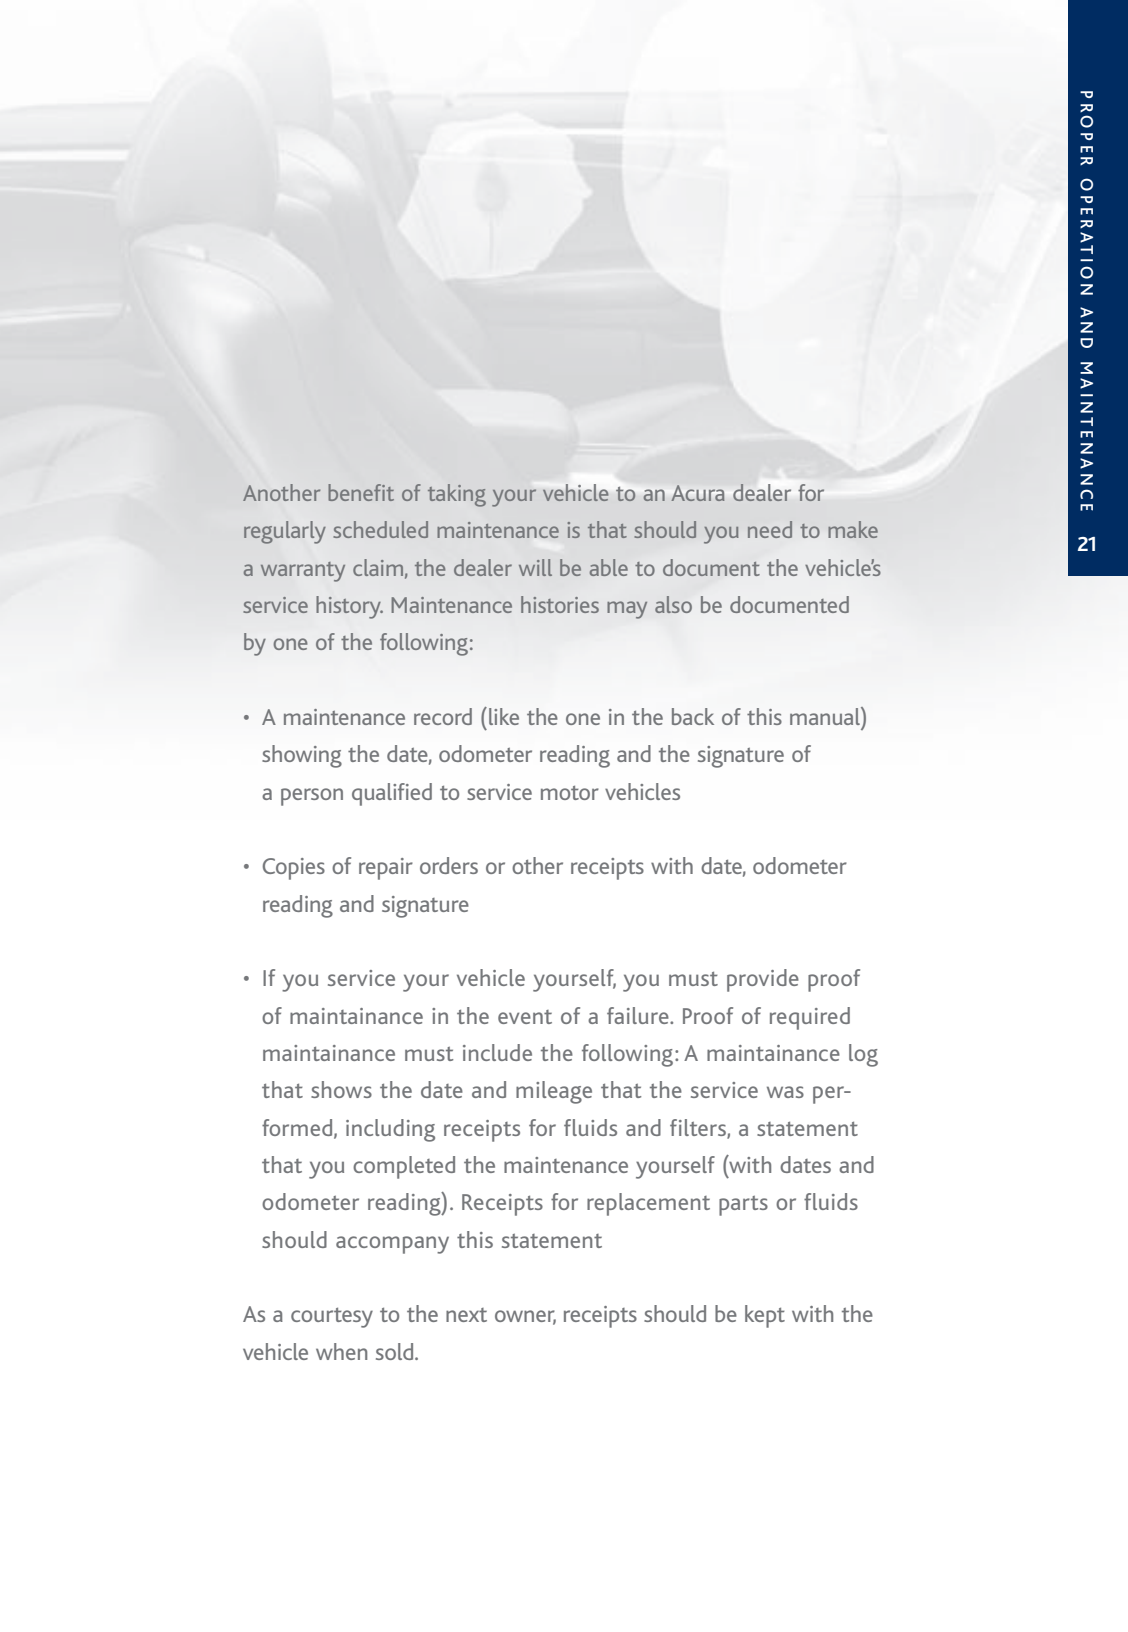

Proper Operation and Maintenance (cont.)

MAINTENANCE Check the engine oil and radiator coolant levels every time you fill the gas tank. These fluids protect your vehicle's vital systems and checking them regularly could help detect potential problems.

It is very important to follow the maintenance schedule in your Owner's Manual. Time and mileage intervals should not be exceeded. Parts that fail due to improper maintenance are not covered by this warranty.

The personnel at your authorized Acura dealer are fully trained and equipped to perform proper and efficient maintenance on your Acura. Service at the dealer is not mandatory for continued warranty coverage, but is recommended. You may perform your scheduled maintenance yourself, or have it done by someone other than an Acura dealer.

Another benefit of taking your vehicle to an Acura dealer for regularly scheduled maintenance is that should you need to make a warranty claim, the dealer will be able to document the vehicle's service history. Maintenance histories may also be documented by one of the following:

- A maintenance record (like the one in the back of this manual) showing the date, odometer reading and the signature of a person qualified to service motor vehicles
- Copies of repair orders or other receipts with date, odometer reading and signature
- If you service your vehicle yourself, you must provide proof of maintenance in the event of a failure. Proof of required maintenance must include the following: A maintenance log that shows the date and mileage that the service was performed, including receipts for fluids and filters, a statement that you completed the maintenance yourself (with dates and odometer reading). Receipts for replacement parts or fluids should accompany this statement

As a courtesy to the next owner, receipts should be kept with the vehicle when sold.

Traveling or Relocating Outside the United States

Vehicles purchased from an authorized Acura dealer in the U.S. are designed to meet government safety and emission specifications. Other countries may have different standards.

PRIOR TO DEPARTURE Acura's Automobile Customer Service can provide information on Acura distributors in the area that you plan on traveling to, and check your vehicle's history and inform you of any campaign or recall repairs that need to be completed. In addition, Automobile Customer Service will provide a Certification letter stating that your vehicle currently meets all U.S. emission standards.

If you are planning to take your Acura outside the U.S. or Canada, contact the tourist bureaus in the areas you will be traveling in to find out about the availability of unleaded gasoline with proper octane rating for your Acura.

If you plan to export and register your Acura in another country, we recommend you contact the vehicle import agency in that country to determine requirements. Acura does not have that information.

If unleaded gasoline is not available, be aware that using leaded gasoline in your Acura will affect performance and fuel mileage, and damage its emissions controls. It will no longer comply with U.S. and Canadian emissions regulations, and will be illegal to operate in North America.

To bring your car back into U.S. emission compliance requires the replacement of several components, such as the oxygen sensors and three-way catalytic converter. These replacements are not covered under **this** warranty.

Warranty Coverage Outside the United States

ACURA VEHICLES REGISTERED IN THE U.S. AND REGULARLY DRIVEN IN OTHER COUNTRIES ARE NOT COVERED BY THIS LIMITED WARRANTY.

Acura dealers outside the United States will not honor this warranty. If you are traveling and have your Acura Certified Pre-Owned Vehicle repaired at an Acura dealer in another country, contact Acura Client Services for information on reimbursement for covered repairs.

Client Satisfaction and Problem Resolution

As an Acura owner, your complete satisfaction is our highest priority. Personnel at your authorized Acura dealership have the training and experience to provide the best possible service for your vehicle.

If you are not satisfied with any maintenance or repair work done by the dealership, your first recourse is to discuss your concerns with the dealer's Service Manager or General Manager. In most cases, you will be able to find a satisfactory solution within the dealership.

If you are not satisfied with your Acura dealer's decision, call Acura Client Services at 1-800-382-2238, or write to:

Acura Client Services

Client Satisfaction and Problem Resolution (cont.)

Tell us the name of the dealer who is servicing your vehicle and let us know if repairs relating to this problem were made by anyone other than an authorized Acura dealer. Include a detailed explanation of the problem and why you think Acura should be responsible for the repair.

Your correspondence will be investigated, and you will receive a reply from Acura. The Acura Client Services staff is committed to working with you and the dealership to find a satisfactory solution.

If you disagree with the decision from Acura Client Services, you may request to have your case reviewed in an independent forum run by the Council of Better Business Bureaus (BBB). The program is called "BBB Auto Line." You may file a claim at any time by calling toll-free: 1-800-955-5100. Your call will be automatically directed to the BBB in your area.
